"The Big Stick"

Loyal patronage of home industries and home products is the "Big Stick" that will bring down the "high cost of living." First—Because the goods made at home are in almost every case of better quality than the "imported" brand, being sold for the same or less money, and second—because the money spent for home made goods stays at home and works for the benefit of home people.

The buyer not only receives a direct benefit by being able to secure a better article, at a lower price, but he is indirectly benefited by keeping at home the money he spends. Money we spend at home stays at home and gets back in our own pockets.

It is a little thing to do to ask for a home made article, to support your home industries, but it means big things to the city we are all trying to boost. Half interest, a divided purpose are not enough. Every person, every firm must have as its single and centered object the up-build-
ing of this city.

Ask your dealer what he has to offer in the line of home products. Insist that you get home made goods and tell your neighbor to do the same thing.

Mr. Livestock Man:

The quality of livestock in Umatilla county has im-
proved wonderfully in the last two years. Is your herd
one of those that have been improved?

We have just received a few choice Black Poll An-
gelus Bulls and Short Horn Heifers that we bought on or-
ders. Call and look them over. We are prepared to ob-
tain for you anything in the pure breed livestock line.

We are offering a few Short Horn Bulls and Herford
Heifers for sale that you would be proud to own. Their
quality is exceptionally good.
