re new being sown. America's ex-Germanz as one Germany ought to follow with respect to intoxicating

Inquor. And while Germany so far hasn't any campaign against alcohol such as England is now experiencing, there are distinct signs that the thoughtful men of the nution are beginning to realize that "schnapps" could disap-pear from Germany advantageously from a standpoint of food conserva-tion, health and finances. True, this thought is slow in per-

True, this thought is slow in per-1860,000. The officers are R. H. Harr.

True, this incognit is slow in per-colating. But it is significant that re-cently a prohibition convention was beld hers. And just now in the maga-zine "Die Glocke," a serious paper dealing with social subjects, appears an article strongly urging the nation to follow America's example. Seriol Context and the maga-series of the strongly urging the nation to follow America's example.

"The procedure of the rich and powerful United States of America in school equipment free this year to all primary, schools. instituting prohibition," wrote Dr. Ernst Neumann, "which one here now

no longer passes over with a smile or a stupid joke, should give us food for thought.'

The pre-war expenditure of Germany for beer, brandy and wine amounted to 3.510,000,000 marks a year according to Neuman's figures. This amount has been altered by war-

time regulations reducing the consumption of alcoholic beverages, but still the liquor business, Neumann adds, "takes millions of centners of grapes, fruit, grain and potatoes which could be employed for nutrition pur

He called on all political parties to make prohibition an issue inasmuch as this would relieve the food situation, help Germany in paying her war debts and assist materially in recondebts and assist materially in recon-structing the country mentally, moral-ly and physically. If mild beer were permitted, he said he believed a com-plete prohibition on strong drinks would he overwhelmingly adopted. "Such adoption," he concluded. "would show all the world that we do not merale talk serves the but con also ***********************

to the troops"over there" -more than all other brands combined.

Before the War and Now

THIS is just what you need, madam. Many women who were troubled with indigestion, a sallow, muddy skin, indicating biliousness and habitual constipation, have been permanently cured by the use of Chamberlain's Tablets. Before using these tablets they felt miserable and despondent. Now they are cheerful and happy and relish their meals. Try them. They only cost a quarter. .

Pape's!

WHEN seeking a car that you intend to keep on the road twelve months of the year, hold these facts before you:

The Frauklin Sedan owner is an experienced motorist.

He has had intimate knowledge of other fine cars.

And based on that knowledge, he deliberately chooses the Franklin Sedan for all-year use.

The reasons he tells us for this choice, are the reasons back of every sale we make of a Franklin Sedan:

It is lighter and more re-silient than the average fine touring car. These features make it practical for all kinds of touring anywhere-and at any time.

Takes Roads as They Come

Its scientific light weight (every experienced motorist knows Franklin scientific light weight) goes over rough roads with the ease, the freedom from shock and strain, that protects you and the car; makes hills with the same ability as a touring car; and tives you a speed, for the

day's run, that won't make you apologize for your car. Touring Comfort Above the Ordinary

In summer, for instance, when touring is regarded as a , pleasure in a touring car, it actually is a pleasure in the Franklin Sedan. You feel as fresh and cool at the end of the tour as at the start. The dust and dirt, the sun glare and sunburn, the rain and the storm are outside your car. storm are outside your car.

The V-front, with four adjustable sections, lets in what you want, and shuts out what you don't want - just like ven-tilating your own home.

If you are anxious to learn about a new touring comfort, come to our show rooms and examine this car.
