PARAPHERNALIA USED BY MOONSHINERS IN MAKING "GASOLINE WHISKY"

Many a downtrodden drinking man has muttered after gulping down what is now surreptitiously sold as whisky: "That stuff must have been made out of gasoline." As a matter of fact some of the more enterprising moonshiners have been using the stuff that makes autos and airplanes go in producing a brand of "hooch" that puts a kick into a human's cylinder. This was discovered recently by federal agents who made a raid on New York moonshiners. This photograph shows the agents examining paraphernalia seized in the raid.

A young married couple by their frugal habits accumulated a nice Savings Account and with it managed to buy a small business in Pendleton. It is not now difficult for them to be thrifty, it simply comes natural. They paid for Liberty Bonds, Thrift Stamps, assisted in all patriotic moves and are making regular deposits on another Savings Account. Moreover, they are helping out a brother whom they wish to see develop into a good, thrifty man. Such people are the bulwark of a nation.

UNION-PACIFIC WILL ELIMINATE POSITION OF TRAFFIC MANAGER

PORTLAND, Dec. 19.—Semi-official announcement was made at the offices of the O. W. R. & N. Wednesday that Union Pacific officials have decided to eliminate the office of traffic manager on the O-W. when the railroads are returned to private management.

Termination of government operation will permit Frank W. Robinson, present traffic manager for the local unit of the Union Pacific system, to accept the position of freight traffic manager for the system at Omaha. A successor has not been named and it is stated on good authority that the office will not be filled.
 H. E. Lounsbury, general freight agent, and William McMurray, general passenger agent, would divide responsibility for traffic for this district under such a plan. All larger traffic problems would be referred to the system officials.
