"Pep," Melody and Laughter in "Going Up"

THE quality of a theatrical entertainment is usually gaged by its reception in New York and the length of its run in that metropolis. Guided by this rule, our first choice falls on "Going Up," a musical comedy, book and lyrics by Otto Harbach and James Montgomery, the music by Louis A. Hirsch, which is shortly to be presented in this city.

"Going Up" is now on tour after a phenomenal run in New York, where critics and public alike raved over it for nearly a year.

The distinguishing features of "Going Up" are a well told and coherent story, catchy music, wholesome fun and the general excellence of its comic and dramatic elements, and for these qualities and the success that has attended its presentation elsewhere, "Going Up" is cheerfully recommended.

OREGON THEATER, THURSDAY, MAY 22.

THE RECOMPENSE.

We never give, but giving, get again—
There is no burden that we may not bear—
Our sweetest love is always sweetest pain—
And yet the recompense, the recompense is there.

Who weeps, yet worships some sweet silent star
E'en through his tears shall catch uplifting light—
We grow to what our aspirations are—
Look up, O Soul, and be a star tonight.

Who pours his heart out to some flower rare
On scapless cliff above a saltless sea,
Shall drink its perfume, if he linger there,
Until his very soul that flower shall be.

IT HELPED THE MORALE

CONVERSING in the office of this newspaper yesterday an overseas soldier who had occasion to note the quality of our army's morale said:

"When our boys would get their papers from home they would read in one issue that a liberty loan drive had started and the next bunch of mail would bring news that the town and county were over the top. It made the soldiers know their people were back of them; it was the best thing we had for morale."

Such expressions are gratifying to the large army of workers all over the nation who made the bond drive go. They compensate for the hard work done and the enemies made by those who had to compel reluctant subscribers to do their part. In Umatilla county we had a very thorough

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

Were not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well, what a glorious condition to attain, and yet, how very easy it is if one will adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, evening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

machine whereby slackers and near slackers were persuaded to see the light. This organization had much to do with keeping the county's record clear and if by so doing it made our soldiers feel better and fight harder who can say it was not worth while.

A PROBLEM STILL WITH US

WITH interest in aircraft affairs stimulated by the efforts at a trans-Atlantic flight it is timely to ask what the government is to do in the way of future air operations.

When this country went to war it was hopelessly unprepared in the air. Are we to profit by that lesson or is the country to lapse into the old state of indifference? The navy department is evidently worried on the subject for Assistant Secretary Roosevelt has appealed to the people "to compel the government to adopt a definite policy towards control of the air and see that the United States takes its rightful place in the airplane world."

If there is to be another war we may expect to see air operations as the deciding factor, more so than in the war just ended. Will the new congress meet the situation as it should or will our war investigating committees confine themselves to probing the past?

ANOTHER 50-50 PROPOSAL

MOST people now look at the road question from a broader standpoint than formerly. The day is past when one neighborhood or one section can expect to obtain good roads yet oppose road building for others. The big factors these days are federal aid and state aid.

The Roosevelt military highway bill on which the people vote at the special election June 3 provides an appropriation of \$2,500,000 by Oregon on condition that an equal sum be provided by the federal government. If congress does not meet its part of the bargain our appropriation cannot be used.

The case for the whole state is very similar to what was the position of Umatilla county when we voted on our county bonding measure not long ago. The heavy vote for county bonding was due to the prospects of state aid and to the fact the county bond money would not be used unless the state met its quota on the various roads in Umatilla county. Our people will not go wrong if they give a similar answer on the coast highway measure June 3.

Ludendorff says the American fighting was not a decisive factor in ending the war; Ludendorff was too far from the front to give first hand information on that point.

28 YEARS AGO

(From the East Oregonian, May 29, 1891.)

Ed Hendryx, who has been attending Milton Academy, returned to Pendleton today.

Director Frank Franier of the Pendleton Baseball Association left for Murdock's sawmill this morning to negotiate for lumber for the park fence, which it is hoped will be completed in time for the game next Sunday.

W. D. Fletcher leaves soon on a visit to the Butter creek coal mines. Pendleton was perhaps never prettier than at present. Lawns are green and beautiful, trees are laden with verdure, gardens are flowering and the blossoms of the locust trees fill the air.

BOMB IN CONGRESS

WASHINGTON, May 22.—President Wilson threw a "bomb" into congress when he advocated repeal or amendment of wartime prohibition with a heavier "dry" majority than existed in the last session. Congressional leaders decided it would be a difficult matter to lift the beer and wine ban. The dry sex public opinion will not stand for it.

LONG MISSING PLANE SUFFERED SEVERELY

WASHINGTON, May 20.—After weathering 60-mile gale and heavy seas, the missing seaplane NC-3, flagship of the American naval transport-atlant flight squadron, entered Ponta Del Gada harbor late yesterday under her own power nearly 60 hours from the time she was forced down by fog when almost in sight of the Azores.

In a detailed report received at the navy department from Commander Towers, the officer said the NC-3 had "suffered severely."

MAY BECOME FIRST LADY OF CANADA

Countess Athlone

The countess will be the first lady of Canada when the earl is made Governor General. He is slated to succeed the Duke of Devonshire. The Earl of Athlone is a brother to Queen Mary, the countess, a niece of Queen Victoria.

WOMEN! DRY CLEAN THINGS AT HOME

Try it! For a few cents you can dry clean everything.

Save five to ten dollars quickly by dry cleaning everything in the home with gasoline that would be ruined by soap and water—suits, coats, waists, the lace, gloves, shoes, furs, draperies, rugs—everything!

