POET BELIEVES STATE OF WAR ALREADY EXISTS

Gabrielle D'Annunzio's Answer to French Mission in Fiume Implies That Hostilities Are on With Jugo Slavia.

COMMUNICATION LINES WERE ORDERED SEVERED

Serbian Government Planned Military Expedition Against Italian Force But Chief of Staff Halted Move.

ROME, Sept. 30.—Gabrielle D'Annunzio considers that a state of war exists between Jugo Slavia and Italian forces under his command, it is revealed in reports of negotiations between the poet commander and the head of the French mission in Fiume. D'Annunzio ordered severance of telegraphic communication between Fiume and Agram, the capital of Croatia and Slavonia. French representatives protested, insisting that communications be resumed. In refusing to grant the request D'Annunzio replied that in his opinion a state of war exists with the Jugo Slavs.

A Berne dispatch declares the Serbian government was planning a military expedition against D'Annunzio but at the last moment cabinet members decided to hear the chief of staff's opinion. The latter is said to have pointed out that Serbia is practically in a state of war with people on every border, especially Rumania, which had mobilized her forces on that border. The chief of staff also asserted that the situation within Jugo Slavia is alarming as the Croats and Slavonians are still considering conducting energetic anti-Serbian agitation. After his explanation the cabinet abandoned the proposed expedition against Fiume.

Eugenio Cuisca of the chamber of deputies, just returned from Fiume declared it impossible to describe the enthusiasm there. He said: "If D'Annunzio hadn't entered Fiume the Jugo-Slavs would have ruled the port now. The Fiumans feel now they have been delivered forever from the foreign yoke."

H. C. L. UP AGAIN; COW JUMPS OVER THE MOON AND MILK COSTS \$3

One again the H. C. O. L. has taken a jump. This time it is milk that has increased in price and one pint of milk, which formerly sold at \$2.50 per month, is now \$3. One quart of milk daily per month is now \$4.50 and two pints daily per month \$6, with two quarts daily per month priced at \$9. Single pints of milk cost 15 cents and single quarts 20 cents.

Pendleton dairymen say that the increase is due to the continued high cost of feed of all kinds of dairy cows and the high price paid employees in the dairy business.
