The Way to Buy a Motor Truck

HOW LONG HAS THE TRUCK RUN? WHO ARE ITS OWNERS? WHAT ARE ITS SERVICE FACILITIES?

WHAT IS ITS RECORD? WHO IS ITS MAKER? WHAT IS HIS OUTPUT?

The above factors are important: they determine the kind and cost of transportation service an owner gets—and that is after all the only thing worth buying. Because of these factors WHITE TRUCKS have a high earning power and are in greater demand than trucks of any other make.

COLLEGE CAMPAIGNERS WATCH HARVARD DRIVE

BOSTON, Jan. 7.—Educational institutions all over the country are watching intently the outcome of Harvard's drive for a \$15,000,000 endowment fund as the first of a long series of similar campaigns planned by colleges and universities in practically every state.

Just how far Harvard's alumni and friends are willing to go for the Cambridge school will be a good indication of the extent alumni of other schools will really "round their alma mater when it calls for money, it was stated here today by a university official in touch with the situation.

If the endowed universities are successful in their drives, many state universities of the west and middlewest will approach their legislatures with requests for appropriations that will equal the big funds sought in the east, according to one of the Harvard campaigners who came back today from a western tour.

Princeton has entered a campaign for \$14,000,000; Cornell wants \$5,000,000; Bryn Mawr has asked for a million, while Smith has likewise announced a campaign. Dozens of smaller colleges have been in drives for funds ranging from \$500,000 to \$2,

000,000 for a year or more. Some have had a fair degree of success, while others have been forced to wait "until things are better."

Workers reporting here today said that every Harvard graduate approached has given something, and that the average of generosity has been large in comparison with incomes. Both in New York and Boston almost 100 per cent results have been obtained, it was stated.

IRRIGATION MEETING TO EMBRACE ALL NORTHWEST

SPOKANE, Wash., Jan. 6.—The annual convention of the Washington Irrigation Institute on the cards at Spokane for January 8 and 9 is of special interest this year because its scope has been enlarged to embrace the entire Pacific Northwest. Western history is in the making at this juncture from an irrigation standpoint. Upon the attitude of the federal government the future of the west hinges and it is believed too much influence cannot be brought to bear if the government is to be impressed with its duty in regard to the undeveloped areas that only require water to make them gardens. The state irrigation commission has therefore asked the whole country to join hands in the formulation of plans. Notable speakers are included in the program for the two day session and special efforts will be made to have every irrigation district well represented.

PLAN TAPPING TOUCHET TO IRRIGATE VALLEY

SPOKANE, Jan. 7.—On undertaking to irrigate 72,000 acres of land in the Prescott section with water from Touchet river to be diverted at Hottel has been launched. The cost is placed

at two million dollars, to be financed by the formation of irrigation districts. Land to be watered is classified as semi-arid and cost of irrigation is placed at \$20 per acre for Touchet valley sections and a higher figure for the lower flats.

Colds Cause Headaches and Pains Everish Headaches and Body Pains caused from a cold are soon relieved by taking LAXATIVE BROMO QUININE Tablets. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 20c.

INCOME TAX POINTS

One of my clients has just received a check from the Treasury Department for \$1,300, as a refund of Income Taxes paid. This was more than half the amount originally paid. He was advised at the time of making his return that it was correct. How many others have GIVEN the Government money? Why not have it done right in the first place? Do it now.

CECIL COSPER, Income Tax Adviser, Smith-Crawford Bldg.
