### FREE STREET CARS FOR ALL IN LYNN

### BLOUSE BULGARIAN

A deep blue satin hat with a taffeta bow in Mikado red sets off this striking costume.

### HUNS HOPE TO

(Continued from page one.)  
to frighten the allies into believing that Germany will pay no indemnities if the bolsheviks get control of the country.

**Purely Bluff.**  
This is purely bluff because the foreign office has nothing to do with bolshevism in Germany. Neither can the allies be blamed for present conditions in Germany since the present government is wholly responsible for trouble with the workmen. The government saying it will disappear as soon as the allies grant a favorable peace.

The fact is, Germany's internal troubles will no more disappear as a result of peace than they faded when it was announced that allied food had arrived. Most of the German people say the present government will not last anyway, hence if it threatens to quit if peace is not made in accordance with German ideas it will be an excuse and nothing more.

**People Want Peace.**  
It is safe to estimate that the majority of Germans favor accepting any peace, but the foreign office is willing to endanger the entire people for the sake of reviving Germany's independence, militarily and capitalistically. Radicals, who would probably overthrow the government in case of refusal to accept the peace terms, are ready to sign any peace, and then make the capitalists pay the war bill. They have already developed plans to put this into effect. They are enthusiastically anticipating an event that

## 7 WAYS To Catch a Man

1. ROMANCE 2. SEX 3. SPORTS 4. DRESS 5. ECONOMY 6. HOMEKEEPING 7. THE WOMAN

**5. ECONOMY.**  
Suppose you wish to catch a man of substantial quality.  
One who will always feed and clothe and house you.  
One who wants to own his home and "get on."  
Do you want to help him build for his future and yours?  
I once knew a man, and a very good man, too, who married a girl because she ordered pork and beans, the cheapest article on the menu, when he invited her to an expensive restaurant. A girl who would be so careful of his pocket-book before marriage, he reasoned, would make a safe wife.  
But beware the tightwad!  
Economy is fine! The spender is a fool! But be careful to get one who is not unbalanced on the thrift idea.  
It would mean a lifetime of begging for money from a tight-wad husband. Think of having to coax nickle by nickle, for household expenses or for a new hat or dress!  
Courtship presents are a good index of a man's character in this regard. Are his presents merely costly or merely cheap? Are they thoughtful, kind and appropriate?

## How Foods are preserved—Why Food odors do not mix—

Note the direction of the air currents, as indicated by arrows.

Cold air descends, while air that is less cold ascends. Being of open construction at top and bottom between the food and ice compartments there is nothing to obstruct the free air circulation in the Automatic. "The Perfect Refrigerator." It keeps going 'round and 'round, a steady, dry-air current which keeps your foods cold and in a wholesome and sweet condition.

There is no moisture, no "sweating" of foods, no opportunity for foods to spoil or become tainted in this Best-of-All Refrigerator.

Let us show you the wonderful Automatic. We are demonstrating it all the time, and the beauty of it is that it costs no more than the old-method refrigerators.
