

RAYBURN BUYS LEGROW RANCH ON WESTON MT.

(East Oregonian Special)
WESTON, Mt., Nov. 6.—Weston Mountain land is still on the chance. Saturday W. L. Rayburn bought the P. A. LeGrow ranch of 290 acres adjoining his place on the west. This

gives Mr. Rayburn about 750 acres, one of the largest farms on the mountain.
Mr. Faust moved to Weston Monday for the winter. J. M. Wroe expects to move his family into the Faust house during the bad weather so as to be close to school.
The single school desks have arrived and will soon be placed in the large room. The seats were ordered from Portland.
Tom Coult sold his farm on Baker Mountain to Sam Keys last week. Vern Compton is on the sick list

this week.
Mrs. Lamsdale and son Ralph left for Umanine for the winter Wednesday. Mrs. Lamsdale will attend the church convention at Holton near Spokane for five days next week.
The snow is gone and it has rained for four days. Too wet for potato diggers and they have to be dug with forks. Help is very scarce and it will be a question if some get theirs all dug as there are 25 acres in different fields. W. L. Rayburn, Roy Hyatt, E. Tucker and John Hyatt were the fortunate men to have entirely finished digging and had their crop taken care of.
Herian Henderson writes that he has moved to the Wallawa country and will work in the lumber mills there.

21 DIE AS STEAMER SINKS IN STRONG GALE

MUSKOGON—Only the tops of the stacks and walking beam showing above the water reveal where the Steamer City of Muskogon sank at a pier running a mile out into the lake with the loss of a score of lives, when a 60-mile gale passed over the lake. Last June this boat was disabled in a gale and missing for 36 hours.

"THE MORE GEMS THE MERRIER" IS SLOGAN IN BRITISH CAPITAL

CHICAGO, Nov. 6.—Miss Vivian Purcell, just back from London, told the women of the Chicago Culture club in an impromptu talk something about the latest jewelry styles that are affected in the English capital.
"I was surprised to find that the opal is one of the most fashionable stones," said Miss Purcell. "Most of those worn in London come from Australia and are gorgeous gems. An enormous single opal is used in rings. It is most often set in palladium, as opals look best in white metal. Sometimes it is surrounded with tiny diamonds.
"Single-stone rings of all kinds are the popular fad. Some of the women have the expensive habit of wearing a different stone to match the color of every gown. Large square stones set in narrow bands of gold or platinum are considered very smart—sapphires, emeralds and aquamarines particularly.
"All jewelry is simple. Pendants are no longer a mass of filigree work but often consists of one big beautiful stone in the form of a drop. A fine chain of platinum holding one large diamond is considered one of the most attractive ornaments with a décolleté gown. The diamond sparkle like a ball of fire in a well-lighted room and yet has a charming simple effect.
"Pendants of sapphires set off a beautiful neck to perfection while pearls in all jewelry forms are more extensively worn than ever. The figure is the number of jewels the English women wear. 'The more gems the merrier' seems to be the slogan of the fashionable world."

Lay a bet on rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes* with Prince Albert is just R about as joy'us a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stay; put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

Awaiting your say-so, you'll find happy red bags, fifty red tins, handsome pouch and half pound tin humidor—and that classy, practical pound crystal glass humidor with single moisture top that keeps Prince Albert in such perfect condition!

Too Ill to Work

Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example

Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial."
—Mrs. TIMOTHY GRANEY, 426 Connor Ave., Joplin, Mo.

And Another

Chicago, Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter."
—Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.

Thousands of such Letters Prove the Curative Value of

Lydia E. Pinkham's Vegetable Compound

JAPAN'S PRESTIGE AT STAKE IN CONFERENCE

TOKIO, Nov. 6.—"Japan's prestige and interests are at stake at the Washington labor conference," was Premier Hara's statement at a luncheon today when he entertained Uhei Masumoto and other members of the labor delegation, about to leave for the United States.
The reference made by the Japanese premier to Japan's prestige was taken by many to refer to her commercial ability to undersell America on account of lower production costs through cheaper labor.
"The great covenant under which the forthcoming labor congress will be held, will become an absolute law with the ratification of the peace treaty," the premier said. "The delegates of all countries will, no doubt, bring forward propositions based on conditions in their countries, and there is absolutely no reason for the difference in the conditions of various countries affecting and country in the least."

"In the peace conference at Paris, Japan has been sitting as one of the five great powers and it is a matter of course that the same right and position will be accorded the Japanese delegates to the Washington conference. It will be a matter of course that the delegates for the employers should endeavor to protect their interests and that those of the workers should do the same. It should be borne in mind, however, that in doing so they must not lose sight of the existence of the state.
"Our delegates should remember Japan's prestige and interests which are at stake and at the same time they should try to satisfactorily discharge their mission which is of world wide importance."

REALTY TRANSFERS

DEEDS.

ARE YOUR EYES RIGHT?

The really sensible thing, of course, is to know your EYES. Have them examined by an Optometrist, who is specially trained in Optometric science. Without this professional advice no one can tell whether his or her eye sight is good. Unwillingly you may be seeing only half as well as you might.

The Biggest and Most Interesting LIVESTOCK SHOW Ever Held in the West

Staged in the New \$300,000 Pavilion at North Portland, Oregon

Week of November 17 to 22 Open all Day and Evenings

The Pacific International Livestock Exposition was inaugurated and is supported by leading bankers, business men and breeders of the Pacific Coast—men of vision who see in the Pacific Coast the livestock center of the World.

Pure Bred Stock Dairy Products Horse Show

The staging of this exposition on so huge a scale is a long step toward the accomplishment of this aim and the benefits of its success will be widespread.

Cups, Trophies and \$75,000 in Premiums to be Awarded

Thousands of entries of pure bred stock, many coming from the Middle Western States, necessitated additions to the immense \$300,000 Pavilion.

Hundreds of educational exhibits claim your attention, including the large Western Dairy Products Show with 250 entries and daily lectures by Mr. O. E. Reed of Purdue University and Mr. M. Mortenson of the Iowa State College.

PLAN TO ATTEND THE ENTIRE WEEK.
