FAITH.

Have you never felt you've lived before
 In some unstated day of yore
 Amid some scene
 Of floral green
 That undefined remembrance bore?
 Has scent of roses on the breeze
 Relieved some pressing lack of ease,
 And soothed the pangs
 Of present stress
 With tenderest of memories?

'Tis thus I find mid all the green
 And beauty of the summer scene
 Suggestions of
 A touch of Love
 That holds my faith in God serene.

As though in some far distant day,
 Somewhere, some time, on some fair way,
 I'd seen the face
 Of Love and Grace,
 And found true Peace beneath
 His sway.

Pendleton man just back from the east has said, the war has left one heritage for which this nation may well be thankful. The poor in the cities have been one of the greatest of this country's problems, sociological or otherwise, and their elevation to a place where they are in a measure independent and self supporting is a God-send.

Economic prosperity is given as the reason for the bettering of the station of those low in the social and economic scale. For once the balance is in favor of labor and manufacturers are paying a premium for workers. All who will work may exact a comfortable living. Those who will not work are few.

Reconstruction is not alone responsible for the marked reduction in the ranks of the large cities' poor. Favorable labor legislation, the better relations between employer and employee, the decrease in foreign immigration, throwing cheap labor on the market, and the minimizing of liquor consumption are all factors in the change.

All these reforms are working not only to better the worker but are creating the market which manufacturers are endeavoring to supply. There is not only more money in circulation than before, but the stream has been diverted to new channels, wherein distribution is more equitable and more persons are sharing in the prosperity. It is a healthy sign for America to be reducing poverty to a minimum.

THE FUNNYBONE

The Approaching Shadow.
 Bacon—How's the world treating you?
 Tgbert—Can't complain.
 "No kick coming then?"
 "I can't say that. I'm expecting my wife home from her mother's tomorrow."

The Esthetic Judge.
 "That doctor can't reset my broken nose by himself," declared the incomparable movie actress.
 "But he's a competent surgeon."
 "No matter. I must have a sculptor present."

Decollete.
 "Doesn't that movie actress put on airs?"
 "Well, she ought to put on something."

English Undefined.
 "You say this man 'beamed' you?"
 "Yes, your honor."
 "What do you mean by that?"
 "He hit me on de koke, your honor; he tried to crack me nut, he slammed me on de belt, he—"
 "Will someone please interpret for the plaintiff?"
 "I will, your honor," said an obliging witness. "He means the accused bounced a rock on his ivory dome."

A Hanger-On.
 "Why did you give such a ferocious bulldog as that such a sentimental name of Ivy?"
 "Because when he once attaches himself to a person, he does cling to one."

Biologic Discovery.
 "There's such a difference between a bachelor and an old maid."
 "Of course. You don't hear the latter referring to it as single blessedness."

FROM NEIGHBORING PAPERS

Morrow county is just now starting upon the harvest of her grain crop, and in many sections headers are now busy and some combines are at work. However, there will be no general attack made on the grain fields before the beginning of the coming week, when crews will be getting busy in earnest, and the harvesting of one of the best crops of grain in the history of the county will have begun.

The first cutting of alfalfa on the project is about at an end. The Standard is informed that the yield is about the average, and in some instances slightly above. During the past week several shipments were made and many sales reported. Hay grown on the project is bringing from \$16 to \$18.50 in the stack. In the Butler creek district the best that was offered was \$16.

The water supply in the John Day river is exceedingly low, the Blue Mountain Eagle reports. In fact some say there is less water in the river than they ever saw at this season of the year, and the same is true of Conson creek. As a consequence the electric power plant at Prairie has had

a difficult time to continue operations. The dredge on Canyon creek, which depends on the power plant for its motive power has suspended operations.

As a result of Wallowa county's adoption of a comprehensive road program, there is a prospect of a thru highway to Lewiston, says the Enterprise Record Chiefly. This would make Wallowa county a link in the route from Spokane and all the country north and east and a large part of Oregon, Idaho, Utah and even California.

The Hermiton commercial club voted Tuesday to install two public drinking fountains, the Herald says.

At the special election of the land owners under the Hermosprings Irrigation District last Monday, it was decided by a vote of 48 to 3 to accept the provisions of the new Gallagher bill providing for the state guarantee of interest on irrigation bonds for the first five years. The Directors will immediately make application to the state for the benefits of this law and it is expected will save the District a good many thousand dollars in the sale of future bond issues, says the Malheur Enterprise.

Craig Thom, potato raiser, bee man and farmer sounds a warning to ranchers through the Hermiton Herald to be on the watch for potato bugs in their potato patches, for he has during the past two or three weeks discovered in his own patch quite a number of the real Colorado beetle variety—the kind that had to be exterminated in the earlier days by the Paris green method.

