Excavation Completed.
Excavation for the basement of the Security Apartments was completed today after 10 days' work. It is probable that workers will start tomorrow on construction of forms for the foundation. The excavation was not as extensive as that for the Elks temple as the main floor of the apartment building will be three feet above the sidewalk and windows on the main floor will be higher than the vision of passersby on the street.

Will Hold Quarterly Meetings
The Umatilla County Red Cross will hereafter hold directors meetings quarterly instead of monthly. It was decided yesterday at a meeting of directors held in the federal building. Only the local members of the board were present, owing to the health situation in other towns of the county, and only routine business was transacted. Should meetings be necessary between regular quarterly meetings, the directors will be assembled at the call of the president.

Pendleton's fourth carload of government tomatoes are expected momentarily and will be distributed to the buyers probably before the end of this week. The car was ordered from Portland after farmers and local people had placed sufficient orders to insure the car's being completely sold. The car left Portland on Monday but is thought to have been delayed because of the trouble on the main line early this week.

Horticulture Expert Visits.
H. H. Weatherspoon, horticulture expert for Eastern Oregon, says that while the fruit trees in this county have suffered because of the cold weather, they are not damaged more than those in other parts of the state. Mr. Weatherspoon advises that fruit growers make a careful examination of the trees, especially at the snow line. He suggests that a board be leaned against the tree or a sack tied around the trunk to keep the sun from reaching the tree. The sunshine is very injurious to a frosted tree, as it causes the cambium bark to dry up

JAPANESE NEGOTIATE OVER SHANTUNG TRADE

TOKIO, Jan. 22.—The foreign office in a statement says today that Japan acquired the German rights and interests in Shantung by virtue of the terms of peace, but that in pursuance of its own repeated declarations and agreements Japan has instructed its minister at Peking to make overtures to the Chinese government as follows:

1. The Japanese government desires to open negotiations regarding the retrocession of Kuan Chow bay and other measures with the view of effecting a sincere and speedy settlement and hopes that the Chinese government will make necessary preparations.
2. With regard to troops along the Shantung railway, Japan intends to withdraw them as soon as possible, even before reaching an agreement with China, unless the absence of other railway guards affects the security of communications and the interests both of Japan and China, her partner, in which case the Japanese will garrison the railway until the Chinese government has organized a railway police force. Since, however, Japan desires to withdraw even before a Japan-Chinese agreement has been reached, Japan hopes for the earliest organization of Chinese railway police.
