## GOD SAVE CHINA FROM FRIENDS'

SENATOR McCUMBER PROTESTS IN SENATE AGAINST SHANTUNG TREATY AMENDMENT.

### AGAINST INTEREST OF CHINA

Republican Senator Asserts That Opponents of the Peace Treaty in the Senate Trying to Kill It.

Washington, August 26.—Senator McCumber, for twenty years republican senator from North Dakota, in a speech in the senate today, charged that the majority of the foreign relations committee is trying to kill the peace treaty and the League of Nations. Senator McCumber spoke after his second breach with the opponents of the treaty on the senate committee on foreign relations. In the present breach Senator McCumber voted alone with the supporters of the treaty and against the majority of the committee which voted to strike out "Japan" and insert "China" in the three sections awarding the Shantung peninsula.

"Why did the majority of this committee pause in the midst of their hearings to make this particular amendment?" asked Senator McCumber. "The purpose is apparent. It is to signify to the country that the senate is hostile to this treaty. It is to put Japan in a position where she cannot without an appearance of being coerced do what she has promised to do.

**Against Real Interests of China.**

"I am satisfied that no greater blow could ever be struck against the real interests of China than by such an amendment.

"Is it an act of true friendship toward China or a mere political move to defeat the treaty? If its sponsors now fail to come forward and openly pledge that if Japan is driven out of this treaty then the United States will proceed single-handed and alone to drive Japan out of China—will renew this world-war and send our soldiers into the Orient to fight for her, then by this act they are betraying China with a false kiss.

"If, on the other hand, they declare they will make war to drive Japan out of China, to prevent Japan receiving only those rights which the other great nations of the world have received, then they are proclaiming a policy which they have assailed as being the most wicked part of the League of Nations—a policy of interference with the quarrels of the old world. Worse than that, while they violently condemn a joint agreement with the other great white nations of the world to shield the greater white races from annihilation they would send our sons to death to defend the inferior yellow races whom we claim to be inferior—as to be unfit to associate with us.

**Japan Unhindered if Outside League.**

"Either we will bring both Japan and China into this League of Nations, which by the very terms of its provisions will compel Japan to return to China all the German rights acquired by Japan, not only by conquest but by the solemn agreement made by her with China herself, or you will drive Japan out of this treaty wherein she will not be bound by the obligations which she would assume by joining the league.

"With this League of Nations China obtains an assurance which is tantamount to a guaranty by all the world that not only will Japan return to China what Germany wrested from her in 1918, but henceforth and so long as this league shall last no other nation shall rob China of one inch of her territory or exercise any control over her people inconsistent with the claims of complete independence and sovereignty.

Senator McCumber then recited the history of the several treaties under which Japan took over the German rights in Shantung. He then said:

**Distrust of Japan Shown.**

"By this amendment you declare that Japan cannot be trusted to keep sacred her word, given not only to China alone but also given to the United States and every other important nation by reiterated declarations.

"There is but one honorable, upright and proper course to be pursued by all the great nations of the world, including China and Japan. Let China keep her treaty; give Japan an opportunity to do what she has pledged her national honor to do. Cease this attempt to juggle this country into war with Japan; defeat this proposed amendment which arrogates to ourselves the right to annul a treaty between China and Japan and set at naught a treaty made during the stress of battle between our co-belligerents and Japan before we entered into the war; bring Japan and China into this league and as sure as the sun shall rise tomorrow Japan will keep her pledged faith.

"On the other hand, force this breach of contract by China; drive Japan out of this league by insulting her honor; relieve her from her treaty by first breaking it yourselves and thereby installing her in her impregnable position of right of conquest and China is doomed. The other European nations cannot help her because they are tied by their own treaties, and you will not make war on Japan to help China after she has broken her treaty.

**A STRANGER TO ART.**

When Theodore Roosevelt was Governor of New York, he knew quite well a farmer who lived at a house on the road where the Governor, riding horseback, would always stop for a rest.

One day when T. R. rode up the farmer was reading a New York paper.

"Governor," he asked, "aren't these New York papers pretty tall lars?"

"Why, what makes you think they are?"

"Well, here a story I was just a-readin' of a man who paid \$14,000 for a picture of a cow. I don't believe it."

"By not?" said T. R.

"Because," said the farmer, "I don't believe there's any man in New York would pay \$14,000 for anything he couldn't milk."—Pittsburg Chronicle-Telegraph.
