Money Investments

There is always more or less literature, coming from various promoters, which makes light of the interest returns paid by banks. It further elaborates on the enormous profits certain investors in similar securities such as they offer, have made. And, presumably for humanity's sake, they want you to get in on the ground-floor, so you can make a fortune. How many of your neighbors or friends do you know who ever got their money back from such investments? And, when you want to buy a home of your own, start a little business, buy some land, take a vacation trip, pay for an education, and all that, you safely bank on your Savings Account, don't you? Open and keep-up one of your own.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's An Old-time Recipe That Anybody Can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at and drug store for a bottle of "Wych's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

THREE HUNDRED MILLIONS-LENT FARMERS BY U. S.

WASHINGTON, Feb. 2.—In the annual report of the Federal Farm Loan Board it is shown that loans to farmers aggregating \$238,124,000 have been made since the creation of this banking system. In the last twelve months the loans have been double those made during the previous years.

The report states that the board is discouraging the lending of the bank's funds for speculation in agricultural tracts, to prevent excessive appreciation of farming land. With this idea in mind the board is limiting loans to \$100 an acre on lands selling at from \$250 to \$350 an acre. Farm loan banks are instructed to decline favorable action on loans for speculative purposes unless the funds of the banks and their bond holders are amply protected.

The department is furnishing hay and other forage. Loss of many of the animals in the larger herds would be irreparable.

"POOR LITTLE CITY CHILD" HAS FIVE TIMES CHANCE OF HIS COUNTRY COUSIN

NEW YORK, Jan. 31.—The "poor little child" who has the misfortune to be born in a city has just five times as good a chance of reaching maturity as his country cousin, according to Dr. Thomas D. Wood, of Teachers college, New York. Speaking before a teachers' conference in Belvidere, N. J., Wednesday, Dr. Wood cited figures based on a survey of 500,000 children to support his contention. The figures showed country children to lead city children in tooth, defects, defective tonsils, adenoids, malnutrition and breathing defects.

STOWAWAY IN PLANE, GIRL SHOWS UP WHEN SHIP IS MILE IN AIR. CONNEESSVILLE, Feb. 2.—Pretty Miss Mabel Falkwick of Cincinnati stepped lightly from the passenger airplane piloted by Alfred Lawson of Washington, D. C., when high winds forced it to alight in a corn field here Friday night.

"This is my stowaway," grinned Pilot Lawson to reporters. The girl, who was visiting in Washington, decided she would like to take the air, so she hid herself in the cabin and only revealed her presence when the ship was a mile or two above the earth. "They couldn't very well throw me out then," said she demurely.

In the event it is found suitable for military purposes, the scheme is to have one unit attached to each division. Subsequently, further developments are contemplated whereby machinery for the repair of harness and personal equipment can be made.

22,000 Essex Now in Use

A critical public has judged the Essex. In the past year it set a world's sales record. More than \$35,000,000 was paid for 22,000 Essex cars now in service. That shows how men wanted what Essex offered. Now Essex proves the accuracy of motordom's judgment.

Let the official tests speak: On the Cincinnati Speedway a stock chassis Essex made a new world mark of 3037 miles in 50 hours, under observation of the American Automobile Association. With other trials the same Essex ran a total of 5870 miles in 94 hours, 22 minutes driving time, averaging over a mile a minute. Still another Essex phaeton holds the world's 24-hour road mark of 1061 miles made in the face of a blizzard over snow-covered Iowa country roads.
