Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for a week.
Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.
A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges or whose skin is sallow or pallid, that one week of inside bathing will have them looking and feeling better every way.

Protect Your Investment

Motor trucks are an investment. Rightly used, they should earn dividends large enough and long enough to write themselves off the books and then make clear profit.
The purchaser of the WHITE backs his investment in it with strength of the WHITE COMPANY, with its years of successful experience, with its thousands of trained employes, with its tens of thousands of trucks in active service, with its millions of capital, and a serving organization, nation-wide, which has no parallel in the industry.
