EARTH'S SWEETEST SOUND

The musician with his ear
Bent to catch the violin's tone,
Thinks earth's sweetest sound
Is when
Its heart echoes to his own.

Poet hearing best loved lines
Read in silver-toned accord
Thinks the music of his rhymes
Sweeter than the song of bird.

Father coming home from war,
In the peaceful sounds of home
Hears a music more divine
Than the world before his
known.

Lover waiting the reply
Which he hardly dares to
guess,
Hears celestial melody
In the simple answer—"yes."

But to ear divinely tuned,
Broken though the words may
be,
Ebbe and mother's cooling talk
Is earth's perfect harmony.
—RAYMOND E. BAKER

PROTECT YOURSELF

THE man who fails to take his share of the Victory loan bonds when able to do so penalizes himself more than anyone else. He neglects his own war record and by so doing may lay up much embarrassment for himself in the future. He may not be questioned by others but he will never feel quite right with himself. How could he?

When you buy Victory

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how clear, soft and rosy-white the skin becomes. Yeet! It is harmless and never irritates.

Loss of Appetite is also loss of vitality, vigor, tone. To recover appetite and the rest take Hood's Sarsaparilla, that strengthens the stomach, perfects digestion, makes eating a pleasure. It also makes the blood rich and pure, and steadies the nerves.

TURN HAIR DARK WITH SAGE TEA

IF MIXED WITH SULPHUR IT DARKENS SO NATURALLY NOBODY CAN TELL.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked or faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyneth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyneth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove it

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

bonds you not only take a step to help the country and the army but you protect yourself. You will have to live with your conscience for the rest of your life. Keep that in mind.

SOMETHING LACKING

TWO youngsters, a girl and a boy, runaways from home, were stopped here yesterday to be returned to their parents. They declared that things at home were not all rosy to their way of thinking. On first thought one will place the blame on the waywardness of the children. Are the children or are the parents to blame, no matter what the state of affairs at home?

If home to a youngster has really been a home, if influences have been such that home is appreciated, only in abnormal cases should there be a desire to run away. Possibly something in the life of these children, for such they were, is lacking. Perhaps the gentle tap of father's slipper has been forgone or the loving care of an indulgent mother has been neglected. Or there may have been too much pampering of one or both.

Home building is declared to be an art which all too few fathers and mothers are adepts in. A house is not a home, even though there may be plenty of money to supply every want. There is a tie which exists between parents and offspring which determines what is home.

Some children need consolation and instead are thumped. Some need punishment and are pampered. Parents who do not know their own children may prove these youngsters' worst enemies, for the mark they leave upon them in the formative period shows throughout life.

It takes a deep sympathy and long study for parents to understand their children. More comradeship between mothers and daughters and between fathers and sons would lessen this insane desire to leave home prematurely.

AIR TRAVEL OR "STUNT"?

BEHIND the sporting interest of the first air-crossing of the Atlantic lies the bigger question how, or whether, crossing can be made reasonably safe; not a "stunt" but the precursor of actual air travel.

Most of the aviators who in various parts of the world are planning the "big hop" work along lines of comparative safety. None are more honestly following this course, the only one of the slightest permanent value, than our own navy airmen. They will have rescue craft strung like beads along their line, strong wireless apparatus, boat bodies capable of withstanding fairly rough water in a forced descent.

LIFT OFF CORNS!

Doesn't hurt a bit! Sore corns lift right off with fingers.

Costs few cents! Drop a little Frezzone on that tough corn, instantly that corn stops hurting, then you lift it right off with your fingers.

Why Wait? Your druggist sells a tiny bottle of Frezzone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and values, without soreness or irritation. Frezzone is the much talked of discovery of the Cincinnati genius.

manent value, than our own navy airmen. They will have rescue craft strung like beads along their line, strong wireless apparatus, boat bodies capable of withstanding fairly rough water in a forced descent.

The extreme example of the opposite course is furnished by Mr. Hawker, a racing pilot out to capture a \$50,000 prize, who has so sacrificed safety to speed as to rob success of value as a precedent, since his methods cannot be safely followed. With his strong wireless, discarded because of weight and only a weak receiver left, and with even his underbody dropped after the start, so that, without wheels, he must land in a crash, he is taking long odds and hardly inviting imitators.

