WALL STREET IS FULL OF OUTSIDE TRADERS

## Millionaires Made in Night, Fortunes Vanish in War Price Speculation.

NEW YORK, Aug. 14.—High prices of foods and products of factories are reflected nowhere better than in the New York stock market, where transactions have been so heavy in recent weeks that extra holidays, in addition to the Saturday half-day have been necessary to allow clerks to keep up with the business.

Starting last March trading has been so active that rarely a day has passed when shares sold did not reach the million mark, and on occasions the number has gone above \$2,000,000. And rarely has the market been "oversold," a condition reached when shorts sell so heavily that it is difficult for them to move by purchases.

Naturally with such demand for issues of all character, it follows as a matter of course that prices must mount. And mount they have.

The day before the world was plunged into war—July 30, 1914—stocks which now are selling at far more than \$100 a share, could be obtained for a bare fraction of that figure. Common stock of the International Mercantile Marine, for instance, could be picked up in Wall Street before the start of hostilities at a few dollars a share. It has gone above \$60 since that day.

One great factor in the continued and steady advance of all classes since that time has been the phenomenal richest ground out in the factories that produce war munitions. Millionaires were made overnight. The public heard of these things and wanted to get in. They outnumbered the professional traders. And then along came the oil stocks with the development of the great Ranger field in Texas. Oil stocks began to soar.

Persons who never dreamed they would have better than a weekly salary have invested their savings in the effect was dramatic. The street has been full of outside traders.

Of course, the rich ones are greatly outnumbered by that saddened horde which has lost its all in Wall street speculation, but the glamor of the dollar always calls more.

And, while outside speculation is easing up and things gradually more normal, there still is an influence that bids fair to keep prices very high merely by the process of supply and demand for shares.

## UMPIRE BILL KLEM HEADS OWN LEAGUE

YONKERS, Aug. 14.—"Bill" Klem, the National League arbiter, has realized a life-long ambition. He is the head of a baseball league, and while it is an amateur circuit, it is by no means a "bush league."

The City Baseball League of Yonkers, N. Y., with William Klem as president, is a live combination, with the best ballplayers of Westchester county playing Sunday afternoon games. The eight managers representing the teams in the circuit unanimously elected President Klem as their president. President Klem has eight umpires under him, who are responsible solely to him in the same fashion as he is to the head of the National League. He has taken a particular interest in the umpire question and is rapidly developing his arbiters into big-league prospects.

When it comes to deciding protests, President Bill is also right on the job. He has been called upon to decide no less than eight protests this season—the disputes being entirely up to him for settlement—and in no case has he failed to rule in an impartial and just manner.

## OLD TOD SLOAN TO RIDE FOR MOVIES

NEW YORK, Aug. 14.—Tod Sloan, famous jockey of the golden days of racing, will be back in the saddle in the near future. However, Sloan is not going to take the laurels from Johnny Loftus, for Tod will do his riding in the movies. Sloan has signed to take a leading part in the photoplay, "Determination," a ten-reel thriller. Tod will ride the horse, Determination, in the big scenes of the play and no doubt will bring him home in front.
