

DAILY EAST OREGONIAN, PENDLETON, OREGON, THURSDAY, APRIL 17, 1919.

CITY COUNCIL DRAFTING NEW TRAFFIC CODE CONFORMING TO STATE LAWS

BANDSTAND CONTRACT LET LAST EVENING

Eleven O'Clock Amusement Closing Law May be Changed.

New traffic ordinances for Pendleton, brought up to date and in conformance with the new state law, will be submitted to the city council at a special meeting Friday evening. The ordinances will differ in many respects from those now in effect, according to City Attorney J. A. Fee, who has the first draft ready for the ordinance committee.

Declaring that the 11 o'clock amusement closing law was working an injustice on places which sell food and soft drinks and have neither games nor place for "loafing," members of the council, led by J. H. Estes, passed a resolution to refer to the ordinance committee the matter of amending the closing ordinance, so that soft drink parlors might remain open until after dances and shows close. Under the present workings of the law, persons can get nothing to eat or drink after 11 o'clock, nor can tobacco be sold. This, they claim, works a dual hardship, affecting both the merchants and the public.

South Hill Sewer.
Plans and specifications for the proposed south hillside sewer were submitted by F. B. Hayes, city engineer, and on motion referred to the sewer committee for closer inspection. The proposed improvement starts at High and Jane streets, runs to Bluff, thence on Bluff to Calvin, thence on Calvin to the intersection at Railroad and Calvin streets. Petition for extension of a sewer on Pine street was denied by the committee and their action upheld by the council on the ground that private connections may be made without excessive inconvenience.

Permission was granted the Troy Laundry to install a new boiler and other machinery and erect a new smokestack, within the fire limits of the city.

To Build Band Stand.

Dunham, Brownlow & Payne, successful bidders on the erection of the municipal bandstand, were awarded the contract for \$362. The stand will be built on city property in Pioneer Park, all but one of the councilmen favoring the north side site. The stand will be used for concerts, patri-

otic addresses and other public affairs of an open air nature.

Among the bills presented and ordered paid was one from the U. S. treasury department for \$5, the tax on the billiard and pool tables in the firemen's quarters in the city hall. The new motorcycle purchased for the police department was also ordered paid for, as well as a number of miscellaneous bills.

\$2500 Improvements At Troy Laundry Announced by Manager

Improvements amounting to \$2500, and including a steam engine and a new boiler, will be installed immediately at the Troy Laundry on Garden street, by the proprietor, Harvey Bender.

To meet the demands of a growing business, the steam engine will be used in conjunction with the electric power now in use, while the boiler will be an improvement on the old equipment. The new additions will be placed at the rear of the building.

A reduction of expenses and better service, according to Mr. Bender, will result from the new system.

Lilies to be Missing, Eggs Higher for Easter

PORTLAND, Or., April 17.—Spring lilies have made their appearance for the Easter trade, the first arrivals being shown during the day. Prices are just a fraction below those of a year ago. A year ago they were \$20. There will be no supply of Easter lilies this season, according to recent announcement made by Portland florists; due, they say, to the fact that the government refused to allow them to import bulbs from Holland, because of shortage of shipping space.

Eggs for Easter will be higher priced this season than ever before known, the price today being 13 to 14 cents a dozen above the previous high record reached a year ago.

SCHOONER BURNS

WASHINGTON, April 16.—The navy auxiliary schooner *Pensacola* is reported to have caught on fire off Fennick Island in shoals near the Delaware breakers, April 13, the navy department announced. The U. S. S. McKean rescued all hands.

H. LATOURELLE WRITES AS SHIP NEARS N. Y.

On his way back to the states, H. P. Latourelle, in the navy and aboard the U. S. S. *Pittsburg*, writes to his father, H. J. Latourelle and says that he expects to make many more trips but hopes to be home for 30 days next August. Following are extracts from the letter:

St. Thomas, Virgin Islands, April 3, 1919.

"In one week we expect to be in New York. Of course you cannot have much of an idea of what that means. But I've been waiting for this moment for the past two years and they were long years too.

"Our trip so far has been pretty good. One unique feature of it is that we went to Trinidad Island and picked up a crew from a shipwrecked sailing vessel and we are bringing them to New York. This is not the Trinidad of the coast of the northeastern part of South America but it is a little island almost due east from Rio de Janeiro. It is an out of the way place that most maps do not show.

"Our next stop was at St. Thomas, Virgin Islands. It is the first place belonging to Uncle Sam we have struck since we left Panama in 1917. This place is very pretty and is noted for having the castles of the famous pirates, Black Beard and his brothers, Red and Blue. I thought the story a myth until I saw the castles with my own eyes.

