HOUSEHOLD

Discoveries
A cracked egg can be safely boiled if wrapped in a piece of greased paper.

Potatoes baked in their skins will always come out more dry and mealy if a piece be cut off one end, and allow steam to escape in cooking.

Save in Pastry Making—If when making pastry you melt the butter or lard and beat it to a cream before mixing with the flour, only half the usual quantity is required.

To Keep Milk Sweet—Add a teaspoon of fine salt to every quart of new milk.

Renovate Oriental Rugs—Oriental rugs will last an ordinary lifetime when handled with care, but they will grow soiled and unsightly unless properly cleaned. They can and should be scrubbed and scoured. The process which professional cleaners use is plain scrubbing with soap, water and a not too stiff brush, and thorough drying in the open air after rinsing in the case of small rugs, they may be scrubbed at home in a tub or rinsed with a hose. Never shake nor handle roughly. Use vacuum cleaner and keep them clean all the time.

Curtain Hint—When hanging casement curtains an excellent plan is to draw the finger of an old glove over the end of the rod before running it through the hem of the curtain. This prevents the possibility of tearing the material.
