## BUILD NOW

### THREE NEW DWELLINGS, MANY EXTENSIVE IMPROVEMENTS, IN BUILDING PERMITS THIS WEEK

The week showed a slight increase in the number of projects for which building permits were issued. Of the ten permits issued, three were for new home dwellings, two of them to cost \$4500 each and the third \$1200. Considerable repair work was also permitted, raising the total of the week to \$12,585.

Every part of the city and many buildings within the fire limits are now experiencing building activity and contractors are kept busy with about all they can handle at present.

**New Building Nearly Done.**  
The Gritman building on Webb street is well on the way to completion. It will in a measure be an aid in solving the housing problem for the upstairs of the building will contain five four room flats. The downstairs will be used for the location of business firms. D. D. Phelps has the plumbing contracts, while L. Twitchell is in charge of the concrete work. The building is a two story brick.

**Wyrick Home Takes Shape.**  
The Guy Wyrick residence on Jackson street is nearing completion and gives indication of being an imposing structure. It is colonial in type and doorway, windows and roof are true to this mode of architecture. C. M.
