**WHAT THOUGHTS OCCUR TO YOU?**

When you look in the eyes of a little child, do they gray or brown or blue, see the innocent smile—hear the inspiring voice, what thoughts occur to you? Do you see there a woman, with soul divine, and motherhood's crown on her hair? Or a soldier son, with sword and gun, marching forth to a martial air? Or will lives of others in passing years, by those round chubby hands be defiled? Perhaps world renown and honors crown, for their own, this dear little child.

See they gray or brown or blue, see the shy sweet smile—ponder awhile, what thoughts occur to you? B. M. S. in Oregonian.

### THE FARMER.

**F**ARMER delegates attending the industrial conference at Washington consider themselves apart from the three classes into which the conference is divided, namely, labor, capital and the public. Their evident purpose, the New York World surmises, is to prevent a combination between capital and labor, with public support, which they fear will proceed to rob and plunder the yeoman.

The World infers that in the preamble of 3000 words, setting forth the farmers' idea of economic justice, they have not omitted from their complaints the fact that they are in most cases free from income tax, immune against prosecution for food hoarding and violation of the anti-trust laws and practically exempt from the prohibition amendment, to say nothing of guaranteed prices for crops.

The time when New York City last knew the farmer was prior to the day of the present generation. The World does an injustice to the farmer. He has worked from sunrise to sundown through 365 days a year and has steadfastly been faithful to his duty. The American farmer today is the most reliable producer we have. The eight-hour day and Saturday afternoon off is not his chief factor in life. He does not plant a crop and then stage a strike before harvest. The farmer always comes through and if he did not, affairs would reach a sorry pass.

The one or two automobiles the farmer has he has earned. The price he is receiving today for his product is not his hold-up. Perhaps the three farmer delegates to the Round Table felt they should be a class by themselves. In comparison with the showing of some branches of both capital and labor, the farmer is entitled to class distinction. He deserves to be in a class by himself.

### A SELF MADE MAN.

**I**NDIVIDUALS who take delight in decrying the chances of the man of common birth should take note of the record of Elias Raff, of New York. Mr. Raff, son of a New York City tailor, private in the American army during the war, is opposing Lieut. Col. Theodore Roosevelt for election to the state assembly from the second district. The record of the ex-president's son is more or less known to the general public. Mr. Raff's record reads as follows:

Son of a tailor, he was born in New York, 26 years ago and is single. Since three years old he has lived at Sea Cliff where he attended the grade and high schools. He helped to support the family while attending school by selling papers, delivering special delivery letters and cleaning and pressing clothes. Both in grammar school and as a senior in high school he was president of his class. Mr. Raff worked his way through Syracuse university and law school by washing dishes and waiting on table. He belonged to the debate club, the basketball team and in his junior year coached the freshmen basketball squad.

Following his graduation from the Law School in 1917 he made application to enter the Officers' Training Camp at Madison Barracks, N. Y., but was rejected on account of being less than the height required by army regulations.

While preparing himself to try for the next officers' training camp, the draft act was passed, to which he became subject. He waived his right of exemption, being the sole support of a widowed mother, and became a private in the 305th Infantry, 77th Division, at \$30 a month. He served in France a little more than a year, beginning in the Baccarat sector, then the Oise-Aisne offensive, next the Argonne and finally in the Argonne-Meuse. He was mustered out as a private.

### ABOUT THE STARS

**THE PLANETS**

In former sketches we have told something about the "fixed stars," so called. Let us now examine some objects, right in our back yard, so to speak, the planets.

The Ancients observed seven bodies to which they gave the name of "Planets" the Greek name for wanderers because they moved or wandered about in different places contrary to the fixed stars. In this collection they placed the Sun and the Moon but

### BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, yellow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel? Like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

### Tobacco Habit Dangerous

Says Doctor Connor, formerly of Johns Hopkins hospital, thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and in; the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

### 65 Loganberries

Are used to flavor one Jiffy-Jell dessert. The juice is condensed and sealed in a vial.

This is one of our best fruit flavors. Compare it with the old-style quick gelatine desserts.

**Jiffy-Jell**

omitted the Earth which they held to be the center of the universe around which all planets revolved. In recent times Uranus and Neptune have been discovered and, together with the Earth have been added to the number while the Sun and Moon have been eliminated. Thus at the present time we have eight recognized planets. Given in the order of their respective distances from the Sun they are: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune. In addition there are a large number of minor planets termed "Planetoids" or "Asteroids" which revolve in more or less eccentric orbits between those of Mars and Jupiter. For a time there was a spirited controversy in regard to a body which was claimed to have been discovered between Mercury and the Sun and to which was given the name of Vulcan. It is claimed, however, by subsequent developments that the supposed discovery was only a mistaken identity and, that like "Marjory Daw" there is no Vulcan and there the matter remains at the present time.

### FACT THAT WOMAN HIT WINDOW ACQUITS HER

PITTSBURGH, Oct. 15.—The fact a woman broke a window with a stone is sufficient evidence she was not aiming today a jury decided, discharging Mrs. Sadie Mallingner.

### NOTE DEMANDS SHIPS BE TURNED TO ALLIES

PARIS, Oct. 15.—The supreme council of the peace conference today approved a note to Germany demanding delivery to the allies of German ships sold irregularly during the war to Dutch steamship companies.

### THE PROPER WAY TO TAKE ASPIRIN

First see the tablets you take are marked with the "Bayer Cross."

The Bayer Company, who introduced Aspirin tell in their careful directions in each package of genuine "Bayer Tablets of Aspirin" that to get best results one or two glasses of water should be drunk after taking tablets.

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the world-famous Aspirin, prescribed by physicians for over eighty years.

Each unbroken "Bayer" package contains proper directions for Colds, Headaches, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, and for Pain generally.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell large "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monoaceticacidester of Salicylicacid.

## THE FRANKLIN SEDAN

### Good Looks; Economy; Year 'Round Use

These are the three features of the Franklin Sedan directly responsible for its growing popularity.

One glance at this gracefully designed car makes the point of good looks immediately apparent.

Publicly known facts of Franklin Sedan performance—the consistent delivery of

**18 to 20 miles to the gallon of gasoline—instead of the usual 8.**

**10,000 miles to the set of tires—instead of the usual 5,000.**

—demonstrate its remarkable economy.

And the Franklin Sedan design—comfortably warm for winter running, cool and dustless for summer use—offers year-around usefulness, which is further enhanced by the Franklin Direct Air Cooling System. No water to boil in summer or to freeze in the radiator when cold weather comes.

On rough country roads, or in crowded city streets, the light-weight, flexible Franklin Sedan is as easily handled as a touring car.

A ride in the Franklin Sedan will demonstrate these features.

May we arrange it at your convenience?
