STORE EDITORIAL GETTING FULL VALUE FOR YOUR MONEY IS REAL THRIFT.

Thrift does not imply deprivation, although some people have an idea that they must practice self-sacrifice in order to save. The woman who knows what thrift means seeks first the worth of her money and, if she finds it, savings are the logical result.

There is no form of thrift to compare with full value for the money you spend. And there is no form of waste to compare with the haphazard spending of money which takes no heed of value.

People who do all their shopping at this Store automatically save in the course of a year a sum which permits purchasing additional things, which otherwise could not be bought if the same purchasing power were used in shopping elsewhere. The reason for this lies in the fact that our patrons get full value. They pay the lowest prices in the city, and consequently save money. In other words they practice thrift in the best form.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood. Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address: Swift Specific Co., Dept. 53, Atlanta, Ga.
