Prosecution Calls First for 150 Jointly Indicted But Defense is Expected to Demand Separate Action.

1000 REDS LOADED IN BOX CARS AFTER STRIKE

Posse Herds Agitators to Train When They Retard Copper Production at Entrance of America in War.

TOMBSTONE, Feb. 2.—Doubt whether the Bisbee deportation cases would go to trial was cleared here today when the prosecution announced that witnesses were ready and that it would call first the case of 150 defendants jointly indicted. The remaining 21 were indicted separately.

The defense is expected to ask separate trials for each person named in the joint indictment. Under the Arizona law separate trials must be granted if they are demanded. Such a demand will mean hundreds of trials at great expense. It is expected two weeks will be required to select a jury. Some doubt is expressed if it will be possible to get a jury at all.

Authorities will search everyone, including the defendants, for weapons before they are allowed to enter the courtroom. The atmosphere here today is tense, but everything is quiet and orderly.

The trial has boomed Tombstone. Every room is taken. Movies announced they will show different pictures nightly, instead of changing the programs twice a week. The maximum penalty under the charge of kidnaping, under which charge the indictments were returned, is imprisonment of one to ten years or a fine of from \$2000 to \$10,000, or both.

Approximately 200 Arizonans, many of them prominent as state politicians, merchants, mine owners, bankers and leading citizens, were to go to trial on charges of kidnaping, the aftermath of the so-called "deportation" of more than 1,000 alleged members of the I. W. W. from Bisbee, Ariz., July 12, 1917.

The action will be the largest criminal prosecution ever held in this part of the country. The defendants were formally arraigned here January 21. The Bisbee deportations attracted wide attention. A strike of miners in the Bisbee district was blamed on I. W. W. agitators. Coming as it did at the beginning of the United States participation in the war and seriously threatening to retard copper production, at that time so necessary to munition making, it infuriated those opposed to the I. W. W.

On the morning of July 12 a posse of about 1,000 men herded the alleged agitators near the Bisbee railroad station, loaded them into box cars and sent the train Columbus, N. Mex. At Columbus the men were taken in charge by officials of the government.

THIRTY SIX I. W. W. AT TACOMA FOUND GUILTY

TACOMA, Feb. 2.—Thirty-six I. W. W. tried here last week for criminal syndicalism, were found guilty by a jury of six men and six women at 11 o'clock Sunday night. The jury was out 23 hours. The jury recommended clemency, declaring the I. W. W. organization, rather than the defendants themselves, was on trial.

Conviction of the 36 Reds under the state syndicalism law affects the largest number of I. W. W. brought to trial in one case in Washington. "This verdict means I. W. W.ism is jammed in Pierce county for all time," declared Prosecuting Attorney Askren. "It is the best verdict ever rendered in the court of this county."
