

# It is the Little Things That Count

Pig things take care of themselves. Here and there you will find a person who is too busy to bother with what seems to them a mere trifle.

This is true of not only individuals, but some institutions as well.

With us, nothing seems too small or trifling. The smaller things are given as much attention as the larger ones. The purchaser of a 25c article is given the same attention and courteous treatment as the purchaser of a \$25 article receives.

It is a pleasure for us to "make good" anything bought here that is not absolutely satisfactory in every respect.

### RIBBONS PROMINENT IN FALL FASHIONS

Ribbons are one of the outstanding notes of the new fall fashions. Dresses made of ribbons with only a bit of lace here and there to soften the outlines are being shown in this country and Paris.

Ribbon Girdles, Sashes, Ribbons for trimmings as bands and panels for skirts, for corsage and overskirts of dancing frocks, in profusion on underwear, on millinery—these are some of the fashion features that are daily increasing the demand for ribbons. This store is showing the greatest assortment of high and medium grade novelties in these fashionable ribbons than ever before. Prices range from . . . . 25c to \$4.00

**BUY YOUR BEDSPREADS** now. New prices are much higher, take advantage of foresighted buying and save at least 20 per cent.

## ARMY WOMEN HOUSED IN OLD GERMAN HOME

BY GRACE GOULDER  
 (WITH the American Y. W. C. A. in France.)

TRIEVER, Germany. (By Mail).—There is an old American home occupied and operated entirely by American women right in the center of this oldest city in Germany. Of course there are Americans everywhere, on the streets, in the requisitioned hotels, billeted in groups in houses throughout the city, for Trier is part of the territory of the American Army of Occupation. But this particular house is occupied just by American women. They are members of the Signal Corps and are telephone operators for the Trier district.

Their house is a luxurious big home, the property of wealthy Germans. The rooms are filled with beautiful furniture. There is a wide, open fire place in the sitting room with beautifully done family portraits above it. The entrance reads: (1) Save your leather shoes for winter. (2) Don't be reluctant to wear wooden shoes or wooden soles. (3) During summer and fall go barefooted or wear sandals. (4) Wear your poorest shoes during dry weather. (5) Keep on using your shoes. Have them half soled. (6) Wear slip-ons in the house.

By-Product Plants Seen.  
 HOOD RIVER, Or., July 29.—A party of high officials of Libby, McNeil & Libby, arrived here Saturday for a visit with local fruit sales officials and to inspect local canning by-product plants.

The members of the party were General Manager Eustice, Chief Purchasing Agent Kay Boliv, Manager Mathewson and Purchasing Agent Kyle of the North Yakima district. The visitors were here especially to see the plant of the Hood River Vinegar company, which is being greatly enlarged this season.

A syrup ladle with its broad bowl and pointed lip is more convenient than a dipper or spoon because it fits into the mouth of the jar and prevents dripping. It is also convenient when the open kettle method is used for small-fruit or berry canning.

curio cabinet is filled with rare bits of the world's art. The dining room is lined with heavy carved paneling and there is fine linen and silver service. On the piano is a picture of the family group—father, mother, daughters, and one tall boy. The boy is now dead, killed in the early days of the war. On a table there is another picture of him as he went away to the fight in his officer's regalia of the German regiment.

Family Interred.  
 The country to whom they gave their aid has lost the war, and they have lost also their home. The family is interred in Switzerland. The house there was requisitioned by the American army. It stands just as they left it, with the intimate personal things about the rooms. As is being done in the case of all requisitioned property used by the Army of Occupation, the German government will be forced to adequately and justly recompense the owners for its use, but the A. R. P. says nothing.

Signs Remain.  
 Little street cars with shiny windows bolt across the cobble streets. There is a wide, open fire place in the sitting room with beautifully done family portraits above it. The entrance reads: (1) Save your leather shoes for winter. (2) Don't be reluctant to wear wooden shoes or wooden soles. (3) During summer and fall go barefooted or wear sandals. (4) Wear your poorest shoes during dry weather. (5) Keep on using your shoes. Have them half soled. (6) Wear slip-ons in the house.

### FASHION CALLS FOR POKE BONNETS

Put on your new poke bonnet, ladies. If you would be absolutely correct as to the Autumn mode for hats. Pokes are sure of first place in the race of Fashion. This one is of tulle embroidered in very woolly-wool flowers. The crown is round and the brim wide and flaring. Note the new lace Bertha collar that has just "come back!"

