AND THE THE PLANT OF THE PROPERTY OF THE PROPE

What is an Orphan Truck?

An orphan truck is one that is not represented by a local dealer, and for which no local dealer carries

The owner of an orphan truck cannot go to a local dealer for service, and this means that he is not get-fing part of the purchase price of his car. He must send away for extra parts, which results in his track being idle at the time be needs it the most. It is just as important to buy your truck from a local dealer as it is to buy a good truck.

An orphan truck is expensive at any price. Buy an Acason Truck and you can secure parts and service at all times.

as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headachs, yellow-coated tongue, bad taste in mouth, manea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloc, ialan, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Peliets.

It is the easiest way to get them, but it is the hardest way to hold them.

- Even it you marry them, there is danger shead.

- A marriage not based on mutual respect cannot be happy.

The sex appeal does not last.

The girls who tries to catch a man this way is very foolish. Men are attracted generally only for a little wille and seldom to the point of marriage.

Then she has to catch another and another until her charms are faded and gove.

In the whirlwind of passion, hate and love are closely linked, and frequently exchange places.

If a girl be unskilled in the art of sex attraction she becomes vulgar in the attempt. If skillful the intelligent man is apt to think.

"Who taught her all this," His respect for her is dead

This way is the best way to get candy and flowers, maybe jewels, but the worst way to try to hold a man.

lires When Your Tires "Cash in Your Checks

Just as certainly as you buy a tire, you know that some day it will "cash in its checks"—and yours!

That day you'll measure its mileage against the sum you paid for it. Not until then, probably, will, you know whether that brand of tires really gives you your moneys' worth— Unless those tires

be Diamonds. You can count on Diamonds to 1 roll *up. 5;000, 6,000 and 8,000 miles persistently— though they COST LESS than most other tires.

For example, in winter driving with chains, 341 Diamonds averaged over 5,000 miles on Quaker Cab. Co. taxis in Philadelphia. The Texas Co-with over 500 cars, averages between 6,000 and 8,000 miles with Diamonds.
