HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Back-achy or have Bladder trouble.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Of Course I'll Take

Celery King

I take it every season and so do mother and the children. It's old fashioned and made of roots and herbs, but it's right there, just the same, and costs next to nothing.

We all think it's the best tonic laxative we ever heard about, and so do other people we have recommended it to. Take it every other night for three weeks, if you want to feel better, sleep better, work better and be better. It purifies the blood, clears the skin and chases away that worn out feeling. Brew a cup tonight just like you make tea. You'll like it.