### OPEN CLUB HOUSE FOR DOMESTIC EMPLOYES

#### Y. W. C. A. in London Manages Work, Trains Girls, Regulates Hours.

LONDON, July 29.—Domestic service is made a profession and an attractive one over here. A brand-new scheme has been launched by the Y. W. C. A. It is called the "Home Service Corps." It has been but a week or two in operation so there are yet only about forty girls enrolled. But the number is growing daily. They live at a kind of residential club in one of the most aristocratic sections of London. Their friends both men and women, they come back here for their meals and their free time. They entertain their friends, both men and women, here. The club is managed by a manager for them. And they are guaranteed not only work, but free time as well; in fact, their employers must agree to a "ten hour" daily some time between four and six in the afternoon, as well as stipulated meal hours, vacations, half holidays, week-ends and regular working hours.

**Training Center**  
 This club is merely the start. It is a training center as well. Girls receive their training either before they take a position or in the extra hours after their work. In any case the employer hires the girl for the "house" as the English call the club, paying the hostel manager two pence an hour, or about twenty cents in American money. The hostel on the other hand pays the girl thirty shillings, or about \$75.00 a week during her probation period, whether she is employed or not. The hostel thus assumes the responsibility for getting her employment. The girl pays the hostel a small and nominal sum for her board, lodging, laundry and club privileges. All girls in the Home Service Corps wear a uniform consisting of a plain blue dress with white apron and big white cap. The letters "H. S. C." are worn on the cap and arm. An employer can hire a girl for any length of service from two hours to a yearly contract. No girl can work more than 48 hours a week.

**Definite Rules**  
 A minimum of two weeks holiday on full pay must be given the girls for every year of work. When workers live at the house of their employer, their sleeping rooms must conform to definite requirements of light, heat and ventilation. The usual hours of work will be between 7 a. m. and 9:30 p. m. Any service desired earlier or later can be obtained only through special arrangement with the hostel management and upon a payment of a special extra rate per hour. Overtime is in any case, limited. Meals will be taken ordinarily at the hostel, but if preferred some may be had at the home of the employer through special arrangement with the hostel management. An hour must be allowed for dinner as well as sufficient time between the hours of 4 and 6 for tea. Each worker is provided with a book which must be signed by the employer showing time of arrival and departure as well as meals, if any, taken at the employer's house.

**Fighting Mayor Eights.**  
 YAKIMA, July 29.—Mayor Ole Hanson, of Seattle, lived up to his reputation of always having a fight in Yakima when he spent Saturday and Sunday here as the guest of the Washington Automobile Dealers' association. As he was driving slowly in an automobile, a spectator remarked: "He ought to be hung to the nearest telephone pole."

Hanson promptly climbed out of the machine and struck the man a ringing blow. The fellow disappeared quickly in the crowd, which cheered the aggressive attack.

"That's the way to deal with the L. W. W.; they're all cowards," the Seattle mayor told the Yakima mayor, who was with him. "I know that fellow's face; he's been under arrest at Seattle."

Mr. Hanson has visited Yakima five times in recent years and says he has had to "fight" each time.

**Aero Company Is Formed.**  
 SILVERTON, Or., July 29.—According to information received by wire Sunday from Lieutenant Floyd D. Browne at San Francisco, he has purchased a new J. N. 4 D. aerial gunnery ship and will start north Tuesday, making the first landing at Medford, Or. He will jump to Eugene from Medford and arrive in Salem Thursday.

Lieutenant Browne has organized a company to be known as the Beber Aero company and the stockholders are as follows: Floyd D. Browne, president; Ralph Workman of McMinnville, vice president; Henry E. Browne, secretary-treasurer; F. C. Franzen of Portland, aviator.

Lieutenant Browne has made arrangements to carry the McMinnville delegates to the Elks' convention at

Klamath Falls next month in his plane.

The Aero company will incorporate with headquarters at Salem, Ore. Capital stock is \$4500.

De Valera Not Invited.

SEATTLE, Wash., July 29.—By a vote of 4 to 3 the city council yesterday postponed indefinitely a resolution which, if passed, would have invited Eamon de Valera, "president of the Irish republic," to visit Seattle merely as a citizen of Ireland to speak on Irish conditions.

Mr. De Valera will, however, visit Seattle the latter part of September, according to announcement today by E. J. Voen, former president of the Ancient Order of Hibernians in this city. Coen says De Valera will make several speeches while here.

Colanders are obtainable which are much more satisfactory for making butters or jams than the ricer of the colander plus the potato masher. This colander clamps to the table and has an attachment which is turned by hand forcing the fruit through. It may also be used for purees or riced potatoes.
