Anyone knowing of his whereabouts or any other information about him is asked to communicate with the chief.

MARINE EMBLEM IS CHARM IN TURKEY

CONSTANTINOPLE, Jan. 21.—The uniform and the globe, eagle and anchor emblem of the United States Marine Corps is a charm in the streets of Constantinople.

During all the time the U. S. S. Galveston has been stationed here not a single marine has been attacked in the streets, although they are sometimes ashore late at night.

So far the marines have been uniformly correct in their behavior, and their officers ascribe their immunity from molestation to their reputation as fighters and the "huskiness" of the detachment from the "Galveston."

STORE JOINS HOUSEWIVES IN BOYCOTT ON POTATOES

SAN FRANCISCO, Jan. 21.—"Boycott on Potatoes." This sign was hung out Monday in front of a produce market at California and Divisadero streets. The firm has decided to join the housewives' league in boycotting tubers at present prices by refusing to handle them until the commission men lower the price, and others are expected to follow.

George Shima, the Japanese potato king, is charged by members of the housewives' league as being responsible for the present hair-raising price of potatoes. "Spuds" now are retailing at four pounds for 25 cents.

This price, the housewives say, is unjustifiable. They have been looking into the cost of potato production

and find that while the cost increased 67 per cent in 1919 over that in 1915, a normal year, the farm returns to Shima were increased more than 750 per cent.

Shima, who has been in California 20 years, is credited with being many times a millionaire. He is said to have made much more in land dealings in Oregon and California than in potato production. There is no question, however, that he controls the market, and fixes the price, now abnormally high. Shima is said to have had two bad years—1917 and 1918—due to partial crop failures; now, with a good yield, he will make more money out of potatoes than ever before.

Unusual Value—In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3-, 30x3½- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind. Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$20.00
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$3.90
