

DAILY EAST OREGONIAN, PENDLETON, OREGON, FRIDAY, NOVEMBER 21, 1919.

11 I. W. W. ARRAIGNED AT CHEHALIS, GIVEN 36 HOURS TO PLEAD

Centralia Murder Prisoners and Ole Hanson and Joe Davis, Still at Large, Represented by no Attorney.

CENTRALIA, Wash., Nov. 21.—Eleven alleged Industrial Workers of the World, charged with first-degree murder in connection with the Armistice day shooting here yesterday were arraigned before Superior Judge W. A. Reynolds at Chehalis, the county seat, and given 36 hours in which to plead. In addition to the 11, two other alleged radicals, Ole Hanson and John Doe Davis, are numbered among the defendants. Hanson and Davis, still at large are being pursued by deputy sheriffs from here. The two, it is believed are hiding in the hills not far from Centralia.

officially, with the murder of Lieutenant Warren O. Grimm, one of the four American soldiers killed when alleged I. W. W. fired upon the Armistice day parade.

No attorney represented the prisoners today. The defendants will not be able to retain any Lewis county lawyers as the local county bar association has passed resolutions barring any of its members from taking part in the defense of the alleged radicals.

Word has been expected from three Centralia men who, at last reports, were on Hanson's trail. One report received from the posse said it was thought they had him surrounded in a thicket of woods near Rochester, Wash., where Bert Bland, another of the defendants was captured Tuesday.

RESTRICTIONS ON WOOD, COAL LACK PRECIPITATE CRISIS AT BONNEVILLE

Forest Service Refuses to Permit Cutting of Timber and Employes of Hatchery Demand Fuel for Homes.

With the refusal of the forest service to permit the cutting of fuel wood on the Eagle Creek reserve and the inability to obtain coal which has been ordered, the Bonneville fish hatchery is facing a critical situation, according to a message sent to the state fish and game commission headquarters by R. E. Clanton, superintendent of hatcheries in Oregon.

Employees of the hatchery have threatened to quit unless an adequate fuel supply is provided for their homes and Clanton asserts that any sudden cold spell would do a great amount of damage to eggs being hatched and to baby fish. The railroad has been urged to hurry the release of the car of coal ordered by the Bonneville authorities.

EXPEDITION TO STUDY AND AID ABORIGINES

ADELAIDE, South Australia, Nov. 20.—Data shedding light upon many difficult ethnological and sociological questions is expected to result from the proposed scientific expedition into the heart of Australia with the purpose of studying the aborigines and rendering them such aid as found necessary.

The aborigine population of Australia is one of the few more easily available sources for the collection of material dealing with primitive social organization and religious beliefs.

South Australia, as the central state of the commonwealth, is to share the greater part of the expenses involved in the investigations. Dr. Herbert Basedow noted scientist, has been elected to head the expedition. He will have three trained assistants. Through medical and anthropological examinations will be made of the tribes in the northwestern corner of South Australia, especially in the Mt. Ragged ranges. The itinerary will cover an immense area, stretching from the Queensland border to the Fowler's Bay and Western Australian border districts.

Members of the expedition will also chart the country which geographically is not yet thoroughly known. The question of setting apart native reserves—the chief of which would be in the northwestern corner of South Australia—will also be considered in the light of the results of the investigation, which it is expected, will last several years.

MERRIMAKERS IN TOKIO HORRIFIED WHEN THREE TRAM CARS RUN AMUCK

TOKIO, Nov. 21.—The dense mass of merry-makers at the Nichiren festival at Omori was suddenly changed into a horrified throng when three electric tramcars dashed into its midst. Ten persons were killed and others were seriously hurt.

The motorman and conductor of the train are being held on manslaughter charges.

The festival attracted unusually large numbers due to prosperity in the Omori district.

KLAMATH IRRIGATION CALLS FOR \$175,000

KLAMATH FALLS, Nov. 21.—Request for authorization of expenditure of \$175,000 next year in improvement of the Klamath irrigation district was presented to the directors of the district. Fifty thousand dollars would be spent to line with concrete the south branch flume, \$48,000 for replacement of the Henley flume, \$29,000 for replacement of the Adams flume, and \$25,000 for finishing drainage work now under construction.

The directors will submit the question to the voters of the district at the annual election in January.

The reclamation service proposes that the first item of \$50,000 be charged to operation and maintenance and repaid in form of annual installments, beginning with the 1920 levy. The balance would be charged to supplemental construction and repair, after the present 20 year construction charges have been paid off.

Somewhat Perturbed.
"What's the problem?"
"A perplexing one. Mrs. Skiddoo claims she got six bad eggs in the last lot."
"Well?"
"She wants me to make 'em good."

THIRTY WOMEN OFF TO STUDY ORIENT MISSIONS

SAN FRANCISCO, Calif., Nov. 21.—The second deputation of thirty prominent American women, including two college presidents in addition to several social workers, women physicians and religious leaders, sailed from here this week on the Tenyo Maru for Yokohama where it will join the first deputation that sailed from Vancouver on October 20.

The women will divide themselves into several commissions at Yokohama to go to various sections of the Orient to make an exhaustive study of every problem in the mission field from standardization of women's universities and schools and prevention of tuberculosis to adaptation of American hymns to Chinese ten-tems and the problem of putting healthy contemporary American novels in the Japanese "best seller" class.
