70 PER CENT WHEAT CROP IS PREDICTED

A wheat crop of 70 per cent normal for the county is the prediction which J. W. Maloney makes for this year's yield. The judge does not believe the estimates which have given 86 per cent are correct and says that the appearance of the grain indicates that the crop everywhere is to be short to a certain extent.

"In the best areas the crop will not be more than 80 per cent normal," he said today. "In the lighter soil the yield will be almost nothing in some places. The grain is very short south and in some places west."

Heads have not filled out properly without moisture, Judge Maloney says, although the grain has not been damaged especially by the dry spell. A good rain three weeks ago would have helped fill out the heads to a greater extent than they have filled so far.

Soldiers Discharged, Return to Umatilla

(East Oregonian Special.)
UMATILLA, June 29.—Arthur and Charley Powell are back from Camp Lewis where they have been since April, 1917. They received their honorable discharges last week.

Elmer Campbell, sometimes called "Gloomy," received his honorable discharge from the army in an eastern camp. He returned to his former home here to resume his work.

Mr. and Mrs. E. McKenzie are the parents of an eight pound baby girl born Thursday.

Mrs. Stella Paulu and Mrs. Bertha Cherry made a business trip to Pendleton and Stanfield Saturday in regard to the Chautauqua which is to be here July 3-7.

Mr. Alonso Nickols returned from a visit with her parents at their home in Riparia, Washington.

H. H. Edwards is improving his business property in Umatilla.

Harry Rodenbough has bought a half interest in T. S. Tillison's ice cream parlor.

non and broke his neck. He got up out of the water dazed, but only noticed that his neck was stiff. It began to pain him more and about six hours later he walked into the county hospital, complaining of a sore neck.

It was thought that his neck was only bruised, but he grew rapidly worse and Dr. Hurley of the staff ordered an X-ray taken Tuesday. The plate showed a fracture of the spinal column near the base of the neck.

This is the second accident of the kind which has come to the attention of county hospital physicians this year. Three months ago John Fry suffered a broken neck in an auto accident on Larimer street. Several weeks later he was discharged from the hospital as cured.

Dempster is resting easily, say physicians, his neck having been set. That he has a chance of recovery is the report.

Snub Uncle Sam's Gin: Everybody Filled Up?

NEW YORK, June 28.—"Well, how much have you stored away?" is a frequent salutation in these days of fast approaching ardity, and altogether quite a spirit of speculation as to the huge amount of booze individuals would cache for the long dry spell has been aroused.

Had one gone to the auction at the Customs Appraiser's store house, No. 841 Washington street, yesterday morning where "seized and unclaimed merchandise," bottled and labelled as orange and sloe gin, was set up for sale, one would have concluded that all those who mean to lay away the stuff that cheers have already done so.

For this enticingly bottled orange and sloe gin, valued at \$30,000, was returned to storage yesterday because of a death of buyers. Col. J. H. Storey, acting deputy collector, explained the absence of bidders at the well advertised sale by asserting that individual buyers have already laid away their stock, while wholesalers and retailers have already overabundant stocks.

Railroads Have Fewer Accidents in Spring

DENVER, July 1.—During the first three months of the present year 159 fewer persons were killed and 9509 fewer injured on the country's railroads than during the corresponding months of the preceding year, Arthur Kirkendall, regional supervisor of safety of the United States railroad administration, told delegates to the convention of the Brotherhood of Locomotive Firemen and Engineers here today.

"When the safety section of the administration was formed after the government took control of the roads many large systems had no safety departments," Mr. Kirkendall said. "Today every prominent railroad in the country is paying particular attention to safety of passengers and employees."

Cincinnati Hotel Has Woman's Bar

CINCINNATI, July 1.—An innovation in the city's saloons and hotels was revealed Tuesday at the Sinton hotel of the Taft hotel syndicate, with the announcement by the management that what formerly was strictly a masculine bar has been transformed into a woman's bar room. It was a direct result of prohibition. Many of the old names of the famous drinks remain, but all are now non-intoxicating.

Costly fixtures remain the same, and even the familiar white clad bartender and the lovable brass rail, so gently caressed with the foot, are there. Tuesday three matronly women, guests of the hotel, plodded in to get a mild julep, minus the jolt, and discussed the difficulty of getting kitchen help.

Old timers, instead of mourning, are of the opinion that bar life with pretty

MORALE OFFICER IS OUT

TACOMA, Wash., July 1.—Captain W. L. Duff, Camp Lewis morale officer, until relieved of duty by Lieutenant Colonel Byron L. Baragar, has received his discharge from the service, as has Captain H. H. Yost, who has been assistant camp morale officer.

Captain Yost will return to Honolulu where he will resume his position as superintendent of farm and grounds of the mid-Pacific institute.

250 DIE IN QUAKES

LONDON, June 29.—Two hundred fifty were killed at Florence, Bologna, and Vecchiano, Italy in a succession of earthquakes last night, according to Rome dispatches today. Several hundred were injured in the three cities and the shocks continued throughout the night.

TURKS IN ASIA MINOR ARE DRIVING GREEKS

PARIS, July 1.—The situation in Asia Minor is serious, according to official advices received by Reuters, Ltd., here today. These advices stated that the Turkish forces outnumbered the Greeks four to one and threaten to drive the Greeks entirely out of Asia Minor. The Greek forces are reported to be retreating before the Turks, who are supplied with good artillery and plenty of ammunition.

The Greek General Nitis has decided to make his first defensive stand along the line running north and south through Pergamos, Magnesia, Smythalon and Aidin. Greek reinforcements are expected to reach him within three or four days. The largest Turkish force now are advancing from Denizli. The Turkish troops already have occupied Nasil and are proceeding against Aidin.

POWER SITE IS SELECTED

TACOMA, July 1.—The Tacoma city council has turned down the Packwood lake owner site in Lewis county owned by the Ladd interests of Portland, and has chosen the Lake Cushman site on the Shookishish river in Mason county. The voters will pass on a \$200,000 bond issue August 12 and will decide whether or not to buy the pro-