But after all these gallant men, what a flight! So swift to meet the sun that the day is shortened to twenty-one hours; so high that the rudest sea seems a plane; so chill that April is Arctic; so trackless that a change of wind during the night may drive them miles off their course, and a veiled sun, preventing corrective observations, prove a calamity—and to sustain the arduous, dangerous task, the spirit of pioneer, the valor that would make history and leave a name!—New York World.

28 YEARS AGO

(From the Daily East Oregonian April 18, 1891.)
Dr. and Mrs. J. W. Morrow, of Echo, are at Hotel Pendleton.

Henry Koopke, wealthy farmer of the Helix precinct, is in the city today.

Frederick Morgan for the First National Bank building are on the road and will reach Pendleton Monday.

W. E. LaDow, son of Dr. LaDow, of this city, is here visiting relatives.

Charles Cunningham has a large force busy shearing sheep at the Ross place on Birch creek.

Marshall Morgan is still interviewing delinquent Pendleton taxpayers. He has collected about \$600 of the \$1900 delinquent for 1891.

The remains of William Rector were interred at Echo Thursday. Mr. Rector was cut down in the prime of manhood by an attack of pneumonia.

In a few weeks' the league of vacations will begin to function.

EASTER— and New Clothes

Last Easter was a martial Easter. Brass buttons and braid, khaki and blue were all the go. But this year styles have changed. A new type of clothes for the new type of men. Renewed by events of the war, American men require clothes to set off their vigor and their ambitions—clothes brisk and buoyant in design—styles with vim and go and punch.

THE HOUSE OF KUPPENHEIMER

has created such clothes for the men of this community—clothes that interpret the times, "ace-high" in dependability and accuracy of fit; fabrics that have life; smart patterns and color tones. The kind of clothes that will fully satisfy your careful regard for your appearance at Easter or any time. Values equally satisfying—\$35, \$40, \$45, \$50.

See Our Ad on Page 3

EASTER HATS FOR MEN

Who want not only the best value but good looking and stylish. We can fit you and we can please you. Come in tomorrow and have a look, \$1.00 to \$7.50

THE FUNNYBONE

The soldier who believed in camouflaging unpleasant news in his letters home was scribbling a note to his mother as he rested on his way to the guardhouse surrounded by his guards.

"Dear mother," he wrote, "I'm quite well and going strong. At present I'm in charge of a squad of men."

His mother was delighted.

First Doctor—You have been spreading the report that I have poisoned several people in this town. I want you to take it back.

Second Doctor—Certainly, I don't hesitate to say that there are several people in this town whom you have not yet poisoned. Hope you are satisfied now.

It was Dora's first trip on the ocean and the water kept on going seaway and silpide and heave-ho, and all sorts of uncomfortable, disagreeable things; so that Dora began to get a little giddy and dazed and tired and hazy.

Clapping a large doll in her arms, she stood upon the deck by her mother's side.

"Mamma!" she suddenly exclaimed, and her face turned to a delicate pale green.

"Yes, darling; what is the matter?"

"Oh, nothing, mamma! But I—I don't think the rabbit I had for dinner could have been quite—quite dead!"

Unexpected must have been the re-

ply of the husband whose wife said: "You have never taken me to the cemetery."

"No, dear," he answered, "that is a pleasure I have yet in anticipation."

"What did the critic think of Scribner's latest novel?"

"Not much! One said it might be a good book to read in a train, if there were plenty of charming scenery to look at along the route."

In a village in Ireland the mother of a soldier met a priest who asked her if she had had news.

"Shure, I have, sir," said she. "Pat has been killed."

"Oh, I'm very sorry," said the priest. "Did you have word from the war department?"

"No," she said. "I heard from himself."

The priest looked perplexed, and said: "But how is that?"

"Shure," she said, "here is the letter, read it yourself."

The letter said, "Dear mother: I am now in the holy land."

Gum, Bathtubs and Prunes for Allies

WASHINGTON, April 18.—From bathtubs to chewing gum, Europe is acquiring American habits.

The chewing precivilities of the Yanks—both as regards gum and tobacco—and their natural propensities toward bathing apparently have affected the French and the British, if export figures tell any thing.

Some 3500 miles of chewing gum—if the sticks were placed end to end

—or approximately 735,000,000 chewing gum sticks—have been exported from the United States since the armistice was signed, commerce department figures reveal.

Additional chews have been sent across in the form of 1,900,000 worth of plug tobacco since the armistice.

The bathtubs shipped number 1-183

—or about two miles of 'em—the figures show.

Even the American boarding house prune habit has hit Europe. 4,125,776 pounds of dried prunes having been shipped to various European countries since the armistice.
