There used to be an expanse of gravel with here and there a sage brush or its equivalent and now the section is covered with orchards and berry ranches. The trees have been put out and grown since I worked up that way and they have caused a complete transformation in the appearance of the country.—Oregonian.

WAR IS BACKGROUND FOR NEW CRUSADE

How the war formed a background for a new crusade, a crusade of religion in the trenches, was told to a large Pendleton audience last night by Dr. Daniel A. Poling, a returned Y. M. C. A. secretary, who spoke in the Methodist Episcopal church under

the auspices of the Umatilla County Christian Endeavor Societies. Every man responded to religion, Dr. Poling said, and every man prayed. The trenches held no unbelievers.

Taking as his subject, "The Call of the New Crusade," Dr. Poling told of numerous incidents in his experience as a Y secretary to bear out his contention that the trenches created a new spirit among the American soldier. He did not wish to be understood as insinuating that the returned soldiers would overflow the churches, but that they would never forget the inspiration or again be as though it had never come.

Mentioning the spirit of the American soldier, Dr. Poling said: "The American private was a very unusual man, judged by all standards. No one had a better conception of the purpose and causes of the war, nor of the advantages to be gained by victory."

Dr. Poling feels that the question of what the soldiers will do when they get back is one which should not cause anxiety. Upon the prohibition question, for instance, he found that

in a group of 2000 men and officers to whom he told of national prohibition not a dissenting voice was raised. He considers that the one man who is making a noise is making more noise than 10,000 who are keeping still.

At a banquet held in the Christian church at 6:15, Dr. Poling organized a local Christian Endeavor alumni society of persons formerly in the work but now in active church work. Mrs. S. A. Lowell was chosen president, Clarence Penland, vice president, E. O. Draper, secretary and A. C. Funk, treasurer. W. P. Walter, district Y. M. C. A. secretary, presided at the two meetings and introduced Dr. Poling. The program at the church was opened by singing, led by F. P. Austin. Dr. J. Francis Morgan delivered the prayer, and musical numbers were furnished by George Sutton and Mrs. Raymond Hatch and Mrs. Mae Hagar, who sang a duet number.

MILLIONAIRE'S WIDOW CLUBBED TO DEATH

SAN FRANCISCO, June 4.—Mrs. Loren Coburn, widow of the eccentric millionaire whose estate fight recently attracted widespread attention, was found in her bed at Pescadero this morning, beaten to death. A blood stained club about a foot long was found beside the bed. Scooping over and shaking the battered body, muttering incoherently was Wallace Coburn, son of Coburn by a former marriage, who was adjudged mentally incompetent and committed to a guardian's care when the estate was settled.

Thus far they have learned nothing intelligible from him. Mrs. Coburn was recently awarded most of the millions left by Coburn whose will was contested by a nephew on the ground he was eccentric and had not been in his right mind when he was married and when he made the will.

America has made a twenty-six hour flight in crossing the Atlantic and the Pacific also is shrinking rapidly. The race is not always to the swift. The fastest colors are those that won't run.
