

### U. S. CHEMISTS WILL PROCLAIM FREEDOM

#### Tremendous Advance in Industry is Made in California in Last Year.

PHILADELPHIA, Aug. 1.—The complete freedom of the chemical industry of the United States from foreign domination is expected to be discussed by Secretary of War Baker in his address to be delivered before the annual meeting of the American Chemical Society to be held at the Bellevue-Stratford here, from September 2d to 6th.

This is expected to be the largest assemblage of chemists ever held in the United States, the membership of the society having increased from 7170 in 1914 to 13,600 in 1919. More than 5000 chemists are now at work within two hundred miles of this city and thousands more are in Illinois, Ohio and other states only a few hours journey from here.

One of the large delegations, it is believed, will be from California where there has been a tremendous advance in the chemical industry within the last year.

The strides made by the chemical industry of the nation, as shown in statistics issued by the American Chemical Society in advance of the convention, were directly stimulated by President Wilson's recommendation to congress that the industry be safeguarded and by the disposition of legislators to furnish adequate protection.

This effect is especially felt by the newly organized dye section of the society. The introduction of a license system would regulate for a limited number of years the importation of dyes, colors and medicinal substances. It was pointed out that Germany's war strength was largely due to the

fact that, almost overnight, she could convert her great chemical plants into munition factories.

Previous to the war her favorite weapon for attacking the chemical industries of other nations was the "dumping" of the products of these huge plants at less than cost prices, when any rival to her trade appeared. The protection from this "dumping" process will, it is said, make chemistry a mighty factor in the era of reconstruction upon which the country has entered.

Through the research and ingenuity of American chemists new sources of potash upon which farming and many manufacturing industries depend, have been found in the lakes and rocks of the United States and in the kelp fields of the Pacific coast. Before the war Germany was able, virtually, to control the potash trade of the world because under much of her territory are soluble ores from which potash is extracted at slight expense.

American chemists have been spending millions of dollars in research work for the development of a group of dyes known as vat dyes. One large manufacturer, in order to place its vat dye department on an efficient basis, has expended \$1,800,000 in experiments. The first session of the dye section will be of importance, not only to chemists, but to manufacturers of leather, textiles and many other fabrics in the preparation of which colors are required.

#### Picked Overseas Men Form Mounted Police For Oklahoma City

OKLAHOMA CITY, Okla., Aug. 1.—Suggestion of St. Mihiel, Gibraltar and Pancho Villa ranged Oklahoma City today as the new mounted police trooped picturesquely to their first day's duty.

The department was composed of picked overseas men, uniformed like brigadier generals and armed like superdreadnaughts. Each man at first

might have been mistaken for an overseas marine officer, jaunty cap and all, except for his equipment.

A .45 caliber automatic pistol hung from his Sam Brown belt and on the other side a bayonet and scabbard. A 10-gauge riot gun, slung at a secure point, recalled German protests at the "inhumane" shooting used by Americans for guard purposes.

The service will continue the duties of patrolmen, militia and detectives. Special equipment for "sleuthing" is provided in the gumshoes worn by the police horses. Mayor Walton will not have his policemen's movements disclosed to desperate criminals by noisy trotting, he says.

#### Intends to Fly 1,350 Miles in a Day to Dine in New York

WICHITA, Kan., Aug. 1.—C. A. Kettering, president of the Dayton Engineering Laboratory Company, who flew in an airplane from Dayton to Wichita yesterday, will seek new honors tomorrow in a cross-country flight.

Mr. Kettering, piloting his own machine, will take breakfast at Wichita and according to his schedule will dine at Hotel Astor, New York, tomorrow night.

He proposes to leave Wichita at half-past six o'clock tomorrow morning.

As the crow flies, the distance from Wichita to New York is 1350 miles.

**SEES NO EARLY DROP.** LONDON, July 31.—"No one can imagine prices dropping much in the next year or two," declared Premier Lloyd-George before the agricultural committee of the house of commons today.

**WANTS AERONAUTICS EXECUTIVE.** WASHINGTON, July 31.—Creation of an executive department of aeronautics, headed by a cabinet member is proposed in a bill which Senator New introduced today.

**Belgium Favors Ratification.** LONDON, Aug. 2.—The foreign committee of the Belgian chamber of deputies recommended the ratification of the peace treaty by the chamber, said a News Agency dispatch from Brussels.

#### TEN YEARS AGO HE WAS ONE OF THE BIG MEN IN BASEBALL

Ten years ago he won a world's series pennant. He was one of the greatest managers in major league baseball history. He has been out of the game but a few years and yet who would look at the picture and connect him with baseball? Fred Clarke has taken up the less strenuous pastime—trap shooting. He is president of the Kansas State Sportsmen's Association. Fred doesn't boast of being as good a trap shooter as he was baseball general but he does fairly well. He broke 246 birds in the state trap meet.

## Outing Days are Here

Before starting on your trip to the hills or across country be sure your car is in the best running order.

The long hot hours over all kinds of roads is a severe work-out for every part of your machine.

THE MOTOR, THE CLUTCH, THE WHEELS, THE BRAKES—all should be thoroughly gone over before you start.

BRING IT HERE AND YOU'LL GET A GOOD JOB.

All work guaranteed and turned out by mechanics with experience.

LEUER AUTO CO.  
614-16 Garden St., Between Alta and Webb Sts.

**John Doe First Victim.**  
The first speeding victim of the new month is John Doe, who this morning forfeited \$5 bail for failure to appear in police court.

#### BUILD YOURSELF UP SO AS TO FEEL BETTER

Eat and sleep better, as well as look better, by taking Hood's Sarsaparilla. It is an all-the-year-round medicine, good in all seasons. It purifies, enriches and revitalizes the blood, creates an appetite, aids digestion, assists assimilation of the food you eat, and wonderfully builds up the whole system. In many cases it succeeds where other medicines fail to do any good. If you need a mild effective cathartic, get Hood's Pills.

### STOCKMEN

Take notice of the growth and development of the Spokane Union Stock Yard. Make a trial shipment and come with it; see for yourself. You will be financially benefitted without doubt. If you have only a few head, club with your neighbor and make Community Shipments.

Write us for our booklet on this subject.

Spokane Union Stockyard Co.

# Lewis Tire & Rubber Co.

222 East Court Street, Pendleton

## NOW OPEN FOR BUSINESS

Carrying a complete line of tires and tubes and making their own adjustments

**BLACKSTONE FABRIC TIRES**

#### Carlisle Cord Facts

The breaking point of a single strand of Carlisle rope is 235 pounds.

A pull of 100 pounds is required to separate the two layers of cord. In the ordinary tire a pull of 18 to 30 pounds will separate the layers.

They save gasoline. In tests the saving has run from 20 to 30 percent.

They are less susceptible to puncture than other tires. Blow-outs are almost unknown. The breaking resistance of a Carlisle Tire is more than a ton per square inch.

**CARLISLE CORD TIRES**

The forked lightning tread. 8000 mile guarantee

Carlisle Tubes are guaranteed for 1 year.

**CANTON CORD TIRES**

Guaranteed 8000 miles

#### The Carlisle Guarantee

When you buy a Carlisle Tire you can smile with the thought that you are getting much more for your investment but paying no more.

Let us tell you about them.

Guaranteed to give perfect satisfaction are CARLISLE CORD TIRES; not 100 percent perfect, but so nearly so that any time we will correct any mistake made in their manufacture at our expense and without dispute or delay.

We are in the Tire business exclusively. Come in and see the Tires that serve.
