General debility and that tired feeling is Hood's Sarsaparilla. This highly concentrated, economical medicine is a great favorite in thousands of homes. It is peculiarly successful in purifying and revitalizing the blood, promoting digestion, restoring animation, and building up the whole system. GERMANY IS SEEKING TO IGNORE THE WAR

Imperial Spy System Turned Over to Republic; Still Spreads propaganda.

PARIS. (By Mail.)—Germany is seeking to pick up just where she left off in July 1914, and politically, industrially, commercially and economically is trying to act as though the war had never been.

TEXT OF FRENCH DEFENSIVE PACT

(Continued from Page 1.)

Surprise Might be Fatal.
Wilson explained that the situation in France seemed to require the temporary pact, under which the United States and Britain volunteered to anticipate action of the league of nations by going immediately to the aid of France should Germany strike. He made it plain that as soon as the league council shall decide the league of itself is sufficient guarantee of France's safety, the special treaty will no longer remain in force.

Wilson explained how the league is empowered only to advise military action by its members, and how that might involve delay which, in the event of a surprise attack by Germany might prove fatal. The president pointed out that the United States owes France a special debt of gratitude which she can never fully repay, but this treaty, he urged, will be an expression in the fullest sense of America's gratitude for French help in winning America's independence. It was this, he said, as much as anything else, which moved him to sign the treaty. Wilson urged early ratification of the special treaty as well as the peace treaty.

Only if Britain Ratifies.
The treaty is effective only after a similar treaty with Britain has been ratified, it is provided. The British house of commons has already ratified it. In a message submitted the special treaty to the senate Wilson said America is bound by its debt to France to ratify the treaty. The president emphasized that there is no doubt expressed or implied, in France's urgent request for the special treaty, of the ultimate efficiency of the league. "But," he added, "the years immediately ahead of us contain many incalculable possibilities."

Republican Strike Averted.
WASHINGTON, July 29.—President Wilson's decision to submit the special French treaty of defense to the senate may have forestalled a revolt of Republican senators which might have delayed ratification of the Versailles treaty. While the president, in his room at the capitol, was informing Democratic senators that he would submit the document today, Senators Lodge and Brandegee conferred on plans to have the foreign relations committee stop work on the peace treaty until the French agreement was presented.

The committee finished reading the treaty and took up the Colombian treaty today, expecting to order a favorable report. The treaty provided for payment of 25 millions to Colombia for land taken for the Panama canal but the apology it once contained has been eliminated, with Colombia's consent.
