### DAINTY ACTRESS IN SCRUB GIRL ROLE

Bessie Barriscale Wins Mop With Much Vigor—and Wears Pretty Gowns Too—in "Henric Asleep."

Beautiful Bessie Barriscale, in "Henric Asleep," her most recent Exhibitors Mutual release, makes a distinct departure from former characterizations for the screen.

It takes a vivid imagination to conceive the dainty and fastidious Bessie as an untidy, gauche and dirty scrub-woman. But this is just what the lovely star is called upon to do. Later in the picture she blossoms out as a society girl, refined and her own beautiful self and wearing some gorgeous clothes.

There is mystery, humor and suspense in this production and some glimpses into the social life of the underworld. Old Mother Hawkins, the "fence" of the crooks, does a high-hand fling for the edification of her guests at a party given in honor of "Gentleman Chi" a master crook. The old lady also exploits some original philosophy to Nancy on her ingratitude in not becoming a pick-pocket.

The play revolves around a subject somewhat similar to Bernard Shaw's "Pygmalion"—ancestry versus environment. A wealthy bachelor, in order to prove his theory that education and culture are more important than blue-blood in the making of a lady or gentleman, adopts a scrub-girl, who lives among crooks, gives her the advantages of schooling and society and passes her off as his niece.

"Gentleman Chi" poses as a real gentleman and is admitted as guest to a select house party where Nancy is also a guest. He appropriates the family jewels, threatening Nancy with exposure if she reveals his identity. How Nancy felled his plans and proved herself a real lady is told in a drama of unusual merit. The production was made under the direction of Howard Hickman by B. B. Features, Inc.

### CHARLES RAY BATS 1000 IN HIS LATEST FILM "THE BUSHER"

To speak in the parlance of baseball, which furnishes the atmosphere of this latest story, Charles Ray bats an average of 1,000 in "The Busher," the new Thomas H. Ince Paramount picture, which will open an engagement at the Alta Theatre today.

The story concerns a youth in a remarkable throwing arm and attracts the attention of a league manager. He is promoted into professional baseball, but suffers a noticeable affliction of inflated chest and falls down on the job. Just when all his home folks are at the game to see his wonderful pitching.

He takes an oath never again to play, but to save his sweetheart's home which is jeopardized by her brother's betting, he goes again to the pitcher's slab and wins the season's "rubber" for his own home town. There is a pretty love story and the picture sparkles with humor throughout.

The situations are novel and refreshing. It will tickle the lovers of the great American game, for there are some subtle bits of diamond satire. It is especially interesting to those who saw Ray in his previous baseball picture, "The Pinch Hitter," in which he turned the tide of events at the bat.

developed in two color. The scarf proper of some soft putty or grey shade and the border of rose, blue, yellow, green or purple and the belt, pockets and fringe finishing the scarf ends of the same tone as the border. In plaid or stripe effects the sweaterette is also smart. As a chic skating garment the sweaterette is particularly so if you want to get a skate on be sure and get a sweaterette on, too.

### POLICEMEN ARE MOVIE ACTORS AFTER DUTIES OF DAY ARE DONE

LOS ANGELES, Nov. 21.—Slapsticks or night sticks? Municipal authorities and labor union officials here are in a quandary.

The Movie Actors' union complains that local day policemen have been "grabbing" on them—playing the parts of cops in screen comedies—working nights.

We need the money, say the blue-coats. Mayor Snyder has been asked to decide whether real cops by day can be real cops at night.

## SWEATERETTE HAS ROMANTIC CAREER

BY MARGARET ROHE (Written for the United Press.) Sweet in her sweaterette is Sue today. Jack Frost can't get her yet—Dan Cupid may.

NEW YORK, Nov. 21.—When is a sweater not a sweater? The answer is the same as to the query, "when is a scarf not a scarf?" Of course everybody knows that that in when it's a sweaterette and there you are or rather there it is. It's all beautifully clear and simple provided you know just what a sweaterette is, but that's a long story—in fact quite a sentimental romance.

You see last season when sweaters were beginning to get a bit passe from lang and constant wear and were trying all sorts of things to keep themselves smart and up-to-date such as resorting to rippy ruffles around their waists and elbow sleeves and reducing themselves to mere skeletons of flit mesh a dashing young Scotch scarf just back from over seas with a military flyer fell desperately in love with a pink and white Iceland wool sweater and proposed matrimony.

Realizing that her career as a pampered pet of fashion was becoming a bit precarious and that Hymen and the Scotch scarf offered a comfortable and happy solution, she pinkly cowed she was willing, "only of course she pronounced it "woolen," and fell into his soft embrace. They were married next day and in the due course of events they had the darlingest little garment you ever saw. It had its father's long graceful scarf-like lines and its mother's snug form-fitting guide and handy pockets set in the front ends of the scarf. Yet with all their best features it still had a complete and original individuality of its own.

In Shetland wool, brushed or unbrushed, Angora or just plain every day yarns the sweaterette is snug and practical and stunning especially when
