

DID THE EARTH SWALLOW UP BILLY DANSEY?

BILLY DANSEY

Copyright, Philadelphia Ledger

HAMMONTON, N. J., Oct. 20. — Did the earth open up and swallow little Billy Dansey, the perfect baby? Or was he swallowed up in the tales? A thorough search has been made of the entire countryside, but no trace of the little fellow has been found. "Billy" Dansey is two years and ten months old. An October magazine carried his picture as the "Ideal Registered Baby."

Marigolds, copper and golden toned against the rich maroon hanging of the Thomas Thompson home, yesterday fashioned a charming toil for an autumn bridge-luncheon. Great baskets of the vivid blossoms flanked the five place white in gay little bouquets, they centered nine tables arranged in the attractive living room where guests gathered at 1 o'clock at the bidding of Mrs. Samuel P. Sturgis, Mrs. J. Roy Bailey and Mrs. George A. Hartman. At the conclusion of the luncheon hour, the party adjourned to the dining room and enjoyed a chat over the coffee cups, the table, centered by a cluster of the marigolds, being preside over by Mrs. Charles March and Mrs. William Lowell. Several tubers of bridge filled the afternoon hours and in the play trophies were awarded to Mrs. J. P. Robinson, Mrs. Frederick East and Mrs. Guy L. Boyden.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat less meat if you feel Back-achy or have Bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush teh kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

You're in mighty good company when you belong to the Red Cross.
So long as there's sickness, suffering, disaster, the Red Cross must stand by!
The H. C. of L. hasn't hit Red Cross memberships. They're still a dollar.
If nine million youngsters believe in the Red Cross, it must have the right idea.

Dr. Livingston Farrand, the greatest authority on public health in America, served in France as the head of the fight against tuberculosis. He now succeeds Henry P. Davison as head of the American Red Cross. Dr. Farrand recently visited Seattle, Spokane and Portland and conferred with representatives of Red Cross Chapters of Alaska, Idaho, Oregon and Washington. "The Red Cross faces problems in the post-war period more serious, if possible, than the problems of the war itself. Not a great amount of money, but the membership and hearty co-operation of every American citizen is what is needed to help the Red Cross to solve these problems, which threaten our national vitality, and which, unless solved, will rob us of the fruits of victory," said Dr. Farrand.
"The Red Cross is the Gospel in boots."