It is understood that the Union county court has under advisement the matter of improving the road from Union to High Valley, and steps are likely to be taken to that end at the earliest possible date, according to the Eastern Oregon Republican. There is not a place in this part of the valley where better roads will be more appreciated.

Ground was broken at Union last week for the mammoth garage to be erected by Thomas Frasher, on Main street, just north of and adjoining the Union National Bank building, the Eastern Oregon Republican says. This building will be 50x100 feet in size with probably a wing extending behind the old bank building, and Mr. Frasher expects to have the building completed within 60 days. It is a source of satisfaction to every citizen to note this improvement, and all will make it as easy as possible for the owner to complete the work.

Pilot Rock has the distinction of being the only town in the county, outside of Pendleton, which is a member of the State Chamber of Commerce, the Record proclaims.

Another big home-coming reception for the boys from "over there," or from any connection with the army, will be given in the Skurdavant park Pilot Rock, at 8:00 p. m., July 13, according to the Record.

The pay of rural mail carriers out of Weston has been raised \$60 a year the Leader says. J. E. Jones will hereafter receive \$1596 for the service of his miles and himself (the miles take precedence) on route one. Ray Gordon will get \$1620 on route two. The editor says he hopes neither will squander his generous stipend.

Roman Coliseum Is Scene of Services For Boy Scout Dead

BOSTON, July 7.—Mary Pickford is to retire, according to her mother. "Only nine more pictures and Mary will settle down to enjoy the fruits of her hard-earned savings," is the way Mrs. Charlotte Pickford puts it. "It will take a number of months more to complete her pictures and then Mary is going to enjoy her life."
 "She has received free leave to spend all the money she likes to make the new productions successful."

RUSSIA WILL PAY DEBTS, SAYS POLK

WASHINGTON, July 7.—That the loans made to Russia will be paid in time was the belief expressed today before the House Committee on expenditures in the State Department. Before the czar was overthrown this country had loaned Russia \$187,000,000, and to the Kerensky Government about \$450,000,000. Private interests also loaned money to Russia.
 "It is an unheard of act for any nation to repudiate its international obligations," said Mr. Polk. "Certainly there will be no recognition of a Russian Government, however firm-

CHEVROLET

MODEL "Four-Ninety" Touring
\$875
 f. o. b. Pendleton, Ore.
 \$300 down. Balance on your own terms.

HERE is the famous Chevrolet Model "Four-Ninety" with details that makes this car most complete, embodying features of higher price cars. The finishing touches we have given this model leave nothing more to wish for. It is complete in every way.

Chevrolet Model "Four-Ninety" always a dependable and trustworthy automobile, is in a position to receive the attention of those who desire completeness in equipment with the minimum in price and utmost in performance.

This model is entitled to the term economy car, for it embodies everything necessary for enjoyable motor-ing with the least expense.

Chevrolet Features

The motor is of an improved design. The cooling is by water pump. The oil pump is of the gear type. The pump is placed in the forward end of the cylinder casting, and a fan is mounted on the water pump shaft.

Tire Carrier.
 Tire carrier is provided and is fastened at the rear of the body.

Oil Pressure Gauge.
 An oil pressure gauge is mounted on the instrument board.

Demountable Tires.
 Wheels are fitted with demountable tires, one extra rim is furnished.

Radiator.
 The radiator is of an improved type and is fitted with a connection for a hose.

Foot rail; robe rail; tilted windshield; one-man top; improved type curtains; folding up into the top; flaps on top of each door for protection of the body and finish; pockets on the side of each door; kick pad added at the rear of front seat; front and rear fender skirts extended to meet the radiator splash guard and the rear splash guard on the body.

WE know that a motorist, in order to enjoy peace of mind and satisfaction, must own a car which possesses all of the essentials for comfort and convenience. If any essential is missing, the loss is felt, for it entails extra labor and effort. It is these essentials that we have supplied.

From a mechanical standpoint, this model has reached a standard of excellence that is not surpassed in any motor car. Vanadium steel is used for every part that requires unusual strength. It has ample power—proper spring suspension—correct weight—smart in appearance—well finished. It has unusual records in gasoline economy. The fact that there are nearly two hundred and fifty thousand Model "Four-Ninety" cars in use is ample proof that this model is doing the work demanded of it in a most satisfactory manner.

Ironing Hint.
 To prevent the centers of your round duffles from cupping, press your iron down very hard as you iron around the edge of the center (not the lace) and with your left hand pull the edge ahead of the iron. It stretches the edge to its former circumference and the dolly will fit flat.

Umbrella Covers.
 A novelty in the world of umbrellas is the leather cover that is replacing the old one of silk. There is much to commend the cover of leather. In the first place, it makes the umbrella much smarter, as the covers conform closely

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

Card of Thanks.
 We wish to thank our many friends for their sympathy and kindness during our recent bereavement in the death of our dear husband and father and also for the beautiful floral offerings.
