### PHYSICIANS HOPE FOR UNRETARDED RECOVERY

### WITHOUT CONTROL, RISE OF SUGAR PRICES IS DECLARED CERTAINTY

WASHINGTON, Oct. 21.—If the sugar supply were taken from control of the government of the world, shortages would be felt and prices would be higher. Dr. Alonzo Taylor today told the senate sub-committee investigating the sugar situation. Taylor is a former member of the war trade board. He said Europeans protesting against government restrictions but Americans are consuming what they please, regardless of the price. The committee is considering a bill to continue the sugar equalization board for a year.

### Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink, taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.
