

DAILY EAST OREGONIAN, PENDLETON, OREGON, TUESDAY, JANUARY 13, 1920.

BANK OF ECHO WILL CONSTRUCT MODERN DOUBLE STORY HOME

Directors Decide to Hurry
Building Adjoining Present
Site Which Will Include Big
Vault and Safety Deposit

ECHO, Jan. 13.—A two story bank building of imposing appearance will house the Bank of Echo as soon as it can be constructed. This was decided at a meeting of the directors of the bank. The building is to be started just as soon as the weather conditions permit, and no time will be lost completing it.

White compressed brick is to be used as material for the new bank. It will be two stories in height, and will be on the corner lot adjoining the

present bank building. Dimensions of the building will be 20 feet fronting on Main street, by 50 feet depth. Ground floor plans call for every improvement that the architect can devise for the convenience of the employees of the bank and for its patrons. A large vault, with safety deposit room, is included. On the second floor will be four large office rooms. Entrance to the upper floor will be from the side street.

Joseph Cunha, J. B. Saylor and R. B. Stanfield have been named as a committee by the directors to proceed at once with the plans and make arrangements for hastening the work. Mr. Stanfield says he expects construction to be under way not later than March 1.

SIX RUSSIAN BRIDES ACCOMPANY AMERICAN TROOPS FROM SIBERIA

SAN FRANCISCO, Jan. 13.—One thousand American soldiers, the last of the A. E. F. forces in Siberia, are home today, having arrived on the transport Logan. Their places have been taken by regular forces. Ten Russian brides accompanied six of the American soldiers and four British.

ARRIVAL OF SHIPMENT FROM CUBA WILL ROU HIGH PRICE OF SUGAR

Cane Supply, Expected to
Reach Here Early in Febru-
ary is Slated to Fall to \$9 to
\$10 to Consumer.

SAN FRANCISCO, Jan. 13.—A drop in the record price of sugar now being quoted is expected by local sugar brokers and refiners as soon as the heavy Cuban crop begins arriving in quantity next month and as soon as the heavier shipments from Honolulu begin, also in February.

The latest quotation on cane Cuban sugar in New York is given at 23 1/2 a hundred, less 2 per cent. This would make the sugar cost the average consumer in a seaboard city 15 cents a pound. Inland consumers would have to add the freight.

Compared to this high price for cane sugar of the new crop, beet sugar was quoted today at local wholesale houses at \$11 net.

The price of cane sugar is expected to begin tumbling during the next four weeks and to continue to drop until it is down to \$9 or \$10, which will make it about 12 cents to the consumer.

The first Hawaiian sugar has arrived here, but the heavy movement will not begin until next month. Sugar brokers said today that the government will make no effort to establish a sugar price when the McNary sugar control bill takes effect January 15. They look to see government agents bend their energies more to prevent profiteering. Secretary Tumulty has already issued a statement saying it is improbable that the president will exercise the discretion given him to buy Cuban sugar, as "it might be impossible for the government to step in now and purchase the sugar without increasing the price to the consumer."

Local sugar brokers estimate that the president's refusal to buy sugar at 6 1/2 cents from Cuba in 1919 cost the American consumers approximately \$250,000,000.

TWO PENDLETON GIRLS WIN HONOR IN O. A. C. PHYSICAL EDUCATION

OREGON AGRICULTURAL COLLEGE, Corvallis, Jan. 13.—Leta Agee and Alta Mentzer are two former Pendleton girls who are included in the list of charter members of the Delta Psi Kappa, women's honorary physical education fraternity which has recently granted a charter to the Women's Varsity O. club. Both Miss Agee and Miss Mentzer are letter women in basket ball and are out for practice on the varsity team this year. It is hoped to arrange a basket ball game with the women of the University of Oregon, Willamette University, Reed college, Pacific University and Monmouth Normal.

An amendment to the constitution of the student body provides for the granting of orange O's to women who participate in intercollegiate contests or are recommended by the faculty of the department of physical education as deserving of such recognition. This provision helps the women's athletics at the college since it offers some inducement to the women to work for intercollegiate sports.

INTRODUCED AT 9; MARRIED AT 2:15; SEPARATED AT 3:34

SAN FRANCISCO, Jan. 13.—In an answer filed in the superior court yesterday, Ann M. Rogers, New York salesman, sets forth his willingness that Leah M. Meheey of Long Beach should be granted an annulment of their marriage and sets forth a schedule of houses and dates which, he states, should prove her case for her.

The courtship, marriage and separation all occurred upon July 24 last, according to Rogers. This is the schedule of that day, as set forth in his answer:

- 9 a. m.—Introduced.
- 10 a. m.—Completely in love.
- 11:20 a. m.—Proposes.
- 11:31 a. m.—Accepted.
- 12:15 p. m.—Arrive in Los Angeles from Long Beach to get license.
- 1 p. m.—Gets license.
- 2:15 p. m.—Marriage ceremony.
- 3:20 p. m.—Arrive at home of the bride's parents in Long Beach.
- 3:34 p. m.—Informed by bride that her parents object to marriage and she can never live with him.
- 3:40 p. m.—Bridalroom on train leaving Long Beach.

CELLULOID SHOE TIP IGNITED AS WOMAN PUTS FOOT IN OVEN

SPOKANE, Jan. 13.—Because the cap on the tip of her shoe was made of celluloid instead of leather, as she supposed, Mrs. Anton W. Ralph, 532 Leroy avenue, wife of a Great Northern shop employe, was painfully burned about her right foot yesterday. Mrs. Ralph placed her feet in the oven of the cookstove to set them warm and the celluloid became ignited. Before she could unlace the shoe the blaze had burned through the thin inside layer of leather.

