BELGIUM

I give you a name, an unstarred name,
Of people noble and brave,
Who rose in their weakness
When German hordes came
And tried their fair land to
Have,
It is "Belgium."

Who held at their threshold
The oncoming tide,
Of millions of well equipped
Men,
Till France could gather her
Sons to her side
And check the vandals again,
It is "Belgium."

Whose land was blood-soaked,
Whose mothers were slain,
Whose churches, the pride of
The world,
Were shattered and crushed
Again and again;
But whose flag was always
Unfurled,
It is "Belgium."

The world, today with un-
covered head,
Gives this nation its deep
Adoration,
And praises a people, oft hungry
For bread,
But fighting to save their dear
Nation—
It is "Belgium."
—ISAAC AUSTIN SMITH.

A STRATEGIC BIT OF HIGHWAY

It is satisfactory to know that the surveying work on the Echo-Pendleton road has been completed and that bids for the construction of this road will soon be asked for. This road constitutes the most important highway project on the program in Umatilla county because of the many interests that will be served by its construction.

Being built down the river the road will provide a trunk highway serving the people on both sides of the river between here and Echo, thus opening up a large territory that has heretofore been almost inaccessible from the county seat.

The Echo road will provide for the first time a real road between Pendleton and the growing empire in the West End. It will produce a situation of benefit to all concerned and the extent of this benefit will become greater as years go by.

Another feature in connection with the Echo road is that it will provide a scenic drive for the tourist travel that gives promise of being on with great intensity in a short time. In place of having a road which, in late summer and fall, has been characterized as the worst in the state we will have one of the finest driveways to be found in the northwest. The early completion of the Echo road and of improvements between Pendleton and La Grande are indispensable if this section of Eastern Oregon is to hold its own in the matter of tourist travel. Every month this needed work is delayed works for the diversion of auto travel to other routes thereby jeopardizing the future tourist business of this

section, and the tourist business of the future is something not to be lightly considered.

TOO LATE

WE do not understand the intricacy of world politics, we must keep aloof from Europe, say opponents of the League of Nations.

That was not bad doctrine prior to 1917. But during the early months of that year we learned that we could not keep out of world politics nor out of a world war.

The new map of Europe was made in America.

If we do not understand world politics it is time we made world politics understandable.

The advocates of isolation are too late.

WHEN IS A BOY WEALTHY?

WHEN Vinson Walsh McLean, 11 year old son of E. B. McLean, publisher of Washington, D. C., was run down and killed by an auto on Monday the press reports classed him as one of the "wealthiest children" in the country because he was the heir to the large estates of J. R. McLean and Thomas F. Walsh.

But does being heir to a great fortune make a boy rich? Is such good fortune equal to the good fortune of splendid health and a wholesome ambition spurred by the necessity of doing something for himself when he grows up? Did the McLean boy have as much fun as other boys (he had an attendant always with him for fear he would be kidnapped) and would his inherited money, had he lived to get it, been a blessing or a hindrance?

President Wilson advises that the war time prohibition measure be removed insofar as it applies to light wines and beer. It sounds like he has been impressed by the wails of anguish going up from New York and other eastern cities. Had the president lived in the advanced west he would understand prohibition better and would not take the mourners seriously.

Most everybody reads what the Germans say they want do about the peace treaty and most nobody believes what they say.

The results thus far in trans-ocean flying do not indicate the air will become overcrowded immediately.

Our farmers may be forced to take more than the guaranteed wheat price.

Senator Lodge wants to kill the front part of the peace treaty cow and leave the hind quarters standing.

28 YEARS AGO

(From the Daily East Oregonian May 21, 1891.)

Miss Della Switzer of Walla Walla, and Miss Lillian Probstel of Weston are visiting at the residence of Mr. and Mrs. A. W. Syle.

Rev. T. H. Henderson left today on a pleasure and business visit to the Willamette Valley. He will be absent a week or more.

A force of men is at work at the lower warehouse in Pendleton baling a large quantity of wool soon to be shipped to Eastern markets.

Twenty-two hundred head of Bentley and Tweedy's sheep and Gilliam Brothers band, sold to W. A. Lauterman, were delivered at Pendleton today and will be shipped over the O. and W. T.

A juvenile baseball nine has been organized in Pendleton, which is willing to try conclusions with "kiddie teams" from other towns.

FUNNYBONE

No Wonder!

The young lawyer was defending a man accused of burglary, and the woman whose house had been entered was under examination.

"Madame," asked he, "what time of night was it when you saw the prisoner in your room?"

"Close to 2 o'clock in the morning," came the reply.

"Was there a light in the room?"

"No."

"Could you see your husband at your side?"

"No."

The lawyer frowned impressively and shot a side glance at the jury as he fairly thundered: "Then, please, madame, explain how it was you could see the prisoner and yet not see your husband?"

"My husband," was the quiet answer, "was at the club."

One Qualification.

Admiral Bradley Fiske was talking in New York about a naval critic.

"This naval critic," he said, "reminds me of Swetson."

"What struck Swetson?" a man asked at the club. "He failed in medicine, he failed in the law and he failed in the ministry, and now he's moved into a \$2500 flat in Riverside Drive."

"Well, you see," said another man, "Swetson has started to write magazine articles on 'Why Men Fail,' and he's made a mighty good thing of it. Qualified, you know."

HE'S A BEAUTY, BUT LOOK AT HIS DIET!

Pullman has two claims to distinction. He's called the handsomest police chief in the United States—he's superintendent of the District of Columbia police—and he's held up as a horrible example by the food experts of the national department of agriculture. He gained the second distinction when Miss Aubynn Chinn found out what he eats. Chocolate cake twice a day! Shredded wheat for lunch and otherwise delicate dietary! Can't he need a pint of milk a day, more green stuff and more fruit? Says Miss Chinn, "if he would keep his splendid appearance."

EAST OREGONIAN SPECIAL NEWS OF UMATILLA CO.

Women Bible Students Are Better Than Men

BE PRETTY! TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this thru your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Whitman's CANDIES

Just received a large supply. You can't buy better candies, better assortment, anywhere in the world than right here.

We have tried to carry this policy of selecting the best through out our business.

Come in and judge for yourself how well we have succeeded.
