

NEWS NOTES OF PENDLETON

Bank Being Painted.

The exterior of the Inland Empire bank is being painted today with gray paint. The completion of the painting will finish the work for the building.

Lights Ready Wednesday.

Electric lights in Pilot Rock will be ready Wednesday, according to estimate of J. L. Vaughan, who has supervised the installation of the new \$4000 system there. All materials have arrived and been connected up and unless something unforeseen arises, the power can be used Wednesday. The plant is municipally owned.

Cool Spots Popular.

Pioneer park and the lawn at the O.-W. R. & N. depot are popular resting places during the warm days. Crowds took refuge from the heat in these spots yesterday, while swimmers took advantage of the opportunity offered by the Pendleton Natatorium.

New Stage to Weston.

A Weston-Pendleton stage is being established by O. S. Wickline who will have his Pendleton headquarters at the Allen-Knight Co. store. The schedule will be as follows: Leaves Weston for Pendleton at 7:45 a. m. and 12:45 p. m.; leaves Athena for Pendleton at 8 a. m. and 1 p. m.; leaves Adams for Pendleton at 8:20 a. m. and 1:20 p. m.; leaves Pendleton (Allen-Knight Co. Store) for Weston at 10 a. m. and 4 p. m.

Weather Prediction Arrives.

"Continued warm, with thunderstorms Thursday," is the weather prediction received today at the office of W. W. Cryder, district forest supervisor. The message came from Portland by wire.

Miss Harriett Johnson Plays.

Miss Harriett Johnson, formerly of Pendleton and a niece of Mrs. J. F. Robinson of this city, was among the prominent players in the Oregon state championship tennis tournament which ended in Portland Saturday. Miss Johnson is an Irvington club player.

Has Novel Advertising Scheme.

Mayor J. L. Vaughan today received a novel postcard from Calgary, Alberta, advertising their Stampede show which is scheduled for the week of August 25 to 30. It is a "personal" message in regular motion picture cowboy handwriting. The postscript by "Shorty" says, "If yore boss won't let yew kum, quit him."

Pendleton Boy Has Good Score.

Charles Russell of Pendleton, O. A. C. student, was among the 24 men who made the marksmen rank in the target practice at the Fort Berry rifle range recently. Sixteen out of 33 reserve officers' training cops men at the Presidio who made either the marksmen rank or the sharpshooters' rank in the practice were O. A. C. men.

Returns From Convention.

Mr. and Mrs. E. T. Wade returned today from Vancouver, B. C., where they attended the Interstate Realty Association convention of which Mr. Wade is a member. The trip was made by automobile from Portland. Yesterday's Oregon Journal showed a picture of Mr. and Mrs. Wade, taken during the trip.

Employment Office Busy Place.

The front of the city hall presented a busy place this morning with several truck loads of fire fighters about to depart for the south of the country to try to extinguish the flames. The men were recruited by N. Berkeley of the U. S. employment bureau. Many men, looking for harvest work, are also being sent out daily.

Gets Idaho Highway Position.

G. R. O'Melveny, civil engineer and contractor, left last night for Boise, Idaho, where he has accepted an important position with the Idaho Highway Commission. Mr. O'Melveny has been in the engineering game in Pendleton for several years and in 1915 completed an official map of the city.

Remodeling Work Under Way.

Old partitions, walls and floors are being torn out of the second floor of the American National Bank building today by the contractors, Grisdale & Swanson. All the tenants have moved to temporary locations and the work will be rushed to completion within the allotted 60 days.

Expect to Move Office Tuesday.

The new office for the Pacific Grain Co. and Pacific Coast Elevator Co., in the building formerly occupied by Hale & Hascall, is expected to be ready for occupancy tomorrow. In case the two concerns are unable to move, the new office will combine the two, with J. E. Montgomery as manager.

Wheat as Clean as Usual.

