## Farm Bookkeeping

"Golden time" bookkeeper cut notches in sticks. This was improved later by the use of chalk and boards. The expression "chalking it down" is derived from that old system of accounting. Bookkeeping of today is revolutionized. Fundamentally bookkeeping is simply a matter of recording business facts.

This bank furnishes free Record Books, devised to meet the requirements of farmers. Call, write or phone for one.

### J. C. Penney Co., A Nationwide Institution

We of the J. C. Penney Company have an unusually forceful message to convey to the people in every town where we have a store.

## We Sell for Cash We Sell at One Price to All

We operate our business economically by having no credit accounts, thus no losses, having no collectors and no delivery system.

We can easily SELL AT VERY LOW PRICES because of those facts and also for the reasons that:

- We buy for cash.
- We buy direct from manufacturers.
- We buy in especially large quantities.
- We eliminate middle men's profits almost entirely.
- We are content with small profits. Incidentally we do not buy "seconds" nor "bankrupt stocks." We do not have sales, because our prices are marked at the very lowest figure when the goods are first offered to the people. Every article sold by us must give satisfaction and quick and willing adjustments will always be made to please our customers.
