

DAILY EAST OREGONIAN, PENDLETON, OREGON, MONDAY, JUNE 2, 1919.

# LIGHT VOTE FEARED AT THE SPECIAL ELECTION TOMORROW

## IMPORTANT BILLS UP FOR DECISION

### Voting Places for Pendleton Precincts Listed Below.

A light vote is the prediction of county officials for the special election Tuesday. Interest locally in the nine referendum measures has not appeared high and little talk is heard around the court house regarding the election. Officials seem to take it for granted that virtually every measure will receive the majority to carry. Predictions of the vote are based on the percentage which voted on the \$1,050,000 road bond issue. There were but 4200 votes cast at that time and the county now has 8765 registered voters, slightly more than two times the number which went to the polls three months ago.

Election materials were all sent out and delivered to the 51 out of town precincts by Saturday night and today ballot boxes and election materials are being supplied to local election officials. There are 13 precincts in the city and the polling places will be the same as for the last special election.

- Polls will open at 8 a. m. and remain open until 8 p. m. Each voting place will have one judge, one chairman and three clerks.
- The location of the precinct polling places in Pendleton is given as follows:
  - Precinct 32, Home of Mrs. Wells, 915 E. Railroad Street.
  - Precinct 33, T. A. Wylie Garage.
  - Precinct 34, High school.
  - Precinct 35, Court House.
  - Precinct 36, City Hall.
  - Precinct 37, Pendleton Hotel sample room.
  - Precinct 38, Bowman hotel.
  - Precinct 39, Field school.
  - Precinct 40, Home of Zella Finch, 704 Ave. A.
  - Precinct 41, Blawett Harvester Co.
  - Precinct 42, Hawthorne school.
  - Precinct 43, County Library.
  - Precinct 44, Lincoln school.
  - Precinct 45, Rieth.

**And in Vain.**  
We believe the time is coming soon when Trotsky will be applying for the job as a New York street car conductor.

## Fair Weather for Coming Week, Says Weather Forecaster

WASHINGTON, D. C., June 2.—Forecast for the period June 2 to June 7, 1919, inclusive. Pacific Coast States: Generally fair; normal temperature. Northern Rocky Mountain and Plateau Regions: Generally fair; temperature below normal first half, and normal second half of week. E. H. HOWIS, Forecaster.

## STATE STARTS DRIVE TO STAMP OUT ILLITERACY

ALBANY, N. Y., June 2.—New York state has begun a drive to stamp out illiteracy. A campaign has just been started by the state Education Department to teach the English language to 600,000 men, women and children and to educate them in American ideals. Fresh impetus was given to the campaign when Governor Smith signed the Sage Immigrant education bill, which appropriates \$100,000 to aid in the work. The campaign will be carried out through factory classes, night schools and teaching in the home. The drive is to be pushed so that when the census is taken next year New York state will show as small an amount of illiteracy as is possible. As part of the scheme official and volunteer organizations now bent on Americanization will be co-ordinated with the education campaign being carried on through the public schools. The whole state is to be zoned into fifteen districts with a man in charge of each.

One of the first things to be attempted in the campaign will be to urge aliens to take out citizenship papers. The first zone to be formed will include the greater part of Long Island and the second will include all of New York.

A long program cloak that the British Admiral, Edward Vernon, always wore on deck during "dirty" weather is said to be responsible for the name "grog" the sailor's drink. The Admiral's men irreverently called him "Old Grog" and "grog" was the name they gave the rum and water he served them aboard ship.

## 13 MILLION BUSHELS WHEAT GO IN WEEK

### Grain Corporation Gives Figures on Available Supplies.

(From the Food Administration Grain Corporation)

NEW YORK, June 2.—The second weekly bulletin of the Food Administration Grain Corporation, 42 Broadway, was issued May 27 giving the complete figures covering the wheat and wheat flour movement throughout the United States for the week ending May 16th. The figures given out were as follows:

Receipts from farms, week ending May 16th, 2,104,000 bushels, against 2,476,000 bushels a year ago. Total stock of wheat in country elevators, mills, and terminal elevators, as of May 16th, 23,909,000 bushels, against 21,000,000 bushels a year ago; showing a decrease between May 9th and 16th of this year, of 12,000,000 bushels, against a decrease for the similar week a year ago, of only 2,000,000 bushels.

Flour produced, week ending May 16th, 2,671,000 bushels, against 1,661,000 barrels a year ago; making a total production of flour, from July 1st to May 16th of 110,000,000 barrels, against 107,000,000 barrels a year ago.

Julius Barnes, United States Wheat Director, in giving out the figures said it is to be noticed that, although domestic consumption of wheat was apparently running lighter a year ago, the heavy drafts on this country for food shipments to the Allies and the newly liberated regions of Europe were such that the domestic visible had decreased 12,000,000 bushels during the week.

