What the Picture Theaters Have to Tell You.

MOTHERHOOD PLAY AT ARCADE THEATRE

Motherhood in all its bitterness and all its joy is revealed in a new William Fox production which opens at the Arcade today. It is "The Call of the Soul," starring Gladys Brockwell in the role of a woman who hides the saddest secret in the world from the man she loves. She is the mother of a small flaxen-haired girl who brings joy into her said life, but who is an embarrassment when love and marriage beckon to the mother.

Shall she tell her suitor about her child and risk losing his love? Or shall she keep it a dreadful, haunting secret, so that she may retain his love? In "The Call of the Soul" Miss Brockwell pursues the latter course, and as a result there is a powerful drama of a woman struggling between the love for her child and the love for a man. It offers Miss Brockwell unusual opportunities for her rare gift of portraying feminine emotions.

PEARL WHITE A FATALIST
Pearl White, the star of Pathé's new Serial "The Lightning Raider" is a fatalist and to this fact she attributes her many escapes from death in posing for the camera. She believes that she will escape all of the dangers she encounters until her time comes and this perhaps accounts for her willingness to perform any feat no matter how dangerous. It is a remarkable fact that, through all the long list of Serials filled with nerve racking stunts in which Miss White has been seen she has never suffered any further injury than a few bruises and once a broken finger when she misjudged a dive into a Hudson River ferry boat slip. She has been up in airplanes for hours at a time and in fact her fatalistic theory is borne out by a remarkable escape she had a few years ago. Blakely the famous aviator invited Miss White to go up with him at Hempstead a few years ago for some stunts. He was known as the most daring of all fliers at the time and Miss White accepted eagerly for she wanted to go through the nose dive and tail spin. A traffic accident delayed her for half an hour so that when she arrived, she was just in time to see Blakely fall to his death, having misjudged one of his spiral dips.

ATMOSPHERE OF THE SOUTH CLINGS TO "GREEN EYES"

Dorothy Dalton Seen as Suffering Wife in Strong Paramount Photoplay.

The atmosphere of the South clings about the story of "Green Eyes" in which Dorothy Dalton will appear at the Alta theatre today. The Paramount offering is from the Ince studio and was written by Ella Stuart Carson. The title implies that jealousy is the mainspring of the action and, as a matter of fact, so it is. But there is much more—and withal, a tensely of situation and a dramatic climax that is rare even in these days of advanced motion pictures.

Roughly, the story is of a man who marries a girl younger than himself and because insanely jealous of her. One quarrel ends in a separation and reconciliation and then the husband grows jealous of his younger brother. Later, a scoundrel is thrashed by the same brother and afterward murder-

ed by a revengful negro. Believing himself the slayer the brother rushes to the room of his sister-in-law and raps out the story. There he is found by his brother who puts the worst construction on the affair. To shield the youth, the wife says she invited him to her room. A tragedy is averted when the brother confesses to the crime, but later the negro also makes a confession exonerating him. It, William Neill was the director. The photography was the usual Paramount excellence. The supporting cast is admirable. Jack Holt is the husband, Dorothy Dalton the wife, Emery Johnson the brother and Robert McKim the villain. Doris Lee and Clyde Benson have important roles. The picture may be recommended as a sterling drama of genuine strength with not a little depth of feeling and beauty of investiture.

PARIS CONFERENCE FOR RIGHTS OF LABORERS

WASHINGTON, April 29. — Labor clauses the Paris conference adopted yesterday for insertion in the peace treaty are announced by the state department. The clauses declare wage earners' well being is of supreme national importance and declare for the right of organization by labor. An eight hour day, and equal pay for women and men are among other reforms for which labor has fought.

3 ARMY CAPTAINS WILL MANAGE DALLAS

Dallas, Texas, claims the first soldier mayor of any American city—also the youngest. He is Capt. Frank W. Wozencraft, 24, just back from France. On the commission with him are two other army captains: At the left, Capt. L. E. McGee, police commissioner; Captain Hal Mosely, made street commissioner. Wozencraft was supported only by the Dallas Dispatch, of the four newspapers in the city, but he carried 22 of 36 precincts.

REPUBLICANS URGE CAUTION. WASHINGTON, April 29.—Republican leaders here today urged caution upon their fellow members in the senate in discussing the League of Nations covenant. Senators Lodge and Curtis, Republican leader and whip, respectively, sent the following telegram to all their party senators: "We suggest that Republican senators re-

serve final expression of opinion respecting the amended league covenant until the latest draft has been carefully studied and until there has been opportunity for a conference."

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin, a natural rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of thousands of sickly, anaemic-looking men, women and girls with pasty muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags," and pessimists we should see a virile, optimistic throng of rosy checked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour-fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.
