

DAILY EAST OREGONIAN, PENDLETON, OREGON, WEDNESDAY, APRIL 23, 1919.

PLAN FOR HOME LOAN BANKS TO AWAIT REGULAR SESSION

Nationwide Measure Drafted But Will be Held for Some Further Attention.

WOULD MAKE MONEY EASY FOR BUILDERS

Plan Provides Privileges Sim- ilar to Those of Farm Banks.

WASHINGTON, D. C., April 22.—The legislative committee of the United States League of Building and Loan Associations has decided that the proposed legislation for a system of federal home loan banks will not be submitted to the extra session of congress, if one is called. The decision is the result of a two-days conference held in the department of labor building, Washington, D. C. On the adjournment of the conference Tuesday afternoon (April 15), K. V. Haymaker, the expert on building and loan association matters who has been working with the information and education service of the department of labor, announced that the legislative committee believed it prudent to submit the proposed bill for the creation of the federal home loan bank system to the annual convention of the building and loan associations which is to be held in Detroit, Mich., in July.

Await Regular Session.

E. L. Kessler, president of the United States League of Building and Loan Associations, who presided over the conference, said there was full agreement on the fundamental features of the tentative draft of the proposed bill, but members of the legislative committee hesitated to commit the league to certain details in the bill without submitting them to the national convention for discussion and approval. As this latter action can not be had in time to set action in an extra session of congress, the building and loan interests have abandoned hope of such early action and will be prepared to make their campaign for this legislation in the next regular session of congress.

Would Stimulate Building.

The tentative draft of the bill provides for a federal home loan board, of five members, of which the secretary of the treasury is one, and the other four are to be appointed by the president of the United States with the consent of the senate. Under the direction of this board regional banks will be established and the membership in these will be restricted to building and loan associations. No bank may be established with less than a paid-in capital of \$100,000. Whenever ten or more building associations, located in a given district with aggregate assets of not less than \$5,000,000 shall associate themselves together and comply with the requirements of the law, they may organize a district federal home loan bank.

The purpose of the federal home loan bank system is to enable building and loan associations to realize on their real estate mortgages and to make more money available for loans

to prospective home owners. This will be accomplished through federal home loan bank bonds, the underlying securities for which will be the real estate mortgages of the building and loan associations which are bank members. Within limitations the new system of banks would do for the home buyer of the city what the federal farm loan banks do for the farm buyers in the agricultural sections.

NEWS OF PENDLETON

Dr. Brown Here.

Dr. H. S. Brown, physician of Echo, was a Pendleton business visitor Tuesday.

Board Meeting Today.

The board of directors of the Umatilla County Red Cross is meeting this afternoon in the federal building.

Final Report Due Sat.

Saturday, May 24 is set for the date of hearing final reports on the partnership estates of James P. Wyrick, deceased.

Leaves No Bitter Taste

welcome the members of the I. O. O. F. in Umatilla county who will be here for the 100th anniversary celebration of the order.

Will Open Lehman Springs.

Mr. and Mrs. W. H. Watson left this morning to open Lehman Springs for the summer season. They were accompanied by L. A. Hulen, who will have charge of the dining room at the springs.

"Spring Day" at High School.

"Yesterday was 'Spring day' at Pendleton high school. This is an annual event which is marked by the appearance of spring-time apparel worn by the girls of the school. 'Spring Day' marks the beginning of the pre-commencement period.

Youdovitch Case Being Heard.

The case of M. Youdovitch et al. vs. Mrs. L. Anderson is being tried before Judge Gilbert W. Phelps was circuit court Tuesday. The action is brought to recover personal property on conditional sale of contract. B. B. Hrrigan, of Pasco, is here to act as counsel for the defense.

Asks for Divorce Again.

Rose Kerr has filed suit for the second time in a year and a half for divorce from John Kerr, whom she

charges with cruel and inhuman treatment, with cursing her, and otherwise making life burdensome to her. She filed the first complaint on January 17, 1918, but Kerr repented, was forgiven and suit was dropped. Conditions soon returned to their former status, the complaint alleges, and in October, 1918, the plaintiff refused longer to live with the defendant and removed, with their three children, Lewis, aged 8; Violet, aged 7, and Irene, aged 6. The complaint asks for divorce, for the custody of the children and such alimony as the court may decide.

