HISTORY LISTS DEEDS OF TROOP D'S BRIGADE

The history of the 146th and 148th Field Artillery units, in which were virtually all of the Pendleton and Umatilla county men of old Troop D, has just been issued in a book called the "History of the Sixty-sixth Field Artillery Brigade." Both regiments were members of this brigade. A copy of the history was received recently by James Bowler, who was a sergeant with the 146th.

The histories are neatly bound books of several hundred pages, with many fine pictures, histories, records, etc., which will be highly prized by members of the brigade for future reference.

The 66th F. A. brigade was composed of the 146th and 148th field artillery regiments, made up by national guard troops from the western states of Colorado, Wyoming, Washington, Idaho, Oregon and New Mexico. There were also about 200 Walla Walla county men in the 146th.

The history is divided into eight parts, as follows: Technical history of brigade, history of the 146th F. A., history of the 148th F. A., pictorial history, complete rosters, list of casualties, letters of appreciation, general information.

The brigade lost 106 men by death, total authorized strength being 130 officers and 3429 men. The strength of each battery was five officers, 222 men and of each regiment 71 officers and 1659 men.

It participated in four big offensives and these are shown in large fold-in maps. In all there are five such maps showing the Champagne-Marne offensive, the Aisne-Marne offensive, the St. Mihiel offensive and the Meuse-Argonne offensive, as well as the overland march into Germany and the road march to the western front.

SMALL CHANCE SEEN FOR ROUNDING UP ALL GARY, IND., BOMBERS

GARY, Ind., Oct. 14.—Army officers today announced small chance of rounding up the entire band of bombers suspected of having made Gary their headquarters in the May Day and June campaigns. The suspected "Reds" in jail are being grilled in an effort to uncover the entire plot.

Officers believe a powder factory here, now dismantled, may possibly have unwittingly supplied the plotters

with their explosives. Army men refused to go further than to state they believe some of the plotters are under arrest. The men who made bombs, mailed under "Gimbel Brothers" label, are reported under arrest, but a large number of their confederates are still at liberty.

YOUNGSTOWN, O., Oct. 14.—One was shot, many beaten and several arrested when strikers and police clashed at the plant of the Carnegie steel company here early today. The riot was precipitated when the police attempted to disperse a crowd of men stoning returning workers.

SUGGESTS ONE BOARD.
WASHINGTON, Oct. 14.—The industrial conference was thrown into confusion and compelled to adjourn again today shortly after convening for the afternoon by a proposal of Chairman Chadburn of the central committee of fifteen that six members of the conference be delegated to act as an arbitration board not only for the steel strike but for all big industrial disputes now on.

SPLINTER BREAKS LEG; SHOCK FATAL TO MAN
SPOKANE, Oct. 14.—William Slovis, dynamited a stump two weeks ago and a splinter struck him in the leg, breaking it in two places. Today he died, due to the shock, his physicians say.

PAPER "UNDERSTANDS" ITALY HAS ACCEPTED

PARIS, Oct. 14.—The Petit Parisien today reported it "understands" Italy has accepted settlement of the Fiume question on the basis of an independent state with the port under control of the League of Nations.

AMERICANS HELPED POLICE FIUME

PARIS—Before D'Annunzio executed his Fiume coup and while the peace congress was deliberating the fate of the Adriatic port, American, British and French soldiers with Italians policed the city. The picture shows an American destroyer in the harbor with a group of the U. S. soldiers.

WHITE TRUCKS

The main factors of economy in operating a White Truck are its volume of performance, its low consumption of gasoline and oil, its freedom from repairs. All comparative records of which we have any knowledge point to a much higher percentage of days in active service.

Repairs are minor and infrequent, seldom necessitate a lay up. Where cost records are properly kept, White installations grow.

U. S. TIRES

Are Really Good Tires

The "Nobby" is a big rough husky fellow. The tire they are all talking about.

A great road gripper—a sure enough non-skidder and non-slipper.

Makes easier riding and easier driving. More safety, more comfort—more mileage.

"Nobby is a United States Tire—which means none better. Just right for our roads.