"The natives of the city are coaling for us. Some men but mostly women for 14 years up are doing the work. They carry the coal in baskets, about 50 to 100 pounds, on their heads. We are taking 1600 tons. They get two cents a basket for carrying it.

"We will be in New York in about a week then we go to the navy yard and then shove off for Brest for a load of dough-boys. We may make 150 trips across and we may make only one. You would know why I say this if you were in this outfit. You can't always tell what is going to happen. There were times during the war when the people at Washington didn't even know where this ship was if they did, can't understand why they sent sailors for the Pittsburgh down the west coast of South America and then brought them back to New York and then sent them down again so you see it's always best not to plan much.

"This ship may be on the west coast by July or August and then there will be nothing to keep me from coming home for 30 days."

Baker to Return to States in 10 Days

PARIS, April 16.—Secretary Baker in an interview with a correspondent said he had not yet determined whether or not the Americans will participate in the indefinite occupation of Rhineland. If the American forces should, he said they will be volunteers. He declared the army hopes to repatriate 275,000 soldiers in May and 300,000 in June.

Baker said he expects to return to America in 10 days. In the meantime, he will cooperate with the liquidation commission which is handling vast American materials and structures, and will review some of the troops and will possibly visit Coblenz.

ANOTHER WAR BRIDE BACK TO AMERICA

MME TEISANU
Madame Telsanu, bride of Major Teisanu, military attache of the Rumanian legation in Washington, has just returned to the capital with her husband. Following their marriage last summer, when duty called her husband into the war zone Madame Telsanu accompanied him. She was Miss Adele Humpreys, daughter of Samuel Humpreys, a prominent and wealthy Philad phian, before her marriage. Her return to America is hailed with pleasure in Washington social and diplomatic circles.

TO SIGN IN 10 DAYS
PARIS, April 16.—The Echo de Paris says it understands the German delegates will be given eight or ten

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; Hayling Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

days to sign the peace preliminaries, and that in the meantime an emissary will be sent to Weimar.

NORTH BEND SCHOOLS PAY MINIMUM SALARY OF \$85

NORTH BEND, April 17.—A minimum wage scale of \$85 for teachers in the ward schools has been determined by the North Bend school board. The minimum for high school teachers is \$100 a month. The salary of Superintendent Robert Goetz has been \$100 a month. The salary of the teachers have been raised for the next term of school and further selections are yet to be made.

GENERAL DICKMAN SUSPENDS NEWSPAPERS

COBLENZ, April 17.—The morning and evening editions of the Coblenz papers were ordered suspended for three days by General Dickman for criticizing the allies in connection with an article on developments in Hungary. This was the first offense of the newspaper.

Commenting on the Hungarian situation the article said: "The responsibility is to be placed upon the deluded centric imperialists who are thus preparing for their own destruction and that of the monstrous peace they have planned."

ARMY AVIATORS WILL PILOT ON RANCH

ANSONIA, April 17.—Announcement was made here that Ehrhardt Schmitt of this city, a former army aviator, will leave soon for Harden, Mont, where he will be employed as a flier on a wheat ranch owned by J. P. Morgan. One of his duties will be to pilot the ranch manager to dis-

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache, or if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

NOTICE to Automobile Owners

I wish to announce that I have opened an up-to-date automobile repair shop at the corner of West Alta and Ann St., where I will be equipped to handle your work with promptness and efficiency. My years of experience with the Simpson Auto Co., where I did practically nothing except the repairing of Ford cars has especially fitted me to handle your work satisfactorily.

Even Two Coats of Paint Give Less Than a Hundredth of an Inch Protection

When you know that you must depend on a paint film less than a hundredth of an inch thick to protect your buildings from weather's wear and tear you begin to realize the vitalness of buying the right paint.

An outside paint must be not alone waterproof but weatherproof. Making a paint weatherproof is the difficult part. If it is not weatherproof it will not long stay waterproof.

To be weatherproof, the paint film must be so elastic that it will expand or contract with the weather's changes—and do it without cracking.

Low Brothers
HIGH STANDARD LIQUID PAINT

is specially made to meet these conditions, photographed; yet it was as flexible as a handkerchief.

If you have been having paint troubles, or want to prevent them, tell us about your painting needs. The expert advice given so gladly will cost you nothing. It may save you a fortune.

The picture above is taken from a photograph showing a two-coat film of High Standard Paint held in the hand. The film was over two inches thick.