Campaign to Abolish Direct Primary Finds Small Congress Favor

(By United Press.)
WASHINGTON, April 22.—The campaign in numerous state legislatures to abolish the direct primary system in favor of the old convention plan apparently is not gathering great support among congressmen generally. Out of a score of congressmen, asked for their views on the comparative merits of the two systems, only two declared in favor of the convention plan and both of these refused to talk for publication. Both have been numbered among the opponents of the primary system from the time it was suggested.

Nearly all the others while declaring for the principal of the primary, advocated some change in the particular law in force in their home state.

The argument of primary opponents that the primary has lowered the standard of ability in Congress was met with the reply from congressmen that the standard has not been lowered and they pointed out that since the advent of the primary Congress has passed such measures as the Federal Reserve Act, the Parcel Post Act and Rural Credits Law.

NEIGHBOR STATE LEADS IN QUICKSILVER

SACRAMENTO, Cal., April 22.—That California yields 70 per cent of the entire production of quicksilver in the United States, and that well above \$100,000,000 worth of that mineral has been extracted from the soil of the golden state is related in a mining bulletin issued by Fletcher Hamilton, state mineralogist.

NEW YORK NEGROES WANT ON TICKET

(By United Press.)
ALBANY, April 22.—Representatives of the negroes in New York State in session here today, framed a request that the colored race be recognized by the Republican State Organization to the extent of having a representative of the negro race, on the state ticket.

Leaders in the movement contend there are 200,000 negroes in New York State enrolled in the republican party and that they should be recognized. In 1884 a colored man residing in Rochester was elected a presidential elector and last year a New York colored man was elected to the State Assembly on the Republican ticket. This year another New York colored man was elected to the Assembly by the Democrats. These are the only three negroes elected to any state office since the organization of the state.

Stanfield Wins Track Meet.

Stanfield grade school took first honors in the west end track meet Saturday at that town, with Hermiston, Columbia and Echo following. Jane Gunn, of Hermiston, won the declamatory contest in the high school section with the selection "His Courier." Pauline Voelker, Hermiston, won in

class "C" and Wilma Waugaman, of Columbia, was winner in class "D." Winners in the track and declamatory contests will represent the west end in the big county meet to be held in Pendleton on May 2, for which trophies will be given.

League Text Arrives.

WASHINGTON, April 22.—The revised text of the league of nations covenant is being received by the state department, it is announced. It has not yet been determined when it will be made public.

AN OVERBURDENED MOTHER.

If the steps a mother takes and the work she does could only be measured by figures, what an array they would make. Through girlhood, wifehood and motherhood woman toils on, often suffering from backache, pain in side, headache, nervousness and sleeplessness, symptoms of more serious ailments peculiar to her sex. Thousands of such women, however, have found relief from suffering by taking Lydia E. Pinkham's Vegetable Compound, as is evidenced by the letters of recommendation being published in this paper.

Are You Fit?

You have subscribed to the Victory Loan, now the question is are you physically fit to earn the money to pay?

A certain well known Pendleton man came to me for adjustments. He had one arm amputated over thirty years ago. He asked me—jokingly, I think—if I could take the cramp out of the amputated arm. Surgeons had told him that there was probably a nerve tied up with a blood vessel at the time of the amputation. It was just as reasonable that the nerve was impinged by a subluxated vertebra. After a few

Chiropractic Adjustments

the cramp was gone from the amputated arm. If you don't believe this, ask the man, I will tell you who he is. I can tell you of any number of people who have been relieved of physical trouble just as miraculous as this.

Don't put it off till tomorrow. Examination FREE.

Red Diamond Insect Powder

complies fully with the Government ruling that Insect Powder, labeled as such, must be milled from genuine Insect Flowers (Pyrethrum Cinerariaefolium) and nothing else. Much of the powder formerly sold as Insect Powder was susceptible to adulteration which cheapened and rendered it ineffective. Red Diamond Insect Powder is absolutely pure—milled from genuine insect flowers—therefore is effective. Get it from your druggist. Four sizes.
