**ENGINEER REVIEWS CHANGES
 MADE IN IRRIGATION LAWS**

(By PERCY A. CUPPER, State Engineer.)

SALEM, May 23.—Some important changes were made by the last legislature in the water laws and irrigation and drainage district laws of the State. The abolishment of the office of Superintendent of Water Division No. 1 reduces the State Water Board to two members, the State Engineer

and the State Water Superintendent. The State Engineer was given charge of the distribution of the water of the State, with authority of overseeing the work of the various water masters, which work has heretofore been under the direction of the division superintendent. The Superintendent of Water Division No. 2 was given charge of the adjudication of water rights

in the entire State and was given the title of State Water Superintendent.

A constitutional amendment providing for the guaranty of the first five years' interest on irrigation and drainage bonds will be submitted to the people at the coming special election. On account of heavy discount on drainage and irrigation bonds this class of reclamation bonds has been under a severe handicap, which it is believed will be largely removed if this amendment is passed.

A statute was enacted providing that irrigation districts may accept a part of the land of any landowner within the district as an offset against the reclamation charge on the remainder of his land. This will probably serve as a very convenient method of cooperating with the Federal Government.

The provision of the irrigation district law relating to the validation of the procedure prior to the issuance of bonds was clarified by the re-enactment of this portion of the irrigation district law.

Agricultural lands included within the limits of a municipality may now be included in an irrigation district. This amendment was deemed necessary on account of the large area of agricultural land which is included within the limits of some of the municipalities within or adjacent to the irrigation districts.

Provision has also been made for the reclamation of lands in an irrigation district in units. Heretofore, it was necessary that every acre of irri-

gable land in a district should be assessed the same as every other irri-
 -gation acre. This brought about a ten-
 -dency to exclude land from the dis-
 -trict, which would increase the cost
 -against the main body of land not
 -withstanding the fact that it might
 -be entirely feasible to irrigate those
 -lands at a higher cost. It will not be
 -possible to include such lands in an
 -irrigation district as a separate unit
 -and assess them according to the cost
 -of reclamation.

Under the irrigation district law as
 -enacted in 1917, the district could not
 -require construction bonds in excess
 -of 2 per cent of the amount of the
 -contract. This has been cured so that
 -the statute now provides that no such
 -bond shall be less than 25 per cent of
 -the construction cost.

The drainage district law was also
 -amended in some important features
 -so that it now corresponds more closely
 -with the irrigation district law and
 -all question has been eliminated as to
 -whether or not the obligation of the
 -district was an individual or a commu-
 -nity obligation by fixing it definitely
 -as a community obligation.

Another statute was enacted provid-
 -ing for the certification of drainage
 -district bonds in the same manner as
 -irrigation district bonds are now cer-
 -tified.

Summing up, therefore, much favor-
 -able legislation was secured affect-
 -ing reclamation. In fact, the last
 -legislature seemed to take a more
 -favorable view toward reclamation
 -than its predecessors.

**Low Figures Alarm
 Centenary Leaders**

PORTLAND, May 23.—The Metho-
 -dist centenary touched the \$55,000,000
 -mark at noon, yesterday in New York
 -while \$1,556,586 had been reported in
 -the Northwest. Leaders of the drive
 -are seriously concerned with the slow
 -growth figures as \$300,000 a day
 -must be reported by Sunday night in
 -order for the campaign to be complet-
 -ed. One hundred and fifty six
 -churches in the Northwest have fail-
 -ed to report and on these reports lead-
 -ers may now depend the success of
 -the centenary.

**The Itching and Sting
 of Blazing, Fiery Eczema**

Seems Like the Skin is on Fire. There is a harrassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle to-day at any drugstore, and you will see results from the right treatment. Write for expert medical advice, which you can get without cost, by addressing Medical Director, 21 Swift Laboratory, Atlanta, Ga.

Middle Aged Women

Women should take warning from such symptoms as heat flashes, shortness of breath, excessive nervousness, irritability, and the blues—which indicate the approach of the inevitable "Change" that comes to all women nearing middle age. We have published volumes of proof that Lydia E. Pinkham's Vegetable Compound is the greatest aid women can have during this trying period.

Read About These Two Women:
 Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Gooden, 925 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to gain in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."—Mrs. FRANK HANCOCK, 1316 South Orchard Street, Urbana, Ill.

 -for eating an apple he thinks the
 -Adam's apple should be located in
 -the neck of women instead of man.

Energy
 THE WORK OF THE KIDNEYS is to filter and cast out waste products and poisons from the blood stream. When the kidneys are overworked, weak or diseased, the waste matter remains in the system and causes pains in side or back, rheumatism, lumbago, stiffness of joints, sore muscles and other symptoms.

When a person's kidneys are out of order, there is lack of energy, force, vigor, zeal and general effectiveness. Kidneys and bladder must properly function for anyone to enjoy good health.

Foley Kidney Pills
 are prompt in action and tonic in their healing and soothing effect on weak, sore, overworked, diseased kidneys and bladder.

Mrs. Mary Henderson, Mt. Carmel, S. C., writes: "Before I used Foley Kidney Pills I was troubled with kidney trouble and my left side hurt so as I could hardly get up in the morning. Pain is all gone now and am feeling like—"
