15 MONTHS GIVEN MAN TRIED FOR WHITE SLAVERY

NINE MONTHS TERM FOR MOONSHINING

Judge Bean Imposes Penalties on Three Tried in Pendleton.

John W. Montgomery, convicted in the federal court here last week under the white act of transporting a girl from Caldwell, Idaho, to Baker, Oregon, for immoral purposes, was yesterday sentenced in Portland by Federal Judge Bean to McNeill's island for 15 months. Other cases tried here which were sentenced yesterday were John J. Fisher, convicted of moonshining in the Snake river country, fined \$50, and nine months jail term; Paul Quashpana, Indian, convicted of taking liquor into Indian territory, fined \$250 and three months jail term.

GERMAN MERCHANTS LOSE OUT IN JAPAN

TOKYO, April 17.—German merchants have been driven out of business in Japan, according to officials of the department of agriculture and commerce, although some still retain their offices and a few are allowed to put deals through under rigid supervision by the Japanese government. Some of these offices which remain are to be given up, and the companies will withdraw completely from the country, according to report. They have apparently despaired of all chances of trade after the war.

According to the latest official census, there are 64 German firms in Japan. There are 24 in Kobe and 22 in Yokohama, but as many of them have branches, which are counted separately, this number may be reduced if the distinct firms be carefully enumerated. Tokio has seven German firms and Osaka three, with a few others in smaller towns. Another census shows that there are still 744 German residents in this country, although not all of these are interested in the firms. Many of the Germans who were interested in business here were deported during the war. Such was the case with the German Asiatic bank, the German financial institution in this country, which now is entirely inactive.

YAKIMA MAN BUYS MANY FINE CATTLE

YAKIMA, April 18.—Charles McDonald of the Toyon Cattle association of California bought most of the Tyson-McKelleher herd of registered Holsteins, taking 32 animals at \$250, one of the largest individual purchases made here for some time. He acquired enough other young stock to bring his total to about 45 animals costing nearly \$12,000.

Prohibitionists should now undertake to revise Omar's quatrains, which refer copiously to jugs of wine and kindred obsolete equipment.

Extra Coach For Those Who Want to See Flying Circus

An additional coach will be added to train No. 8 on Sunday which leaves Pendleton at 8 a. m., to accommodate local people who wish to attend the flying circus at Walla Walla, announced T. F. O'Brien, local O. W. R. & N. agent, today. This train returns at 5 p. m. The flights in the circus will be made over the city of Walla Walla, so that they will be visible from that place, although the ascents will be made from a field three miles from Walla Walla and the machines will alight there also. The circus will start promptly at 1:30 p. m. and will last for one hour.

GUARD TO SPOIL GOOD KIDNAPPING? NEVER!

BERLIN, April 18.—It is not every day that you can have twenty men totting rifles and grenades as your personal bodyguard, and not have to pay anything for them. The United Press correspondent was offered such a bodyguard.

Early one morning representative of the "Kommandantur" arrived at the hotel with orders "to warn the English and American correspondents there that a plot had been discovered to kidnap them as a means of drawing Entente troops to Berlin."

The representative accepted a cup of "ersatz tea" and urged the acceptance of 20 good fighters, who would station themselves outside the door as a body guard. The offer was turned down.

"Well, then you'd better just go with them when they come to capture you," said the jovial uniformed representative of the commander. "Better not fight, get the hotel to telephone us, and we'll come and rescue you. Let us do the fighting—it's better."

Bright prospects of a good story before night—but they never materialized. The kidnapers did not come.

PLANE PLUNGES 2 DIE VENICE CALL, April 18—Oto Curie and his unidentified passenger were killed this afternoon when Curie's airplane, evidently down by engine trouble, plunged from an altitude of 9000 feet to the ground.

CATERPILLAR PEST IS ACTIVE IN S. AFRICA
JOHANNESBURG, S. A.—A plague of caterpillars is ravaging fields in the Rand. Two varieties of the pest are attacking the "tarmite" trees, the one from the west the other from the direction of Pretoria.

WAR ON VAMPIRES STARTED BY POLICE JUDGE IN NEW YORK

NEW YORK, April 15.—Vampirism will soon be a lost art in this city. Rising in his judicial wrath, Police Judge Boettner declared war Tuesday in defense of mere man. A vampire's gallery, an edition de luxe of a rogue's facial catalog, is to be established.

LIEUT. WARNER WAS FREEWATER SPEAKER IN LIEU OF STEIWER

EAST END TOWN IS ENTHUSIASTIC

Returned Men Will Talk to People at Hermiston Tonight.

Freewater turned out en masse last night for the liveliest Victory Loan meeting yet held in the county and the speakers who returned late in the evening were assured that the east end city would be among the first over its quota if enthusiasm is any mark. With each new town visited the rivalry between the county cities increases.

The Freewater audience was introduced to a new speaker in the campaign last night in the person of Lieut. H. J. Warner of Pendleton, who filled the place of Lieut. Fred Steiwer. Lieutenant Warner made a stirring address and proved an able speaker for the Victory campaign. Roy W. Rittner made his fourth address of the week, exceeding his former efforts and keeping the audience intensely interested with his reminiscences of France and his plea for the people to finish the record by a good showing in this loan.

Hermiston will hear the Victory Loan speakers this evening. The local party will be taken to the west end town in a car furnished by F. E. Judd, of the American National Bank.

O. A. C. Man Made Bridge Engineer By Highway Board

OREGON AGRICULTURAL COLLEGE, Corvallis, April 18.—O. A. C. McCullough, head of the civil engineering department at the college, has accepted the position of state highway bridge engineer. He has gone to Salem to assume duties. Professor McCullough is a graduate of Ames and spent 10 years in practical experience in Iowa. He is a specialist in concrete construction. It was through Professor McCullough's broad experience and practical work that he obtained this state position.

HURRYING BACK TO FARMS
WASHINGTON, April 18.—Farm hands who answered the war call of the factory are returning to the farms by hundreds of thousands according to department of agriculture reports which show the nation's farm labor supply April 2 was 83 per cent of the demand. This represents an increase over a corresponding period in 1918 when the supply was only 72 per cent of the demand. Agriculture department officials say the farm labor outlook is brightening surprisingly and is double welcome news in view of the forecast of the biggest wheat crop in the world's history.

GIRLS GIVE "TIGER" PEN TO SIGN TREATY

PARIS, April 17.—Nine school girls have presented to Premier Clemenceau a gold pen, specially made, with which they request him to sign the peace treaty. He promised.

William Allen White recalls that all nations connected with the war were losers, thus reminding the world of the need for a league of nations.

PEACE TREATY TO BE HAND WRITTEN DESPITE PRESIDENT

EUROPE REFUSES TO FORSAKE OLD CUSTOM

French Artist Will Embellish Document Germans Sign.

PARIS, April 18.—President Wilson has shot Europe's diplomatic customs and systems to pieces, but there is one old tradition that survives—the peace treaty being written by hand. The president's business-like leaps to the typewriter in Washington whenever he had a note to send made no impression upon the chancelleries of Europe. Custom was that all treaties and conventions must be handwritten, so the greatest of all treaties is being committed to paper with pen and ink. Joseph Carlo of the French ministry of foreign affairs has been entrusted with the historic task of writing out the treaty. Besides holding the post of official calligrapher he is also a talented painter. He not only writes treaties and conventions, but also all of the official documents conferring orders or decorations on coverlings and all of the letters which are sent to him and signed by either the president of the republic or by ministers.
