RECLAMATION FARMS FOR MEN WHO SERVED

WASHINGTON, May 20.—With an ever increasing flood of men returning home from the war to take up the tasks of civil life, many of them with greatly changed ideas of life and ambitions and in a quandary

as to just what to do, are appealing to the Department of the Interior for information as to the intentions of the Government in its proposed plan of providing farms for soldiers. Such a deluge of requests has been received from the men who wore the uniform as to emphasize the lesson of all other wars that the service men, because of army life, with its openness and activity, largely seek out-of-doors vocations.

The Interior Department has already explained to more than 40,000 men that the development of its plans

rests solely with Congress.

Briefly the Department is saying that, if such legislation is passed, work will begin at once in the development of cooperative farm settlements for soldiers and sailors in nearly all of the States. In practically every State in the Union there are large areas of land suitable for this purpose.

Jobs Near Home.
Many of the soldiers have asked if it will be possible for them to obtain a job near their homes by draining, clearing, irrigating and improving these lands. That again depends upon the action of Congress in providing the money for construction. The plans propose that these settlements be scattered all over the country, so that it would be possible for every honorably discharged soldier or sailor or marine to work near his old home. There would be work of all kinds in connection with these settlements, from the highest technical and clerical position to that of laborer.

FINE SPRING TONIC IS DR. CARTER'S K. B. TEA

Dr. Carter's K & B Tea Best Spring System Cleanser—Make It at Home Yourself—Costs Almost Nothing.

After the long winter months, nearly everyone needs a spring medicine that will drive out accumulated impurities and put the system in good condition.

One of the best spring upbuilders and regulators we know of, is made of roots and herbs and is called Dr. Carter's K & B Tea—your Grandmother can tell you about it.

Get a package of this tea at any drug store and brew a steaming cup before you go to bed to-night—you'll like it.

It's splendid for the liver and bowels, sick headache and biliousness. The kiddies like it too, because it does them lots of good, because it never acts harshly. You can get Dr. Carter's K & B Tea at any drug store.

The plan involves "the new farm idea" in that there will be built what are known as community settlements each containing a number of farm homes, so that the men will have neighbors, good roads, a school which will bring their produce to town, and a market for the sale of the produce within a short distance of the farm home. Efforts will be made to overcome the handicaps of farm life that are driving the people to the cities—the lack of society in the country, the distance between farm homes, the remoteness from the postoffices and the newspaper, the desire for better school facilities for the children. Under the new way there will be the farm village, the settlement of farmers around a center which is their home, in which can be gathered most of the advantages of the city—the school, the church, the moving picture, the well-outfitted store and these, with good roads, the rural express, the telephone, the automobile and the postoffice will make life on the farm a thing of far different meaning from the isolated life it has been.

Men Pick Land.

After these service men have reclaimed the land, the Government intends to allow the men to pick out one of these farms. The plan provides that these farms and homes shall be paid for in small payments over a long term of years. It is expected that the men will be able to pay the first small payment out of the wages received from the Government in helping to build these settlements. The balance can be paid from the proceeds from the sale of crops.

It is planned that the Government will also furnish the new farmers with the necessary stock and farm implements, these to be paid for in small payments spread over several years.

These farms will contain forty to eighty acres for general farming purposes, from eighty to one hundred and sixty acres for live stock purposes, from fifteen to twenty acres for fruit farms and from five to twenty acres for truck farms.

Competent instructors in farm practice will be stationed on each project to teach the men how to make a success of farming. This will make it possible for men who know nothing about farming to make a success of these farms. The plan is to be open to every man who has worn Uncle Sam's uniform in the great war.

WAR RISK INSURANCE BUREAU HAS NEW HEAD

WASHINGTON, May 20.—Appointment of Colonel R. C. Chomeley-Jones of New York as director of the bureau of war risk insurance was announced today by Secretary of the Treasury Glass.

Colonel Chomeley-Jones succeeds Colonel H. D. Lindsay, who resigned after assuming Secretary Glass' "playing politics" in the management of the bureau.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

Salem, Ore., District Second in Northwest in Centenary Drive

PORTLAND, May 20.—Northwest headquarters of the \$105,000,000 Methodist centenary movement for rebuilding the world reported at noon Monday that with reports missing demands, has within its area 312 from one-third of the communities square miles, several high mountain peaks northwest \$1,110,998 had been ranges, three large rivers with their tributaries, 26 lakes and 25 waterfalls.

24 hours of the drive, the Olympia, Washington, district which has raised 100 per cent of its quota of \$105,000, heads the entire Northwest. The Salem, Oregon, district with 75 per cent of its quota of \$210,000 is a close second.

The Yellow stone National Park, the building the world reported at noon Monday that with reports missing demands, has within its area 312 from one-third of the communities square miles, several high mountain peaks northwest \$1,110,998 had been ranges, three large rivers with their tributaries, 26 lakes and 25 waterfalls.