Place a gallon or more of gasoline in a dishpan or washbowl, then put in the things to be dry cleaned, then wash them with Solvite soap. Shortly everything comes out looking like new. Nothing fades, shrinks or wrinkles. Do not attempt to dry clean without Solvite soap. This gasoline soap is the secret of all dry cleaning.

A package of Solvite soap containing directions for home dry cleaning, costs little of our dry store. Dry clean outdoors or away from flames.

FUNNYBONE

His Job.

"What position do you occupy in the matrimonial firm, Manager?"

"No, she's that. I was the cash boy but since the baby came, I am only the floorwalker."—Baltimore American.

Effective.

Fond Parent—Did you hear my daughter sing?

Returned Soldier—Yes.

Fond Parent—What did you think of her range?

Returned Soldier—I should say she ought to kill at three miles.—Princeton Tiger.

The Necessary Warning.

An advertisement in the Berlin Messenger reads:

"Canary bird escaped. Return to Barbara Strasse 5 and receive reasonable reward. (Not edible.)"

And this story also comes from Berlin, where profiles become exceedingly narrow:

"Fish and potatoes were served at the restaurant, both in the singular number, and the portion miserably small."

"Nevertheless, my neighbor got a bone in his throat and attracted general attention with his coughing and growling. Some persons came to his help, suggesting that he swallow several pieces of dry bread or a few potatoes."

"The waiter ran out and brought four big potatoes. The patient swallowed them one after another, poured in his glass of beer to keep them down, and then he felt better."

"When he was about to leave I asked how he felt."

"Oh, it's nothing, thank you," was the answer, "after pulling off the same trick in the next restaurant I shall get enough."—Journal of the Ameri-

In 1848 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination on the part of the kidneys and the poisons within are not thrown off.

Prof. H. Strauss attributes a gouty attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheaths, setting up inflammation. Before the attack of gout or rheumatism there is sometimes headache, or what is thought to be neuralgia, or rheumatic conditions, such as lumbago, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of water, six or eight glasses per day, hot water before meals, and obtain Auric tablets, double strength, for 60 cts., at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Auric" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

can Medical Association.

Very Much Engaged.

"Engaged to four girls at once," exclaimed the horrified uncle, "How do you account for such conduct?"

"I don't know," said the graceless nephew. "Cupid must have shot me with a machine gun."—Detroit Free Press.

AIRPLANE CARRYING 25 COES UP MORE THAN 3 MILES

PARIS, May 20.—The giant Farman airplane Goliath, which has been flying between Paris and Brussels, last night ascended to a height of 12,000 metres (approximately 17,222 feet) while carrying twenty-five passengers. The ascent was made in one hour and fifteen minutes and the descent in twenty-five minutes.

RAFFIA HATS WEAR ROSES

Maytime and sports hats are the boon companions—and the present season shows an aptitude for producing smart sports models that dwarf the records of past years. One of the most successful of the new types is sketched in this model for Fashion Art, and is a chic chapeau of woven raffia, in bright blue, its crown all bound round with pecky posies of painted straw, and its brim faced with sea-blue georgette—most becoming to Miss Blue Eyes.

The FRANKLIN CAR

Preference For The Franklin Car Centering On Its Wide Usability

When motorists today see Franklin owners using their cars whenever and wherever it pleases them, the limitations of a less efficient car become the more apparent and irksome.

This is one of many causes which are producing the increased buying of Franklin Cars this season. Motorists are less willing to part with one car to another that only replaces old troubles with similar troubles again. Instead, there is a clearly defined front-about to the car which avoids troubles and for which maintenance is open seasons and practically all routes, opportunities.

Direct Air Cooling—a striking saving in weight—real flexibility of construction—are characteristic Franklin Car differences. They make possible the day-after-day service, the month-after-month satisfaction, reported by Franklin owners all over the country.

And besides the exceptional, even performance of the Franklin Car and the simplification of routine care, there is also the well-known Franklin economy.

Call or telephone us for an appointment; we will demonstrate the car on any road at any time—and give you data and records of the remarkable usability and economy under all conditions in all parts of the country.

Took Lil' Novelty Ride Up Railroad T-track, Costs \$10

Two men who drove a car belonging to L. Bergevin up the railroad track Saturday night and finally tangled with a switch post, paid \$10 fine for reckless driving in police court today. Mr. Bergevin coming in and paying the fine for them, under the name of John Doe. The man, whose identity is clouded, are alleged to have been slightly intoxicated and took to the railroad track route for a little novelty ride. The railroad officials are investigating and may prosecute the offenders for their trespass.

BRITISH BOMBARD COAST

LONDON, May 20.—A British dreadnaught bombarded our positions at Kerch in eastern Crimea, an official dispatch today reported.

National League Results.

WHILE IN TOWN COME IN AND SEE THE International Motor Trucks

SOLD BY THE
Union Motor Co.
Successors to THE GALLOWAY-REESE CO.,
No. 212 West Webb St.

International Trucks, 3/4 ton, 1 ton, 1 1/2 ton and 2 ton size, manufactured by International Harvesting Co. of America, are well known for their economy and durability. Cut your cost of wheat hauling and hauling of all kinds by using International Trucks.

Our two-ton is equipped with a cylinder lining which can be replaced at a very small cost, and eliminates the necessity of every reboring your cylinders or replacing a worn-out block. The International 2 ton truck is the only truck in the market equipped with this type of motor.

Service established here.

J. E. CHAPMAN, Salesman.