Mrs. Ralph afterward stated that she was unaware that celluloid had been used in the shoe or she would have taken it off before trying to warm her feet.

Sometimes marriage is a failure and sometimes it is only a run on the bank.

Bleeding Gums Are Dangerous

GUMS that bleed easily when the teeth are brushed or a toothpick is used are a sign of pyorrhea, and pyorrhea is a very dangerous disease. It eats under the gums along the tooth roots, sets up inflammation and causes a poisonous pus to form. Some of this pus is absorbed in the blood, and is the direct cause of rheumatism, lumbago, neuralgia, liver, heart, kidney and blood diseases. Some of the pus is swallowed with food, and leads to serious stomach and digestive disorders.

DR. PAINLESS PARKER

Pyorrhea, if neglected, causes the teeth to become loose and eventually they are lost. Very many people have pyorrhea—probably 70 out of every 100. It is a disease that can be largely controlled and sometimes cured.

Registered Dentists using the E. R. Parker System treat many cases of pyorrhea, and have much success in controlling it. If your gums are not firm and healthy, if they bleed easily and have a bluish red color, and you are not feeling very well, you are invited to call at any of the offices using the E. R. Parker System and have your teeth examined free. It is high time to look after both your teeth and your health.

BREMERTON HOLDS TITLE FOR GREATEST DRY DOCK

SEATTLE, Jan. 13.—A month ago Germany boasted of the largest drydock in the world. But Bremerton, Washington, now has that distinction. A giant shipbuilding drydock, the largest structure of its kind, has been dedicated at the naval station at Bremerton, on Puget Sound.

Launching of the United States ammunition ships Pyro and Nitro, constructed in the dock, and the largest ever built in this yard, followed the dedicatory exercises. The great dock is 350 feet long, 130 feet wide and 20 feet deep.

AMERICA WILL EXACT PUNISHMENT OF MEXICO

WASHINGTON, Jan. 13.—Directions that Mexico be requested to adopt "most energetic measures" to punish the murderer of James Wallace, an American oilworker killed by a Carrandista soldier in the Tampico district November 24, have been sent to the American embassy at Mexico City, the state department announced.

MEXICANS SLAY NOTED AMERICAN WAR HERO

LOS ANGELES, Jan. 13.—Albert "Gunner" Depew, noted war hero, is dead at Tucson, Ariz., the victim of Mexican bandits, according to a telegram received here Saturday. Depew was attacked by Mexicans after he left Tucson alone on a prospecting expedition. His body was found when an attempt was made to verify a report that an American, single handed, had beaten a party of Mexicans in a terrific fight. All evidence indicated that Depew had fought hard against heavy odds. His body was riddled with bullets.

UNSUPPLIED TONNAGE MOUNTS IN DECEMBER

NEW YORK, Jan. 13.—Unfilled tonnage of the United States Steel corporation totaled \$265,366 on December 31, it was announced. This is an increase of 1,137,934 tons over the November 30 figures.

Nature leaves a lot of work for the dressmaker to finish.

WHEAT ON THIS RANCH SOLD
FOR \$3.06 BU. JANUARY 8, 1920

Lease For Sale

Situated Northeast of La Crosse, in Whitman County,
Washington, in a Good District.

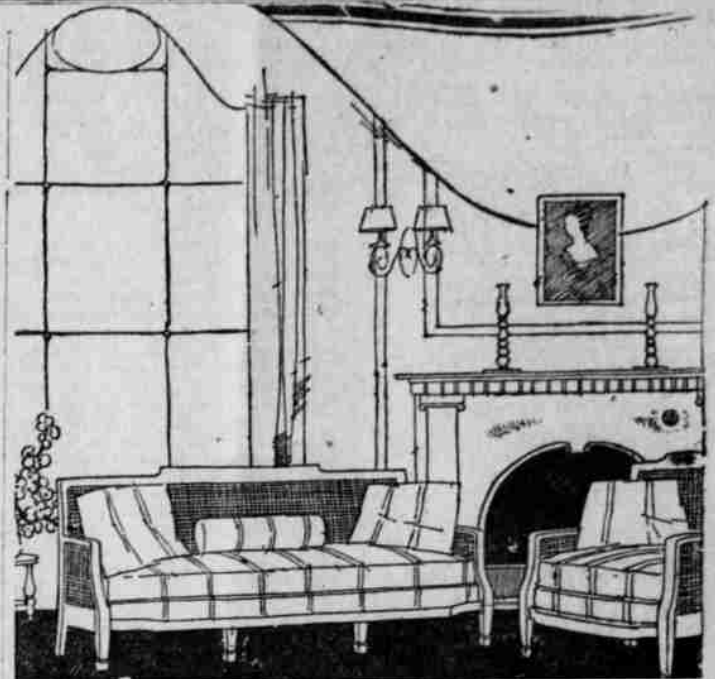

1120 acres under plow, 145 acres summerfallow, 300 acres fall plowed, 60 acres seeded, balance in stubble.

Why the Hot Spot Maxwell

is two years ahead of the times. In the Maxwell engine the exhaust gases from cylinders 2 and 3 play like a blow torch on the hot spot. The incoming fuel striking this hot spot directly is converted into fine dry gas, passing on through the easy curves of the Rams Horn manifold in an equal distance to all inlet valves an absolutely even charge is delivered to all cylinders.

Maxwell cars will raise in price the 15th of January. Better buy before the raise.
