**Ammonia Fumes Injure Nine.**  
LOS ANGELES, Aug. 12.—Ammonia escaping from a broken pipe in a candy factory here today caused a panic among thirty girls employed in the room. All escaped, but eight received slight injuries and were treated at the Emergency Hospital.

A. L. Turk, 22, a shipping clerk, rushed into the room and shut off the ammonia, but breathed the fumes. Physicians said he would probably be all right.

**Anti-Booze Budget Planned.**  
MONTGOMERY, Ala., Aug. 12.—Three million dollars will be required annually for the world-wide prohibition fight under the financial budget of the World Anti-Saloon league, as formulated at a meeting here today.

### "GOVERNOR" OF HUNGARY

ARCHDUKE JOSEPH FERDINAND  
BUDAPEST.—Archduke Joseph, who was one of the commanders of the Austrian army during the war, instead of being tried for high crimes is to be recognized by the emperor as Governor of State of Hungary. And Joseph is a Hapsburg. His immediate problem is to deal with the Rumanian invasion of Hungary.

traced the history of a fine necklace which in 1824 cost \$500. In 1858 it changed hands for three times that sum; in 1890 it was sold for \$5000 in 1900 for \$7000 and in 1914 for \$22,500. Today its value is \$50,000, increased demands and smaller production are the explanation.  
At any social gathering today in Paris, London, Rome, New York or Buenos Aires there is scarcely a woman of any pretensions to elegance, as the newspaper points out, who has not a pearl necklace. In the meanwhile the pearl fisheries, partly from exhaustion and partly from lack of suitable labor, are producing less and less.—London Mail.

**Live Simple Life.**  
The Henry Ford-Thomas A. Edison-ohn Burroughs camping party abandoned the simple life of the forest after motoring across Vermont from the Adirondacks and spent Monday night in a local hotel. It was the first night, Ford said, that the party had slept under anything more substantial than a canvas roof for two weeks.

**Chicago Cashier Robbed of \$5000.**  
CHICAGO, Aug. 12.—Eight thousand dollars in cash and \$500 in checks was obtained by two bandits who waylaid the cashier and messenger of the community bank here today, shot the messenger when he resisted, and escaped in an automobile. The holdup occurred as the bank employees left an elevated station on their way to the bank from downtown.

**PASSER OF SPURIOUS CHECK IS ARRESTED**  
PORTLAND, Aug. 12.—On February 21, John Bours, 61, is alleged to have given Max Blum a check for \$10. The check was reported to be bogus. Bours disappeared. Patrolman Horack arrested him Monday. His bail was fixed at \$250.

While we are about democratizing industry, we might also try to induce the democracies to be more industrious.

The farmer who raises poultry is reasonably sure of good crops.  
Possibly the railroad brotherhoods could be induced to take over congress and run it.

Just at present the nickel, it remarkable for its low visibility.  
America has too much constructive business that now demands its attention to waste time, money and blood in destructive riots.

## Now is the Time to Advertise

Present Advertisers—Increase your pace.  
Prospective Advertisers—Bring your plans to a head and start advertising immediately.  
Advertising began as an afterthought of business, but became the forethought just as it was a part of the fore thought of war that insured victory, so advertising must become the forethought of peace to insure prosperity.  
Advertising Anticipates; Advertising Discounts; Advertising Compels. Advertising is the surest, quickest, and most economical selling force known to industry to-day.  
The power of an idea multiplied in millions of minds moves governments—or goods—as the case may be.  
The Department of Labor urges more advertising by merchants and manufacturers to insure the present prosperity of the Nation.

**PRICE OF PEARLS TAKES BIG JUMP**  
Diamonds and pearls, especially pearls, according to some authorities are becoming in practice the real international money. Thousands of Russians since their escape from bolshevism are living on their jewels, who would starve if they depended on landed estates or stock exchange securities.  
As showing the enormous rise in the value of pearls the Martin has
