The Right Laxative For The Little Ones--

The natural condition of a child is to be happy and carefree. When the girl mopes and is indifferent to school and study, or the boy is sullen and refuses to go out and play, the child needs a laxative to empty the bowels and stir up the liver.

But something should be given that will produce the result in as simple and natural a way as possible. Harsh cathartics and physics are neither necessary nor desirable.

Many mothers have found that the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr.

Caldwell's Syrup Pepsin produces a free movement of the bowels without griping. A very little is required, and it is pleasant to take. A few hours after its use the child will be its happy self again.

It is an excellent remedy for the mother herself, and for the other members of the family, in obstinate or occasional constipation, for the relief of headaches, as an aid in colds and fevers, minor skin eruptions and all disorders where the basis of the trouble is constipation.

The druggist will refund the money you pay for Syrup Pepsin if it fails to do as promised.

America's colors decked the room with gay festoons of red, white and blue mingling with flags and Victory posters, and a feature of the evening was a talk by Chief William Ringold on the Victory loan, his discussion being devoted to the purchase of small bonds. Dancing began at 9 o'clock. The affair was informal and decidedly successful, both financially and from a standpoint of pleasure.

Other German Red Cross men were found armed. American and allied Red Cross ambulances were repeatedly fired upon in direct violation of all rules of warfare.

When the Armistice Came. "At the signing of the armistice there was no celebration up at the front," he said. "The men just turned in and slept for 48 hours or went to the rear to get a warm meal and sleep. Those boys had too much fighting in the cold and rain, with cold food and no shelter, to want any celebration."

These Pendleton boys with the Marines at Chateau Thierry in June and July were paid a glowing tribute by Lieutenant Stever. The Second division, of which they were members, will stand out boldly in the brightest pages of the world war's history when it is finally written, he predicted for them.

Chinaman Sang French. Both speakers related numerous anecdotes to show the brighter side of the great war. One which interested the audience was Captain Rinker's remark that at Bellecourt a large crowd had gathered around a

French Chinese colonial who was playing on a ukelele and singing in French.

W. L. Thompson, county chairman for the Victory Loan, explained that Pendleton was not over the top the first day because the committee believed the people and not the banks should float this loan. "The banks will take what the people will not," he said, "but every extra dollar the banks of this county must put into the bonds means that much removed from industrial and farming channels. 'Hold on to your bonds.' Mr. Thompson advised. 'Within two years not only will Victory Loan bonds be selling above par, but bonds of every other loan will command a premium.'"

Cincinnati man tells how to lift off any corn without hurting one bit

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.