Wheat this year is as clean of smut and other impurities as usual, J. E. Montgomery, grain dealer, said today. Some of the grain so far examined has been found cleaner than most yields and only the average amount of dockage is being encountered. Tests are showing the county grain to be of a high grade by weight.

Normal Temperatures for This Week.

The U. S. department of agriculture weather forecast for the week of July 21 to 26 predicts for the Pacific coast states generally fair weather and normal temperatures. Generally fair weather, with comparatively low temperature, is promised for the northern Rocky mountain and plateau regions.

Salem Auto Men Here.

Richard and Albert Tate, of Salem, are in Pendleton for a few days looking over the auto repair field with an eye to entering business here. They are experienced garage men and may establish a garage here if a location is obtained and they think the field suitable. They are recently discharged men from the service.

Will Speak at Salem.

Miss Lorene Parker, retiring county agent, who leaves tonight for her home near Salem, will be one of the speakers in that city at the Rural Life Conference, which will be held under the auspices of the Methodist church with the co-operation of the O. A. C. extension school. The conference will be from July 11 to 23, and Miss Parker will be on two of the programs. She will demonstrate a cook stove drier and other kitchen appliances, as well as the construction of a home made fireless cooker.

Jim Estes is Home.

After having attended the Elks grand lodge at Atlantic City, the big fight in Toledo on July 4th and stopped at Cheyenne enroute home, J. H. Estes arrived Sunday and is now trying to recoup on sleep and incidentally to restore a flattened pocket book. Jim says he bet no money on the fight so lost none but he did find prices in the east sufficiently high for all purposes and the Atlantic City people past masters in the art of charging all the traffic will bear. He says prices are higher in the east than that people are spending money like drunken sailors.

Mountain Fishing Good Now.

Fishermen returning from the mountains in the south of the county report fishing good in the Desolation country and on Chama, Cable and Hidayas creeks. Several catches of the limit are reported, although no fish larger than 10 inches are taken. The results in the Umatilla river have been poor, however, and not until a rain comes will the catch improve, the sportsmen say. The river has been overworked with anglers this season, and this, coupled with the long dry spell, has lessened possibilities of a good catch.

Two Round-Up Stories Promised.

Pendleton's Round-Up will not only be the subject of a leading article in the Red Cross magazine for September, but will be featured in one other national magazine, according to word from Anne Shannon Monroe, Oregon author, received today by Major Lee Moorhouse. The other publication, however, was not mentioned. Miss Monroe has received the various photographs sent by the major and in appreciation of his assistance recently sent him an autographed copy of Happy Valley, her well known story of Eastern Oregon life.

Permanent Muscular Strength

can not exist where there is a lack of blood strength. Young men giving attention to muscular development should bear this in mind. Hood's Sarsaparilla gives blood strength and builds up the whole system.

DODGE BROS. Motor Cars

The popularity of this sturdy car is growing daily. The last two car loads were all sold before they reached Pendleton, and to date all of the cars which we will receive in the next car load are contracted for, as well as the second car load, excepting one.

Since the demand is so much greater than the supply of DODGE BROTHERS MOTOR CARS, you will have to speak quickly if you expect to be the owner of one of these dependable cars.

THE BEACH PATROL MUST DO HIS DUTY, BUT—

When these beauties appeared on Neptune Beach at Coney Island, of course everybody gasped, then gathered about them. The beach patrol came up to learn the trouble—and you can guess the rest. They're those daring Mack Sennett bathing girls again.

WHEN YOU NEED GLASSES

There is nothing to gain by putting for eye defects and that is glasses. Right there are thousands who waited too long that would gladly pay any price. Your eyesight is priceless, why take chances of injuring your eyes by putting off having them examined after they begin troubling you? In most cases there is only one remedy to cure defects and that is glasses ground to fit.

Thirteen years' experience in the fitting and grinding of glasses at your service. If you come here, (Ten years in Pendleton).

Reasonable charges.
