## MATLOCK STREET EXTENDS FROM JACKSON SOUTH TO CITY LIMITS

### Tangle in Names Explained at Council Meeting Last Evening.

One street with three names and how to get a quorum on beautiful summer nights constituted the chief worries of the city council at their weekly session last evening. The three faithful representatives waited 27 minutes overtime for the arrival of the necessary fourth and then waded into the pile of bills payable, complaints on public utilities and what not.

Street Superintendent John Heathman raised the question of which name is official for Star-Matlock-Blaine street, in the west end of town. Signs for all three were made and Heathman professed ignorance of just where to place them. The council delved into its memory and remembered that there is no Star street although it is so marked in the curbstones west of the Matlock street bridge. Matlock street runs from Jackson south to the city limit and Blaine runs north from Jackson, the city fathers said.

Reports from residents on West Railroad street that the sewer in the vicinity of Maple street is leaking brought instant action. The matter was referred to the sewer committee with power to act. About 180 feet of sewer are affected, it is thought. The house committee reported favorably on the purchase of \$100 worth of furniture and equipment for the city engineer's office and the council accepted the recommendation. They also authorized the purchase of 500 feet of hose for the fire department.

The report of Recorder Thomas Fitz Gerald showed that 24 buildings

## 20th Engineers Get Discharged Tomorrow

PORTLAND, June 5.—Two hundred and seventy members of the Eighth, Ninth, Eleventh, Twelfth and Twenty Third companies of the Third Battalion, 20th Engineers, entrained here yesterday enroute to Camp Lewis, where they were to be discharged today and Friday. They are from all parts of the Northwest.

## Wrestling Championship.

PORTLAND, Ore., June 4.—The world's middleweight wrestling championship is at stake here tonight in a match between Walter Miller, of Los Angeles, holder of the title, and Ted Thax, Portland grappler of considerable renown.

Interest in the match is unusually keen, owing to the big stack of challenges awaiting the winner. Grapplers from all over the country are seeking a crack at the crown.

## 'Y' COMMITTEE WILL TALK PLANS TONIGHT

The Pendleton committee for the county-wide Y. M. C. A. drive will meet tonight at 8 o'clock in the rooms of the Pendleton Commercial Association to discuss plans for the successful termination of the canvass for funds now under way in the city and county. So far the interest in the work has hardly been lukewarm and steps will be attempted tonight to set things in motion to conclude the campaign successfully.

Although some of the precinct committees have taken up the work of solicitation locally, not every group has yet begun. No report of the progress in the county towns has been received, except from Pilot Rock, where the committee which was asked to handle the solicitation has sent in a refusal. It is probable that others will be delegated to handle the Pilot Rock district and a committee from Pendleton probably will outline the work to the new appointee.

## SON'S MEDAL IS GIVEN LIEUT. LUKE'S FATHER

PHOENIX, Ariz., June 4.—Brig. Gen. Howard R. Hickok, commanding the Arizona military district, today presented to Frank Luke Sr., the Congressional Medal of Honor, posthumously awarded his son, Lieut. Frank Luke, U. S. ## Spokane Motorman Held for Speeding

SPOKANE, June 5.—W. H. King, motorman, was arrested yesterday for running a car 32 miles an hour. This is the first time in the city's history a motorman has been arrested for this offense.

## TOPS AND PRICES ON MILADY'S SHOES GO UP

### Pumps, Sans Buckles, Inadequate as Ham Without Eggs.

Fall shoes for women will be higher in more ways than one, according to local shoe men who report that the autumn of 1919 will see taller boot tops, accompanied by tall prices. From September on, the shoe men say, the noblest creations will sell as high as \$29.

There are a number of styles in high shoes now on the shelves which are priced from \$15 to \$20, while pumps run as high as \$14. Party slippers, designed for beauty and not for hard service sell at \$12.

Pumps, sans buckles, are as inadequate as ham and eggs without the eggs, so Pendleton women are paying as high as \$25 for buckles. And this price isn't the maximum, for really fancy buckles sell for as high as \$50.

Mother used to pay \$4 for her best shoes; 75 cents for bedroom slippers and \$2.50 for a pair of "common" shoes, but if she same mother drops in at an up-to-date Pendleton store tomorrow she will require a little more money. The bedroom slippers cost \$2 the common shoes \$5 to \$8 and the best shoes from \$10 to \$18.

Pendleton women it is reported by shoe clerks, are good spenders on shoes, and the price seems to deter them but little, not to speak of the war tax which they are asked to pay. With but few exceptions women buyers demand the latest in footwear and for this reason seem not to expect low prices. What seems to create the greatest surprise is the price that must be paid on shoes for children. Pa recalls when he bought his first pair of shoes at \$1.50 and when informed that Jimmie's new shoes cost \$5 he receives a death blow.

The rise in prices has been gradual during the war. Three years ago prices were fairly normal, then one day a dollar was added and later \$2 then \$4 and so it has continued. The end is not yet. Over in Russia they are paying \$10 a pair and few shoes are to be had.

The price of wheat is given as one reason for the high prices. It is predicted that as long as food stays up, the cost of leather from which shoes are made is bound to be higher. Also to be considered is the immense demand from overseas for leather. Once there is an over production of hides such as are required for the finer grades of shoes, prices will tumble.

Unless this fall is gradual, shoe houses will suffer, for stock now on hand is worth more than double what it cost four years ago. When capital invested is considered, the profits are no greater now than 5 years ago, and manufacturers say they are making no more on their present investment than they did formerly.
