COMMITTEE PROBES H. C. L. AT CAPITAL

BY L. C. MARTIN
(United Press Staff Correspondent)
WASHINGTON, July 21.—Progressive Republican senators interviewed today demanded that congress act to reduce living costs.
Senator Capper said: "The situation is so bad the party in power must definitely act before the next election or accept the consequences."
Senator Kenyon and others agreed with Capper.
The senate committee has started a search for profiteers in Washington. Some declared the conditions so acute here that government employees are quitting, threatening to impair the efficiency of government departments.
Food, clothing and rent costs are to be studied; wholesalers, retailers and consumers will be heard.
Capper said: "This is of more importance right now than the league in Europe, and the people here are becoming dissatisfied."

biggest battle facing congress. It is a fight that cuts across party lines. It divides those in congress who are trying to solve high living cost problems from those who seek to protect special interests.

audit prime consideration in placing the business. When the figures are all in, the number will probably reach 1500 and the number of advertisers who insist on an A. B. C. audit before a publication will even be considered is steadily increasing.

"I attended an A. N. A. meeting the other day in Cleveland. The A. N. A. membership is now 282 and its members spend more than a \$100,000,000 a year in advertising. At this meeting a resolution was passed without a dissenting vote, endorsing the work of the A. B. C. recommending a fuller use of the A. B. C. audits by its members and stating in the resolution that such recommendation was made after a thorough investigation of the A. B. C. audit methods by the secretary of the A. N. A."

Public Opinion Kills International Strike

PARIS, July 21.—Advices today from European countries, especially from allied nations, indicate that the international strike planned by the proletariat as a protest against intervention in Russia and Hungary had lost its element of danger. Complete failure is reported in many places. Apparently strike leaders either had lost their control or had received government warnings.

Serious in Norway.
Only in Norway were there indications that the situation might prove serious. A general strike was called. The strike Saturday forced Christianska to do without light, water, tram-cars and newspapers. The government issued an order closing restaurants and ordering a three day prohibition of alcohol sales.

Public Opinion Turns.
In France the strike was officially called. Telegrams from Italy, Austria, Germany and Great Britain indicated the movement was abandoned either wholly or partially on account of the pressure of public opinion. Dispatches from Germany announced the world revolutionary idea had weakened greatly as a result of violent protests from German agriculturists and the public.

DR. FRED LIEUALEEN WILL PRACTICE HERE

Dr. Fred Lieualleen, Pendleton man who was badly wounded and gassed while serving as a captain in the medical corps and who received three citations for bravery, expects to practice in Pendleton this fall. Dr. Lieualleen, with Mrs. Lieualleen, is in the city today from Adams, where they have been since Saturday visiting at the home of Dr. Lieualleen's parents, Mr. and Mrs. J. T. Lieualleen. They expect to leave in a short time to spend the summer at the Lieualleen mountain home near Meacham, for the benefit of Dr. Lieualleen's health.
He recently purchased the Perkins property on the north side and with his family will reside there upon his return to Pendleton.

LEAGUE OPPONENTS BITTERLY ASSAILED

WASHINGTON, July 21.—Comparing senators opposing the league of nations to "hell hounds and snakes," Senator Harrison of Mississippi, delivered a fiery attack on them in a senate speech today.
He predicted, "If you do you will hear the voice of the people and Republican hopes will be forever shattered and your party ignominiously defeated." He declared opposition to the league was based first on jealousy of the great prestige obtained by the president, and next on the fear of munition makers that disarmament under the league will cut off their profits.
"Nothing has been left undone by you (addressing the league's foes personally) to have 'failure' written over the Versailles conference door. Your conduct is only comparable to the conduct of the never ceasing hell hounds which Milton stationed at the infernal gates."
"Never before in discussion of a great national question has deception been so lavishly practiced."
He assailed Senators Borah, Lodge and Knox and Chairman Hays of the Republican central committee for concentrating bad batteries against the league.

Why the Sixteen-Year Old Economy Facts of the Franklin Mean More Today

Throughout the country, industries and individuals are "speeding up". The nation is on an efficiency basis, and both the individual and the motor car must either conform, or fall out of the picture.

"Anti-Idling" laws apply to motor cars as well as to men. These are days when the car that can't earn its keep faces the possibility of being put under lock and key. None of us can be wasters—and neither can our cars.

The Franklin Car meets this condition with flat statements of just what it will do—and just what it will cost to do it.

It offers you the satisfying service only a fine car can give; the utmost in riding-comfort, ease and safety of handling; freedom from complication and consequent repair-annoyance, plus the economical cost of upkeep arising from its steady delivery of—

*20 miles to the gallon of gasoline—instead of 10
10,000 miles to the set of tires—instead of 5,000*

Economy such as this is rare enough in the fine car field to be worth your immediate investigation—especially under present conditions.