Fortunately, within four weeks there will begin to be a moderate replacement by the earlier of winter wheat, and within six or eight weeks, a large movement from the very promising crop of winter wheat now rapidly approaching harvest.

Mr. Barnes also stated that the shipments in relief of Europe, outside of the Allies, were now being rapidly

## BRITISH TO RETURN TO GAYER UNIFORM

LONDON, June 1.—Back to the gay uniforms that attracted men into the army and gave color and brilliancy to military spectacles! A committee named to consider the future of the scarf of war will recommend the return to pre-war dress for the after-the-war army.

## RICH CAIRO (ILL.) MERCHANT ADMITS HE BOUGHT VOTES

CHICAGO, June 2.—Charles Patter of Cairo, Ill., a wholesale dry goods merchant, today pleaded guilty in the federal court in East St. Louis to a charge of buying votes at the election last November, at which Medill McCormick was a candidate for United States senator. He was fined \$1000, which he paid.

McCormick, a Republican, was elected, defeating Senator J. Hamilton Lewis, who urged that an investigation be started. It was charged in the indictment that Patter, who was chairman of the Republican county central committee, paid \$1 to each of a number of negroes to vote the Republican ticket.

## SHIPPER SAVES CARGO RUM; \$250,000 REWARD

SAN JUAN, June 2.—Capt. W. J. Kennerly may collect \$250,000 from the wreck of the schooner Madalene Shirley Lord. The crew abandoned the schooner off Ponce with a cargo of a half million dollars' worth of Martinique rum bound for France. Kennerly smelled it out and put his crew aboard. He saved the rum from the fishes and is entitled to half the salvage. It's under the lock and key of the collector of customs at Ponce and can't be sold here, but it's likely to be trans-shipped to a port where Kennerly can collect.

## AVERAGE NEWLYWED 30 YEARS OF AGE

### Umatilla County Records Show Cupid Slower Than Formerly.

With thirteen direct shots during May, Cupid bettered his record of the first three months of the year in Umatilla County, but fell short by six of the April record. Reasons given for the slight decrease during May is that June is the month for brides and weddings are, by tradition, supposed to be most numerous in the present month.

Since January 1, 43 couples have taken out licenses to wed in Umatilla county and of those, all save one couple has given data on their ages. The oldest man to marry was 59 and there were three others of 50 or more years. The greatest age given by any woman this year is 54, while one other is 50. Three bridegrooms were of the tender age of 19 while brides of 16 numbered four.

The average age of grooms this year is very close to 30 years, while the brides average slightly above 25 years. This contrasted with the age at which fathers and mothers of the growing generation married, shows the deep impress which the H. C. O. L. has made on Cupid's business.

An unusual number of the marriages this year have been repeat affairs. The marriage age of novices is well under that of the repeaters, although in a few instances young widows of less than 20 years have appeared before County Clerk Brown for their second ticket for the trip to the altar.

Nine of the 43 brides since the first of the year have had an advantage of from one to seven years. The greatest discrepancy between ages in favor of grooms is 19 years, the man being 43 and the woman 24. Two cases of 16 years in favor of the man are found.

**Boy Shot Examining Rifle.**  
ST. LOUIS, June 2.—Harold Andrews, 8 years old, of 4202 Page boulevard, was shot through the right chest at 7 p. m. yesterday while two companions were examining a rifle that they did not know was loaded, on the porch of a residence at 3219 Whittier street. He was taken to the city hospital in a serious condition.

John Rogan, 8 years old, 4126 Cook avenue, and Edward de Hart, 8 years old, 1221 Whittier street, gave different versions. Edward said the rifle belonged to his father and that John took it from the home and was looking at it when he tried to take it from John and it was discharged. John claimed Edward had handed him the weapon and he was looking at it when Edward pushed his elbow, causing his finger to pull the trigger.

A new England doughty writes his home folks that the way to pronounce Ypres is to make a noise a swallow makes just before sunrise.

## SAINOYI DONS HIS SUMMER'S STRAW LID

MARQUIS SAINOYI

When the straw hat came, Saiyoyi couldn't resist a display of a Paris haberdasher. And here he is, a senior delegate of the Japanese peace mission, with western headgear and eastern legs from his toes to his neck. Not the clogs he wears on his feet.

## Drive Right In

Don't stop to light any lantern. Just snap a switch and the barn is flooded with a bright and safe light. Everything is as clear as in day-light. You need not fumble or grope in the dark any more. As you go from wagon-house to cow-shed, to chicken-house, your way is lighted by

## Western Electric Power and Light

No matter where you live this lighting plant can be installed and you can enjoy the conveniences and comforts of the city right in your own home. The Western Electric outfit lights your house, barn, and premises and gives you electric power for your vacuum cleaner, electric iron, washing machine, churn, cream separator and so many of these tasks that now take up your time.

Electricity is the safe light and it is the economical light, as well. Let us tell you all about it and show you how it will save and serve.
