## When Is a Truck Commercially Right?

Any good, sincere truck-making firm might make a truck right from an engineering standpoint. If it had Republic's truck-production facilities it might even doubtless build as many trucks as Republic does.

But that would not prove such a truck to be commercially right—as trucks must be, to serve as Republic Trucks do serve. It is this very proved commercial fitness that has won for Republic Trucks the confidence of truck users, the country over.

More than 50,000 Republics ride upon the world's highways. They have proved by actual performance that the "Yellow Chassis" Truck is commercially right. They have proved under practical conditions to be both unusually serviceable and very economical.

We offer the benefit of this "50,000-truck experience" with every Republic Truck we make. No other truck has this experience behind it. And it is this real experience which, in the last resort, proves the Republic's ability to serve so well.

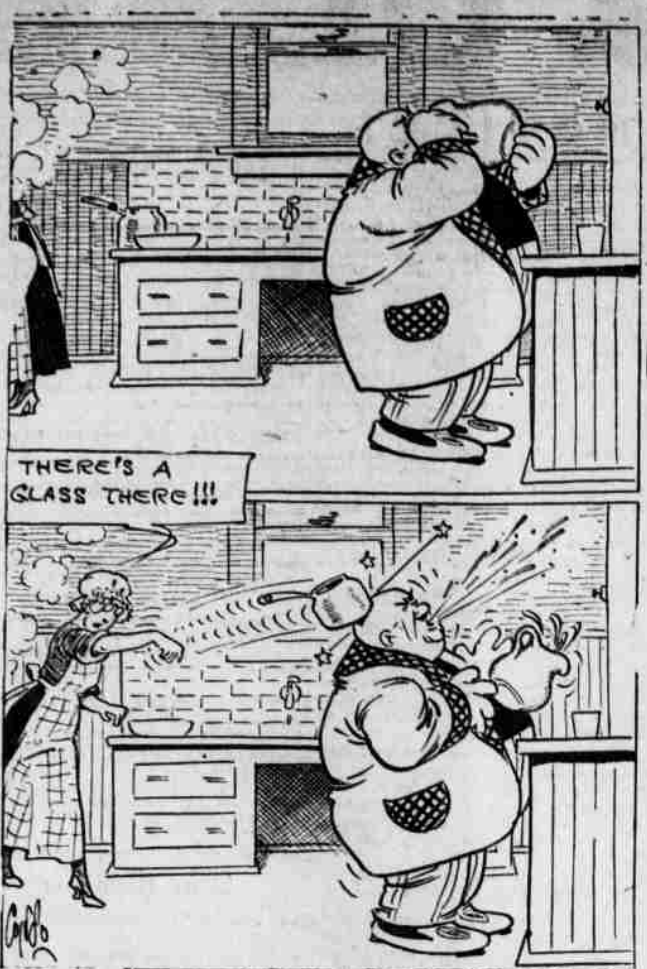

More than 1400 Republic Service Stations serve Republic users. There is a Republic Truck for every hauling requirement.

### Taking Big Chances.

It is too much of a risk to depend upon neighbors or sending for medicine in case of a sudden attack of bowel complaint. In almost every neighborhood some one had died from cholera morbus that could easily have been saved had the proper medicine been at hand. Then think of the suffering that must be endured until medicine can be obtained. The safe way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a preparation that can be depended upon. Buy it now. It only costs 25 cents.

### How to Get Rid of Your Rheumatism.

If it is chronic or muscular rheumatism all you need is to massage the affected parts with Chamberlain's Liniment. You are certain to be pleased with the relief which it affords.

### Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

The church was beautifully decorated with flowers of yellow and white intermingled with the class colors of purple and gold. The essays and orations, and recitations were excellently chosen and delivered in a most impressive way. Up-to-date topics were chosen by the graduates and their stirring intelligence summary of world events aroused feelings of patriotism in the hearts of loyal Americans present. The presentation of diplomas was made by Elizabeth Severance, principal of the Vincent school. The six girl graduates were dainty in their white gowns and carried bouquets of pink and white roses and carnations. Their class motto was "We launch tonight; where shall we anchor?" The graduates were: Mural Beauchamp, Ethel Hodgen, Irene Wilson, Billie Jordan, Ada Helberg, Neva Moore. The following program was given: On Sunday morning the Rev. C. C. Babbidge preached the Baccalaureate sermon to the graduates.

Umapine was given a musical treat Friday evening when Miss Zella Hoon presented her pupils in an excellent program in a crowded hall. After the musical part of the program a spring pageant was presented by 18 of Umapine's young ladies. The stage was a bower of spring verdure and flowers. The girls in white robes danced and sang, finishing with the winding of the May pole. Great

credit is given Miss Hoon for the evening's entertainment. Following the program, an informal reception was given the teachers who are leaving for the summer months or for new fields.

### Complete Safeguards.

Mr. Tomkins was obliged to stop overnight at a small country hotel. He was shown to his room by the one boy the place afforded.

"I'm glad there's an escape here in case of fire," commented Mr. Tom-

kins as he surveyed the room. "But what's the idea of putting a prayer book in the room in such a prominent place?"

"That," replied the boy, "is intended for use in case the fire is too far advanced for you to make your escape, sir."

One of the country's leading financiers recently gave it as his opinion that the American people as a whole never had as much money as they have today.
