The deadlock in Washington promises to continue indefinitely unless the people declare overwhelmingly and unmistakably in favor of a compromise. They must go further than this and indicate the kind of compromise the League is Enforce Peace.

Don't go too close to a stove or radiator with a frozen nose, tee, ear or finger, say local physicians. The best remedy for a frozen member is to rub it vigorously with snow. After the frostbite is thawed out, bathing with warm witch hazel will take out the sting. It is said that after a part of the body has once been frozen, that part becomes most susceptible to cold and is tiable to freeze again. Stanley Jewett said this morning that after freezing his face one winter in Lake county, he felt the effects for 10 years

THE PEACE TREATY BALLOT

Following the armistice, the representatives of 28 nations, including our own, drew up and signed at Paris a peace treaty with Germany, Part 1 being the League of Nations Covenant. This was also signed under compulsion by Germany.
